Reporting "ICoFR") and International Financial Reporting Standards "IFRS". Presentation of LKTT FY 2020, in terms of activities and processes of the implementation of the internal control system of the Company and its Subsidiaries (ICoFR), control over PSAK is carried out on a quarterly basis which requires coordination and physical presence of employees especially for the documentation preparation and presentation in accordance with financial accounting standards in Indonesia and International (IFRS), and also to provide the complete and correct collection of documentation of all information in the financial statements. The pandemic due to Covid-19 outbreak has caused the Company and Subsidiaries to implement health protocol by implementing work from home (WFH) mechanism for most employees until now to minimize the risk of Covid-19 transmission. This causes operational constraints related to the entire process of preparation and presentation of the Company's LKTT and Subsidiaries in accordance with financial accounting standards in Indonesia;

3. Based on these things, the Company estimates that the LKTT FY 2020 will be completed and we are ready to submit at the latest around August 7, 2020.
