Transformation Towards Excellence

Amid increasingly developing technology and digitalization, PT Telkom Indonesia (Persero) Tbk (Telkom) continues to innovate to expand its services. The increasingly rapid development of digitalization presents challenges and opportunities for Telkom as the largest telecommunication company in Indonesia. The increasing demand for digital services opens opportunities for Telkom to develop and expand the various digital services offered to meet customer needs. Meanwhile, internet access, which still needs to be evenly distributed throughout Indonesia, is one of the biggest challenges in this era of digitalization. For this reason, we are committed to supporting the Indonesian Government's efforts to encourage increased growth in the telecommunication sector and accelerate national digital transformation. We will continue to innovate and prioritize the quality of our services to support the transformation towards a superior Indonesian digital economy and increase the creation of shared value for all stakeholders.

DISCLAIMER

PT Telkom Indonesia (Persero) Tbk has published this Report as a form of transparency and accountability to present material data and information for our stakeholders. In general, the contents of this Report are derived from internal analysis as well as credible document sources and trustworthy sources. Some parts of this Report contain data and information that are forward-looking statements such as targets, expectations, forecasts, estimates, prospects, or projections of Telkom's future operational performance and business conditions. Before being presented in this Report, Telkom has carefully considered the data and information.

However, Telkom understands that risks and uncertainties that are caused by several factors, such as changes in the economic, social, and political conditions in Indonesia may affect future operational performance and business conditions. Consequently, Telkom would like to remind readers that Telkom cannot guarantee that the data and information that comprise this Report's forward-looking statements are true, accurate, and can be fulfilled entirely.

In addition to publishing this Report, Telkom as a company listed on the New York Stock Exchange (NYSE) is also required to submit SEC Form 20-F as Annual Report to the Securities and Exchange Commission (SEC). Therefore, some of the information in the 2023 Annual Report can also be found in the SEC Form 20-F, although the two Reports are not the same.

The term "Telkom" as used in this Report refers to the parent entity, while the term "Telkom and its Subsidiaries" or "TelkomGroup" refers to the entire parent company, subsidiaries, and affiliated entities as a whole. Nevertheless, the use of the term "Telkom" does not exclude subsidiaries and affiliates within the scope of the contents and discussion of the Report. REPORT OF THE BOARD OF COMMISSIONERS

Esteemed stakeholders,

Praise and gratitude to God Almighty because, with His grace, PT Telkom Indonesia (Persero) Tbk ("Telkom" or "the Company") made it through 2023 by recording a proud performance amidst various global uncertainties and challenges. Therefore, on this precious occasion, allow me, on behalf of the Board of Commissioners, to submit a report on the supervision of Telkom Indonesia's business management for the financial year 2023.

This report includes our assessment of the performance of the Board of Directors in managing the company; supervision of the formulation and implementation of strategies by the Board of Directors; views on the company's business prospects prepared by the Board of Directors; and views on the implementation of corporate governance.

Macroeconomic and Industry Outlook

Indonesia's macroeconomy in 2023 continues to show considerable resilience amidst various global uncertainties. Indonesia's economy grew by 5.05% in 2023, supported by strong domestic consumption, investment growth, and sustainable structural reforms. Inflation conditions are still maintained at around 2.5%, in which case the government has succeeded in conducting a stable monetary policy that can suppress inflation rates, especially volatile food price inflation. According to the International Monetary Fund (IMF), the global economy is forecast to grow by 3.1% in 2024, and for developing countries it is forecasted to grow by 5.2%. Due to the effects of elections and government spending, Indonesia is predicted to grow by up to 5.3% in 2024. The economic challenges lie in geopolitical conditions, supply chain disruption, and climate change.

The telecommunications industry is vital to the nation's economic and social development in this digital era. With the number of mobile internet users reaching 353.3 million, Indonesia has one of the largest telecommunications industries in Southeast Asia¹. Moreover, 70% of Indonesia's demographics are dominated by tech-savvy², productive ages, thus opening up more significant opportunities for progress. The use of technology is inseparable from daily life, with the majority of Indonesians using the internet to access social media (97.8%), read online news (70.7%), listen to streaming music (71%), and stream on-demand TV (65.8%)³.

This development has driven the rapid growth of the Information and Communication Technology (ICT) sector. In 2022, the ICT sector contributed significantly to the national GDP, reaching 812.81 trillion rupiah⁴. Its growth is also predicted to stabilize, with a CAGR of 6.1% during 2023-2027⁵. Not only that, Indonesia's digital economy also continues to grow. The digital economy's contribution to GDP is expected to jump from 8% in 2022 to 14% in 2027⁶. The Gross Merchandise Value (GMV) of Indonesia's digital economy is predicted to reach USD 210-360 billion by 2030⁷. This figure shows the tremendous potential for Indonesia's economic growth in the digital era. Technologies such as e-commerce, fintech, and artificial intelligence (AI) will be the main drivers of digital economic growth in the future.

Despite this vast potential, Telkom, as a state-owned telecommunications company, is faced with various obstacles in responding to the development of digitalization. To become a leader in this digital era, Telkom continues to adapt to change, improve network infrastructure, expand service coverage, and bring relentless innovation to meet evolving market demands.

“The financial year 2023 was a challenging year for Telkom Indonesia. The dynamics of business transformation in the 5 Bold Moves strategy and the challenges of industry changes caused by technological developments, competition, and changes in people’s lifestyles made this year’s achievements more notable than in previous years.”

However, we also recognize that competition in the telecommunications industry is increasingly fierce. Regulatory changes, technological innovations, and market dynamics will affect service quality, operational efficiency, and reduce our competitive advantage.

Assessment of the Performance of the Board of Directors Regarding the Management of the Company

Each year, the Board of Commissioners conducts an assessment of the performance of the Board of Directors, which is comprehensively described in the Key Performance Indicators (KPI) of the Board of Directors individually and collegially, which is submitted to the Shareholders through the General Meeting of Shareholders (GMS).

Based on the views and assessments of the Board of Commissioners, the Board of Directors carried out its duties and responsibilities well in 2023, reflected in the Company’s exemplary performance achievements.

In our view, the Board of Directors of Telkom Indonesia has taken four critical steps in 2023, namely:

1. Maintaining the Company’s health in a stable and prospective condition.

Amid increasingly fierce competition, Telkom Indonesia recorded exemplary financial achievements during the 2023 financial year, with stable revenue growth, improved profitability, and efficient capital management. Key financial ratios also showed positive developments resulting from strategic decisions and proper execution of decisions by the Board of Directors. Investors’ views on Telkom’s share price prospects are also favorable, as indicated by the positive recommendations from most major analysts for Telkom shares in 2023.

2. Laying the pillars of future growth through the 5 Bold Moves initiatives.

In addition to maintaining Telkom’s growth in 2023, the Board of Directors has simultaneously led a series of 5 Bold Moves strategic initiatives. The strategic initiatives in the Company’s 2019-2024 Long Term Plan are based on five main strategies: Fixed Mobile Convergence, Network Infrastructure, Data Center, B2B IT Service, and Digital Company.

From left to right:

Arya Mahendra Sinulingga (Commissioner), Bono Daru Adji (Independent Commissioner), Rizal Mallarangeng (Commissioner), Silmy Karim (Commissioner), Bambang Permadi Soemantri Brodjonegoro (President Commissioner/Independent Commissioner), Isa Rachmatarwata (Commissioner), Abdi Negara Nurdin (Independent Commissioner), Marcelino Rumambo Pandin (Commissioner), Wawan Iriawan (Independent Commissioner), Ismail (Commissioner).

The corporate and business transformation process was never done in the previous Board of Directors' leadership era. It is difficult to drive change for a company like Telkom, which has more than 23,064 employees and 58 subsidiaries. This certainly has consequences in all aspects of corporate management, such as strategic planning, business processes, information technology, human resources, corporate communications, and risk management.

We realize that the benefits of transformation cannot always be reaped at the time of the transformation, so it is essential for the Board of Commissioners to constantly remind the Board of Directors to show exemplary leadership and consistency to foster awareness among employees to change and grow for the betterment of the Company.

3. Improving the quality of governance, risk, and compliance.

Along with the increasing complexity of business and the industry challenges faced by TelkomGroup, the Board of Directors continues to realize a solid commitment to managing risks that arise in business management. We observe that several concrete steps have been taken to improve the quality of GRC in Telkom, among others, through increasing risk management competencies in the management of the Company and its subsidiaries, enhancing the implementation of integrated risk management in TelkomGroup, and implementing risk project assessment.

4. Broadening the perspective of corporate social responsibility within the ESG framework

Throughout 2023, TelkomGroup strives to improve operational and financial performance balanced with the management of ESG aspects to contribute to future sustainability and support the achievement of the Sustainable Development Goals (SDGs). The Board of Commissioners views that the Board of Directors has run the Company with due regard to ESG management throughout 2023.

We can conclude that Telkom Indonesia's Board of Directors has performed well in managing the company and driving sustainable growth. These achievements do not deter us from improving our supervisory functions and enhancing our cooperation with the Board of Directors to improve performance and achieve greater heights in the future.

Supervision of the Board of Commissioners in the Formulation and Implementation of Corporate Strategy by the Board of Directors

As part of the implementation of the Company's Articles of Association and other relevant provisions, such as Regulation of the Minister of SOEs Number PER-2/MBU/03/2023 dated March 24, 2023, concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises, the Board of Commissioners plays an active role in overseeing the Company's strategy and ensuring that the steps taken are aligned with the Company's purpose, vision and mission.

The Company has a systematic planning hierarchy, starting with its Long Term Plan (RJPP), Corporate Strategic Scenario (CSS), and the Company's Budget Work Plan (RKAP). For each level of planning, the Board of Commissioners must evaluate the proposal submitted by the Board of Directors, approve the proposed strategic plan, and monitor the implementation of the Company's strategy.

To supervise the process and approval of the Company's strategic planning, especially the RJPP and CSS, the Board of Commissioners, through the Planning & Risk Monitoring Evaluation Committee (KEMPR), identifies and evaluates external and internal factor, evaluates risks in each strategic plan, and verifies financial projections in the RJPP and CSS. As for the supervision of the process and approval of the RKAP, the things that become the object of evaluation include the relevance of the RKAP to the planning prepared in the RJPP and CSS, as well as the Aspirations of Dwiwarna Shareholders, the assumptions for preparing the RKAP, business and financial projections, and capital expenditures.

As for the aspect of monitoring the implementation of the Company's strategy, based on the mapping of the Company's risks identified during the planning evaluation, the Board of Commissioners, at the beginning of each year, determines the priority of discussions that become the supervisory agenda of the Board of Commissioners and the supporting Committee of the Board of Commissioners. Throughout 2023, some of the concerns of the Board of Commissioners include B2B Enterprise development, Digital Business, Network Modernization and Infrastructure Management, Fixed Mobile Convergence, and Improvement of Risk Management and Internal Control Functions.

Mechanism for Providing Advice to the Board of Directors

As part of the duties of the Board of Commissioners, in addition to supervising and monitoring the Company's management, the Company's Board of Directors, the Board of Commissioners also carries out the task of providing advice to the Board of Directors. The implementation of these duties is carried out through the provision of advice in meetings held by the Board of Commissioners and the Supporting Committees of the Board of Commissioners, as well as the delivery of written advice contained in a letter or Decree of the Board of Commissioners. During 2023, the Board of Commissioners held 27 Internal Meetings, 13 Joint Meetings of the Board of Commissioners and Board of Directors, 17 Audit Committee meetings, 23 Planning & Risk Evaluation and Monitoring Committee meetings, and 57 Nomination and Remuneration Committee meetings.

As a Board of Commissioners, we have conducted thorough and proactive supervision to ensure that every strategic decision taken by the company's management has a solid foundation and supports Telkom Indonesia's long-term growth.

Outlook on Business Prospects

The financial year 2023 was a challenging year for Telkom Indonesia. The dynamics of business transformation in the 5 Bold Moves strategy and the challenges of industry changes caused by technological developments, competition, and changes in people's lifestyles made this year's achievements more notable than in previous years. We believe that the Board of Directors has taken the best steps to achieve sustainable business growth, including laying the pillars of business transformation as a foothold for future growth.

In our view, Telkom's future business prospects are promising, in line with the optimism of other telecommunications industry players. With a CAPEX plan that reaches 22% of total revenue and is focused on developing the mobile, fixed broadband, data center & cloud, and infrastructure businesses, positive and sustainable performance growth is expected to be achieved.

Future business prospects will also be characterized by the increasing intensity of the use of technology by telecommunications operators, such as data analytics & artificial intelligence, and the Internet of Things (IoT), to achieve two objectives: improving operational quality and increasing business opportunities through technology-based customer solutions. Technological development also strongly influences our infrastructure business, especially in satellite and broadband. On the competition side, competition is projected to intensify for the fixed and mobile broadband businesses, along with the increasing infrastructure and operator penetration into the low-segment market.

Another thing that we need to look at together is the increasing public pressure for companies to implement green energy policies. In some business sectors, using environmentally friendly energy is also mandatory and needs to be fulfilled, for example, in the data center business. This certainly impacts efficiency due to Indonesia's uneven supply of environmentally friendly energy.

In addition to making prudent investments, Telkom will continue improving the quality of service to customers and establishing the broadest possible partnership with strategic partners, based on principle of mutual benefit while maintaining integrity, to address the prospects and challenges of the future business.

Assessment of the Performance of Committees Under the Board of Commissioners

Three Committees assist us in carrying out supervisory functions in the Company: the Audit Committee, Nomination and Remuneration Committee (KNR), and Planning and Risk Evaluation and Monitoring Committee (KEMPR). Based on our assessment, the three Committees have performed their duties and responsibilities well. Each committee has made studies and recommendations that support the Board of Commissioners in carrying out its oversight mechanism of the Company.

The Audit Committee assists us in overseeing and reviewing financial information that will be submitted to the public and reviewing complaints relating to accounting and financial reporting processes. The Nomination and Remuneration Committee provides recommendations regarding policies, criteria, and selection of strategic officer candidates within Telkom Group and the remuneration policy of the Board of Directors. The Planning and Risk Evaluation and Monitoring Committee provides recommendations related to risk management monitoring and implementation of the Company's strategy, as well as evaluating and monitoring the Board of Directors' proposals related to the Long-Term Plan, Implementation Strategy Document (Mid-Term Plan), the Company's corporate actions within a certain threshold, and the Company's Budget Activity Plan.

Outlook on the Implementation of Good Corporate Governance

Good corporate governance is a crucial foundation for a company's long-term success and sustainability. Telkom Indonesia is firmly committed to implementing the best corporate governance practices, and this approach not only enhances value for our stakeholders but also strengthens our corporate reputation and integrity. Recognition of the achievement of the quality of the implementation of good corporate governance is demonstrated by the increase in the ASEAN Corporate Governance Scorecard (ACGS) score from 97.87 to 98.5.

In the aspect of risk management implementation, the Board of Directors has shown its seriousness in improving the quality of good corporate governance, among others, including:

1. Implementation of BUMN Ministerial Regulation No.: BUMN Ministerial Regulation Number PER-2/MBU/03/2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises. Several things that have been done as a form of implementation of these regulations include:
 - a. Improving the risk management monitoring system;
 - b. Fulfillment of risk management organs in the Company and its subsidiaries;
 - c. Implementation of risk project assessment for the Company's strategic projects.
2. In the aspect of continuously eradicating corruption, the Company has recertified ISO 37001:2016 and succeeded in maintaining ISO 37001:2016 Certification, the scope of which includes Human Capital Business Partner (recruitment function), Group Strategic Procurement, and Telkom Shared Service Center (Procurement Support & Unit). General Affair, Network Procurement Operation, and IT & Others Procurement Operation) as of 14 December 2023.

3. Regarding internal control aspect, the Board of Commissioners, through the Audit Committee, has routinely monitored the effectiveness of the Company's internal control system. Based on the monitoring conducted during 2023, the Company's Internal Control System is still adequate. However, in line with the development of the Company's business, including future business challenges and risks, strengthening is needed so that it is always relevant and can prevent losses. Strengthening the internal control system also needs to continue to be carried out in subsidiaries to improve the quality of governance in an integrated manner.
4. In business ethics and social responsibility, the company strives to conduct its business with integrity, maintain healthy relationships with all stakeholders, and contribute to the welfare of the community and environment.
5. Human resource development through implementing various employee training and education programs, creating an inclusive and diverse work environment, and encouraging a work culture based on integrity and collaboration.

With the implementation of this good corporate governance, we are confident that Telkom Indonesia will continue to be a robust, sustainable, and reliable company in the eyes of our stakeholders. We thank all our team members, management, and stakeholders for their dedication and contribution to realizing these principles of good corporate governance.

Appreciation to Stakeholders and Closing Remarks

On behalf of the Board of Commissioners, I am expressing my sincere gratitude to all Directors, management, and employees of the Company for their dedication, hard work, and collaborative spirit in realizing the Company's purpose, vision, and mission. We are confident that with a collaborative, innovative, and sustainable spirit, Telkom Indonesia will continue to be a leader in the telecommunications industry and play an essential role in building an inclusive and sustainable digital ecosystem.

We also appreciate the trust of our customers and shareholders and the contributions of the Government, business partners, and all other stakeholders who have actively supported us on our journey throughout 2023.

Jakarta, March 31, 2024

On Behalf of the Board of Commissioners

Bambang Permadi Soemantri Brodjonegoro
President Commissioner/Independent Commissioner

“ The year 2023 is a critical key milestone for Telkom in its transformation, thus ensuring the Company’s transformation agenda can be implemented correctly and on time are very important in strengthening the Company’s business fundamentals and encouraging healthy and sustainable business growth.”

Ririek Adriansyah

President Director

REPORT OF THE BOARD OF DIRECTORS

Esteemed Shareholders, Board of Commissioners, and all stakeholders,

All praise and gratitude to God Almighty for His abundance of grace, which enabled PT Telkom Indonesia (Persero) Tbk ("Telkom" or "Company") managed to pass the year 2023 with a pretty good performance. On this occasion, please allow us to summarize our performance and various efforts and achievements we have achieved throughout 2023.

Overview of Economic and Industry Conditions

Amidst the global environment's disruption in supply chains, natural disasters, financial sector volatility, geopolitical tensions, and global geo-economic fragmentation, Indonesia continues to show resilience and potential for sustainable growth.

By the end of 2023, the national economy could grow by 5.05%. This condition signifies the consistency, resilience, and better performance of the Indonesian economy compared to many other countries. Indonesia's inflation is also under control at 2.61% (yoy) as of December 2023, much lower than the 2023 projection of 3.6%.

The telecommunications industry supports inclusive and sustainable economic growth in Indonesia. Telecommunication services connect people with each other and are the foundation for innovation, business growth, and social progress.

To create a healthy and sustainable telecommunications and information ecosystem, we continue to invest in network development, information technology innovation and digitization, and service quality improvement. We also strive to create affordable service prices to increase accessibility for all levels of society in Indonesia.

Strategy and Corporate Strategy Policy

The year 2023 is a critical key milestone for Telkom in its transformation, thus ensuring the Company's transformation agenda can be implemented correctly and on time are very important in strengthening the Company's business fundamentals and encouraging healthy and sustainable business growth. The success of the transformation agenda is expected to boost business fundamentals further while creating a growth story that serves as the basis for the Company's roadmap.

To achieve this goal, in 2023, we launched a corporate theme, 'Drive Transformation Agenda to Ensure Strong Business Fundamental and Healthy Sustainable Growth' which has three primary programs, including:

1. Deliver best customer experience by strengthening data-analytics capability and digitization process. Focusing on customer expectations and providing the best customer experience in this digital era is critical to winning the market. To achieve this, we continue to improve our data analytics capabilities and strengthen our digitization process as a key strength in understanding customer expectations comprehensively and deeply to provide the best customer experience.

“Telkom continues to strive to invest in strengthening its digital connectivity, digital platform, and digital services business lines.”

2. Execute timely business transformation to enhance portfolio performances in B2C-B2B and digital platform-infrastructure.

We understand that business transformation must be accelerated, given the limited momentum. Hence, we are doing it in parallel while ensuring all aspects of readiness are on track. We are executing B2C consolidation while still paying attention to the preparedness of B2B capabilities. Likewise, we continue to prepare portfolios on digital platforms and infrastructure, such as DC and B2B IT, to become the foundation for accelerating business growth.

3. Ensure key assets and business capabilities readiness by smart investment in talent and technology.

In this program, we continue to strengthen Telkom's competitive position and advantage by ensuring that the Company's capabilities and critical assets are ready. In the process of achieving this, we focus on investing carefully and wisely in both talent and technology to ensure the enhancement of the Company's capabilities and achieve maximum performance.

Through the company program above, during 2023, Telkom transformed its strategic objectives through the Five Bold Moves (5BM) initiative. The 5BM initiative consists of five transformation programs, namely Fixed Mobile Convergence (FMC), InfraCo, Data Center Co, B2B Digital IT Service Co, and DigiCo, to strengthen Telkom's position as a digital telecommunications company in creating higher value for the company's stakeholders as well as maximizing opportunities, increasing competitiveness, and value creation in facing future challenges. Throughout 2023, Telkom has focused on executing the 5BM program based on the three pillars of Telkom's business domain for the digital connectivity pillar through the FMC program and the establishment of InfraCo for the digital platform business pillar through Data Center consolidation and B2B Digital IT Service, and the digital services business pillar through the DigiCo initiative.

Formulation of Company Strategy and Strategic Policies

Strategy formulation begins with discussions at the company's board of directors level by considering the results of the strategic situation analysis covering the company's external and internal aspects as well as recommendations from the company's stakeholders by considering and taking into account all risk factors that are expected to affect the company's business continuity. Based on this information, the company's vision, mission, and strategic objectives were formulated, including the strategic initiatives to be implemented to achieve the strategic goals. The formulation results were poured into a draft document, which was discussed intensively with the Board of Commissioners in a workshop.

The Board of Directors is critical in formulating the Company's strategic strategies and policies. The Company's strategic strategy and policies are outlined based on the period, namely:

1. Long-term Corporate Plan (RJPP), which is a long-term planning document at the corporate level that contains strategic aspirations from stakeholders, as well as strategic direction and KPIs that are high level in nature prepared for periodic planning of 5 (five) years;
2. The Medium-Term Plan, a planning document at the corporate level as the primary document of the company's strategic scenario in implementing the directions in the RJPP, is prepared for periodic planning for 3 (three) years. The Medium Term Plan is updated annually so that the strategic scenario can follow the company's internal and external dynamics; and,
3. The Company's Work Plan and Budget (RKAP) is the company's short-term planning document at the strategic execution level for the next 1 (one) year, which contains the targets, work programs, and budgets needed as directed by the long-term and medium-term strategies by always paying attention to industry dynamics, stakeholder aspirations, and the latest business outlook data.

Strategic documents that the Board of Commissioners has approved will then be distributed to each business unit and support unit, including subsidiaries, so that all organizations within the company get clear direction from their targets and authorities. To help ensure consistency in actions and decisions taken in executing strategies throughout the organization, the company also makes Strategic Policies in the form of Board of Directors Regulations or other regulations deemed necessary to provide more detailed direction on how the company operates and behaves effectively and efficiently. These Strategic Policies are related to resource allocation, risk management, product development and customer relations, supplier relations, environmental sustainability, corporate governance, or other necessary strategic policies.

Implementation of Corporate Strategy

The implementation of the company's strategy is outlined in an annual strategic work plan prepared systematically and comprehensively through the RKAP, which is then derived and translated into the RKAP of each business unit, support function, and subsidiary. The RKAP includes execution strategies, targets, programs, budget requirements, and supporting guidance to succeed the RKAP.

Then, to monitor the achievement of work program implementation, the Board of Directors periodically monitors and evaluates the Company's performance through financial, operational, and other necessary indicators. In addition, the Board of Directors is also responsible for assessing and updating the effectiveness of the strategies adopted by the company and ensuring that the company remains relevant and competitive in the market.

Performance Achievement Compared to Target

In 2023, Telkom obtained revenue of Rp149.22 trillion, an increase of 1.3% compared to 2022. Regarding profitability, Telkom recorded an EBITDA of Rp77.58 trillion, a decrease of 1.8%, and a net profit of Rp24.56 trillion, or an increase of 18.3%. Compared to the Company's 2023 target, revenue achievement amounted to 95.5%, and net profit amounted to 93.1%.

On July 1, 2023, the Company executed one of the 5BM program initiatives, Fixed Mobile Convergence (FMC), which aims to increase added value by integrating mobile and fixed broadband services. This initiative is also expected to accelerate digitalization in Indonesia by providing excellent customer experience and infrastructure, focusing on equitable access, channel expansion through one application, and improved customer service. The low penetration of fixed broadband in Indonesia will provide better growth momentum and strengthen the Company's mobile business' dominance.

This step is also expected to generate synergies not only in terms of revenue but also in streamlining operational costs and optimizing capital expenditures at TelkomGroup, this can be shown in the six months since July 1, 2023, a synergy value of Rp464 billion has been generated, which includes efficient operational costs and optimization of capital expenditures at TelkomGroup of Rp370 billion which, among others, is contributed from the efficiency of PSB, TSA, ODP, content cost efficiency, optimization of Plasa Telkom and Grapari as many as 191 sites. Through FMC, the Company also responded to the challenges of the dynamics in the telecommunications industry by leading the trends and direction of the industry, ensuring improved service quality, and strengthening the Company's position in the market.

The corporate business has transformed its approach to strengthening business-to-business (B2B) to enhance and maintain the Company's portfolio of digital solutions and IT services and to capture new opportunities in the government sector, large corporations, and small and medium enterprises (SMEs). To continue building future capacity consistently and implementing best practices, Telkom also established partnerships with industry players. These efforts have resulted in positive achievements at the regional level in the B2B segment, which grew by 7%, and revenue growth in the SME segment in the region by 11%; partly driven by revenue growth in IT Services by +39% and digital solutions by 14%. Adopting this new B2B model can strengthen the sustainable and healthy development of TelkomGroup.

Another initiative that is also very important for the Company is unlocking the value of the data center business, which is in response to the tremendous changes and improvements in this business in Indonesia, especially large-scale data centers. The Company seeks to gain significant market-share growth in the provision of data center services to complement and strengthen the Company's business portfolio further. In 2023, the Company managed data centers with a capacity of 42 MW and recorded data center and cloud revenue of Rp1.9 trillion, or grew 14.8% from the previous year, including data centers managed through its subsidiary Telkom Data Ekosistem (TDE) with a capacity of 19 MW which includes Hyperscale Data Center Cikarang (level 1) and Enterprise Data Centers in Serpong, Sentul, and Surabaya. The Company, through TDE, is currently building Hyperscale Data Center Batam through cooperation with strategic partners to develop the data center business for the regional market. The Company, including in this case through TDE, will gradually build and manage data centers with a target of 62 MW by 2025, which provides for Hyperscale Data Center, Enterprise Data Center, International Data Center, and Telkom's Edge Data Center or NeuCentriX.

Bogi Witjaksono (Director of Wholesale & International Service), Herlan Wijanarko (Director of Network & IT Solution), Budi Setyawan Wijaya (Director of Strategic Portfolio), Heri Supriadi (Director of Finance and Risk Management), Ririek Adriansyah (President Director), FM Venusiana R (Director of Enterprise & Business Service), Honesti Basyir (Director of Group Business Development), Muhamad Fajrin Rasyid (Director of Digital Business), Afriwandi (Director of Human Capital Management).

By the end of 2023, we have also established the InfraCo entity, a new entity focused on the fiber optic-based network services sector, with the strategic objective of enhancing value creation from our infrastructure. As the owner of the largest network in Indonesia, InfraCo has the potential to play an essential role in higher asset returns.

Obstacles Faced and Steps to Resolve them

Some of the obstacles we face include:

1. Changing regulations:
The Company must face and anticipate challenges related to regulatory changes that can affect how the company operates; this requires rapid adjustment and adaptation to ensure the Company can comply with any new regulations.
2. Intense competition:
Competition in the digital telco industry in Indonesia continues to increase with the entry of new players both from within and outside the country, increasingly diverse and commoditized products/services, and the expansion of services from existing competitors. The Company must constantly innovate its business model and operating model, including building strategic partnerships with partners that fit the company's portfolio strategy so that it can provide services that are always up-to-date and efficient to improve customer experience and satisfaction.
3. Infrastructure Coverage:
Although the Company always strives to expand its infrastructure, especially for digital connectivity and digital platform services in Indonesia, there are still limitations to reach, especially in the 3T (Disadvantaged, Frontier, Outermost) areas. Utilizing the latest technology that is more efficient and cooperation with various parties, such as local governments, local partners, etc., is expected to increase the penetration and wider expansion of service infrastructure.

4. High Investment Needs:

The development and maintenance of connectivity and platform services infrastructure requires high investment, but on the other hand, the current trend in the telecommunications industry faces the commoditization of connectivity services. Therefore, the Company has also prepared and developed second-curve services from its digital platform and digital services portfolio, such as Data Centers, Cloud Services, and IT Services.

5. Cyber Security Threats:

As the digital lifestyle of today's society has implications for the increasing dependence on digital technology, the Company also faces more significant risks related to cyber security. Threats such as cyber-attacks and data theft can damage the company's reputation and disrupt operations, so the Company continues to strengthen the information security system and build cyber risk awareness & understanding, especially to all TelkomGroup employees and partners.

Overview of Business Prospects

"Telkom continues to strive to invest in strengthening its digital connectivity, digital platform, and digital services business lines."

The implementation of digitalization opens up excellent opportunities for Indonesia to progress in various fields, such as education, health, finance, and other sectors, which can be achieved more quickly and cost-effectively through different digital platforms. For this reason, extensive and high-quality digital connectivity infrastructure, a capable digital platform, and digital services that suit people's needs are critical. To contribute to creating a digital environment, developing a digital society, and accelerating the digital economy, Telkom continues to strive to invest in strengthening its digital connectivity, digital platform, and digital services business lines.

Implementation of Good Corporate Governance

Telkom always applies the principles of Good Corporate Governance (GCG) and eight company management principles by implementing the Public Company Governance Guidelines from the OJK. The implementation of GCG is carried out to support the realization of the Company's purpose, vision, and mission, providing added value for shareholders and all other stakeholders. Good corporate governance is an essential aspect of ensuring the company's sustainability in the long term.

Throughout 2023, we have strengthened various significant areas in ensuring the implementation of good corporate governance, including maintaining the organization and competence of Internal Audit, which aims to increase the effectiveness of risk management, internal control, supervision, and the Company's operational efficiency.

Closing

In closing, we, on behalf of the Board of Directors of PT Telkom Indonesia (Persero) Tbk, would like to express our highest appreciation to all shareholders, the Board of Commissioners, loyal customers, business partners, media, the wider community, and other stakeholders for the support that has been provided throughout the year 2023. We would also like to thank all levels of management and TelkomGroup employees for their dedication and contribution to realizing Telkom's goals, vision, mission, and work programs in 2023.

We are confident that, in the future, Telkom can continue to innovate amidst various challenges and opportunities in the digital era. We hope Telkom can grow sustainably, create higher corporate value, and provide the best service to meet national digital needs.

About Telkom

PURPOSE, VISION, MISSION, AND STRATEGY

PURPOSE

To build a more prosperous and competitive nation as well as deliver the best value to our stakeholders.

VISION

To be the most preferred digital telco to empower the society.

MISSION

1. Advance rapid buildout of sustainable intelligent digital infrastructure and platforms that is affordable and accessible to all.
2. Nurture best-in-class digital talent that helps develop nation's digital capabilities and increase digital adoption.
3. Orchestrate digital ecosystem to deliver superior customer experience.

STRATEGIC FOCUS 2023

Our overall long-term strategic focus on achieving business excellence in three digital business domains (digital connectivity, digital platform, and digital services) as well as optimizing operations and services in order to maintain a market leadership position, create sustainable growth, unlocking value for stakeholders, also encourage comprehensive digitalization for Indonesia. In 2023, we are launching a corporate theme “**Drive transformation agenda to ensure strong business fundamental and healthy sustainable growth**” with three main programs, namely:

1. Providing the best customer experience by strengthening data analysis capabilities and digitalization processes;
2. Executing timely business transformation to improve the performance of B2C-B2B portfolio and digital platform-infrastructure; and
3. Ensuring the readiness of business assets and capabilities through smart investment in talent and technology.

To achieve these three main programs and strengthen our position as a world-class digital telecommunication company, TelkomGroup is focused on carrying out transformation and implementing the **Five Bold Moves** strategy to build competitive advantages in the digital connectivity, digital platform and digital services domain. Through these Five Bold Moves, it is hoped that in the future Telkom will have a leaner organization, more focused on key business, more specialized capability, more efficient on the operational side, and have the right engagement with customer, investor, and partner on each business characteristic. The five big programs (five bold moves) are:

1. Fixed Mobile Convergence (FMC)

We continue to strengthen market penetration, cost efficiency, and operational excellence, while enhancing the best customer experience by developing our technology and services to optimize interoperability between our fixed and mobile networks to enable customers to switch seamlessly regardless of location and device.

2. InfraCo

We seek to unlock the consolidation potential of our infrastructure asset, including optical access network infrastructure and tower so as to create higher value. We believe this initiative will provide benefits, including optimal asset utilization, cost-effective connectivity, and accelerated market penetration so that in the end it will be able to increase the value of infrastructure asset and attract investors to join.

3. Data Center Co (DC Co)

We are in the process of consolidating data center asset and increasing data center business capacity. In addition, we also collaborate with hyper-scaler and technology giant to accelerate data center business growth and expand our data center presence in the region – starting from Indonesia and ASEAN.

4. B2B Digital IT Service Co

We are transforming towards B2B Digital IT Services through partnership and collaboration with technology giant, such as Microsoft and AWS. Furthermore, we are preparing Telkomsigma to become a leading B2B Digital IT Service player serving the corporate market, SOE, government, and SME.

5. DigiCo

We are developing a digital company (DigiCo) that focuses on B2B and B2C segments to accelerate digital service by taking advantage of our advantages that competitor do not have. Telkomsel through PT Telkomsel Digital Ecosystem (TED) is developing a vertical business portfolio in the digital sector, namely health-tech, edu-tech, and mobile gaming.

CORPORATE CULTURE AND VALUE

CORE VALUES AKHLAK

Based on the Circular Letter of the Minister of SOE Number SE-7/MBU/07/2020 dated July 1, 2020, regarding Core Values for Human Resources of State-Owned Enterprises (SOE) strengthened by SK-115/MBU/05/2022 regarding Guidelines for Implementing the Main Value of Human Resources for State-Owned Enterprises (AKHLAK Culture Journey), TelkomGroup as part of a SOE is obliged to implement the main values called AKHLAK.

**AMANAH KOMPETEN HARMONIS
LOYAL ADAPTIF KOLABORATIF**

Amanah/Trustworthy	Holding on to the trust given
Kompeten/Competent	Continue to learn and develop capabilities
Harmonis/Harmonious	Caring for each other and respecting differences
Loyal	Dedicated and prioritizing the interests of the nation and the state
Adaptif/Adaptive	Continue to innovate and be enthusiastic in moving or facing change
Kolaboratif/Collaborative	Building a synergistic collaboration

As a form of TelkomGroup's commitment to implementing Core Values AKHLAK, Telkom's Corporate Strategic Scenario 2024 - 2026 mandates the Company to carry out Transform to Digital Telco Talents & Incorporate Digital Culture – Ways of Working Under Digital Age which is in line with Core Values AKHLAK. The Corporate Annual Message (CAM) also contains the spirit to strengthen Telkom's culture and digital culture attributes by leveraging AKHLAK core values as foundation. Furthermore, one of the focuses in HC Strategy also mandates Instill Harmony & Productive Working Environment Based on AKHLAK & compelling EVP.

COMPANY CULTURE ACTIVATION PROGRAM

All TelkomGroup unit leaders act as role model and main driver in the Company culture activation program. To ensure that the internalization of Company culture runs well and all employees participate actively, unit leaders appoint Culture Agent and Culture Booster in their respective unit. Currently, the number of Culture Agent and Culture Booster are 5,003 people, with 3,148 people coming from units at Telkom and 1,855 people coming from subsidiaries. Every Culture Agent must take part in the Culture Agent on Boarding (CAOB) program to equalize their understanding of the role of Company culture and program that are relevant to the company's strategy to achieve its Purpose also Vision and Mission. Unit leaders are assisted by Culture Agent and Culture Booster to form a Cultural Activation Provocation Community (*Kipas Budaya*) as a forum for implementing cultural activation in each unit.

BUILDING DIGITAL CULTURE

In order to accelerate Telkom's transformation towards Digital Telco, all TelkomGroup personnel are expected to implement Core Values AKHLAK which are strengthened by the actualization of Digital Ways of Working (digital behavior). Digital ways of working are internalized and actualized through a series of routine activations, so that they become employee's behavior and will ultimately contribute to improving Company performance.

To ensure that cultural activation has an impact on Company performance, Core Values AKHLAK and Digital Ways of Working are implemented through strategic programs that are the focus of the Company to achieve company target set out in the provision and supporting systems. Supporting systems include digital tools such as corporate portals as collaboration application (Diarium), daily operations which include e-office, e-budgeting, file sharing, career & succession management (Ingenium), learning & knowledge management (MyDigilearn), and others.

CORPORATE CULTURE EVALUATION

As an effort to maintain and improve the implementation of AKHLAK and digital behavior at TelkomGroup, HCM TelkomGroup conducted the 2023 TelkomGroup Digital Culture Index survey as an effort to find out to what extent the implementation of AKHLAK culture and digital behavior is able to support the Company's digital transformation process. By implementing the 2023, TelkomGroup DCI survey, it is hoped that information will be obtained on the level of implementation of the DCI, AKHLAK Implementation Index, and Net Promoting Score.

TelkomGroup's 2023 DCI survey was carried out through an online survey and then the survey result were deepened using method based on the 2023 DCI measurement result, Telkom obtained an AKHLAK Implementation Index score of 86.65% (Healthy Category), Digital Culture Index of 85.77% (Differentiators), and Net Promoting Score of 94.64% (Mature).

TELKOM MILESTONE AND COMPANY NAME CHANGES

Through Government Regulation Number 240 year 1961 regarding the Establishment of State Post and Telecommunication Company, Indonesian Government established Perusahaan Negara Pos dan Telekomunikasi (PN Postel). Furthermore, PN Postel was split into PN Post and Giro and Perusahaan Negara Telekomunikasi (PN Telekomunikasi) according to Government Regulation No. 30 dated July 6, 1965. This date is the basis for determining the anniversary of Telkom Indonesia.

PN Telekomunikasi was split into two entities in 1974, namely Perusahaan Umum Telekomunikasi (Perumtel) and PT Industri Telekomunikasi Indonesia (PT INTI). Perumtel then turned into a state-owned limited liability company with the official name of PT Telekomunikasi Indonesia (Persero) or Telkom in 1991. In 1995, Telkom became a public company listed on IDX and NYSE, with a market capitalization value achieved by the end of 2023 of Rp391.3 trillion on IDX and US\$25.76 billion on NYSE.

2023

Telkom and Telkomsel have signed a deed of spin-off to integrate IndiHome into Telkomsel. This agreement is an essential milestone for implementing Fixed Mobile Convergence (FMC) initiative as part of the company's primary strategy, Five Bold Moves. Telkom also launched ESG Existence for Sustainability by Telkom Indonesia (EXIST) program as a form of this commitment by increasingly focusing on managing and implementing environmental, social, and governance (ESG).

2022

Telkom has completed the first phase of construction of the Hyperscale Data Center in Cikarang and started groundbreaking for the construction of the Hyperscale Data Center in Batam. Telkom also collaborates with the world's largest technology companies, namely Microsoft.

2021

Telkomsel is the first cellular operator to provide 5G service in Indonesia. Telkom also increased its collaboration through additional investment in Gojek and signing an MoU with Microsoft.

2020

TelkomGroup has carried out several initiatives to respond to COVID-19 pandemic. Several corporate actions carried out by Telkomsel, including signing a conditional sale and purchase agreement for selling 6,050 telecommunication towers to Mitratel as well as entering into cooperation and investing in Gojek.

2019

TelkomGroup acquired 2,100 towers belonging to Indosat Ooredoo and acquired 95% of PT Persada Sokka Tama shares. Telkom also received "2019 Indonesia IoT Services Provider of the Year" award in Frost & Sullivan 2019 Asia Pacific Best Practices Awards.

2016

Telkom has completed construction of the Southeast Asia-Middle East-Western Europe 5 (SEA-ME-WE 5) submarine system.

2017

Telkom launched Telkom 3S Satellite and completed the Southeast Asia-United States (SEA-US) submarine fiber optic cable line.

2018

Telkom launched *Merah Putih* Satellite and inaugurated Telkom Hub as a Center of Excellence and Source of Inspiration to Build Digital Indonesia. Telkom has also completed the construction of Indonesia Global Gateway (IGG).

2011-2015

Telkom completed Super Nusantara Highway project and True Broadband Access project in 2011. Then in 2014, Telkom became the first operator in Indonesia to provide 4G LTE service. A year later, Telkom launched IndiHome.

1999-2010

Telkom launched Telkom-1 satellite in 1999 and Telkom-2 satellite in 2005. Telkom has also successfully completed JaKaLaDeMa underwater fiber optic cable project.

1991-1995

Perumtel officially changed to Telkom in 1991. Then in 1995, Telkom established subsidiary Telkomsel as a cellular operator and conducted an IPO on Jakarta Stock Exchange and Surabaya Stock Exchange, registered shares on NYSE and LSE, and offered open shares without listing on Tokyo Stock Exchange.

1965

PN Postel was split into two entities, namely Perusahaan Negara Pos dan Giro (PN Pos and Giro) and Perusahaan Negara Telekomunikasi (PN Telekomunikasi).

1974

PN Telekomunikasi was split into Perumtel, which provides telecommunication services, and PT INTI, which manufactures telecommunications equipment.

GENDER EQUALITY ASSURANCE AND NUMBER OF EMPLOYEES BASED ON GENDER

TelkomGroup guarantees gender equality in its Company's operating environment, in line with Resolution of the Board of Directors PD.201.01/r.00/PS150/COP-B0400000.2014 dated May 6, 2014 regarding Business Ethics within TelkomGroup. At the end of 2023, TelkomGroup has 16,019 male employees and 7,045 female employees. Even though the number of male employees is greater, TelkomGroup does not have a policy to set quota for the number of employees based on gender or discriminate against one gender. However, based on the characteristics of the industry, the interest of men to work in the telecommunications sector is higher than women.

MANAGEMENT DISCUSSION AND ANALYSIS

ANNUAL REPORT · 2023

BUSINESS OVERVIEW

GLOBAL ECONOMY AND INDONESIA

In 2023, the global economy was still recovering from the impact of COVID-19 and the Russia-Ukraine war. It was promoted by the recovering global supply chain, with the cost and delivery time returned to the pre-pandemic conditions, which it aligned with the Public Health Emergency of International Concern (PHEIC) of COVID-19 status by the World Health Organization (WHO) on May 5, 2023. However, global economic growth generally slowed down with the higher global uncertainty and created more divergence in international growth. The influential factors were the high inflation and the more aggressive tightening of monetary policy by the Central Bank that weakened economic activities. The World Economic Outlook (WEO) report in October 2023 predicted that the 2023 economic growth would slow to 3.0% compared to 2022 3.5%. The developing countries (emerging markets and developing economies) were still the primary motor for global economic growth of 4.0%, while the growth for developed countries (advanced economies) was only 1.5%.

The uncertainties will still be in the 2024 global economy. Moreover, the 2023 economic challenge will continue in 2024, such as the geopolitical tension, digitalization stream, privacy and cyber security, and climate change. The geopolitical tension between Russia-Ukraine, the Palestine-Israel war, and the trade tension between the United States-China triggered the economic, trading, and investment fragmentation and created the aggressive tightening of monetary policy in several countries. Therefore, the global economy is predicted to slow from 2023 of 2.9% to 2.9% in 2024.

The Indonesian economic growth in 2023 was still maintained amid the uncertainties of the global economy, with the 3Q23 GDP growth progressing positively to 4.94%. Although it was lower compared to the last period, the economic growth in Indonesia was relatively stable despite the previous global economic fluctuation. Meanwhile, the economic growth in 2023 was 5.05%. The increasing private consumption supported the growth aligned with the rising services sector consumption,

consumer confidence, and investment growth as the National Strategic Projects (*Proyek Strategis Nasional* or PSN) continue to complete. Moreover, the General Election (*Pemilihan Umum* or PEMILU) in 2024 will also influence Indonesia's economic growth. PEMILU can boost public consumption, Government spending, and the growth of specific industries such as publishing and printing, food and beverage, and transportation.

Indonesia's inflation rate in December 2023 was as low as 0.41% (MtM), so the inflation rate in 2023 was 2.61% (YoY), lower if compared to 2022 at 5.51% (YoY). Therefore, the 2023 inflation rate was still under control in a target range of 3.0±1%. The inflation rate was a positive result of the consistent monetary policy and the great synergy of inflation control between Bank Indonesia and the Government (Central & Regional Government) through the Central Controlling Inflation Team (*Tim Pengendalian Inflasi Pusat* or TPIP) and Regional Controlling Inflation Team (*Tim Pengendalian Inflasi Daerah* or TPID) with the National Movement of Food Inflation Control (*Gerakan Nasional Pengendalian Inflasi Pangan* or GNPIP) in many regions.

Meanwhile, the Indonesia Stock Market recorded a good performance in 2023 by enhancing the IDX Composite (IHSG), which reached 6.16%, higher than last year's 4.09%. If we consider the main macro indicators, the currency exchange of Rupiah towards USD in 2023 was relatively stable. The foreign exchange rate of the Bank of Indonesia on January 2, 2023, was Rp15,514, and on December 29, 2023, it was closed at Rp15,493 per USD. The Bank of Indonesia reference interest rate or BI-Rate (previously BI 7-days Repo Rate) slightly declined from 5.75% on January 2023 to 6.00% on December 2023.

The Indonesian macroeconomic stability could be perceived by the Assessment of Indonesia's Sovereign Credit Rating, one of which is the Fitch Rating, it retained a credit rating on BBB and outlook stable on September 2023. Another credit rating institution, Moody's Investor Service, also maintained Indonesia's credit rating on Baa2 with a stable outlook as of March 2023. It showed that Indonesia's economy still gained decent stability, though it encountered the challenge of delayed global economy.

INDONESIAN TELECOMMUNICATIONS INDUSTRY

The Indonesian Government is constantly encouraging advancement in the telecommunication sector to accelerate the national digital transformation. The Government has prepared three phases for developing the digital economy up to 2045. The first phase, “prepare,” begins with improving the digital foundation to ensure the public’s readiness to adapt. The second phase, “transform,” is an acceleration attempt to transform the public and the economy into a smart business. Lastly, the third phase, “lead,” will be done by producing standards for technological innovations in the future.

Besides, The Government, through the Coordinating Ministry for Economic Affairs Republic of Indonesia, has determined six main pillars of digital economic development and its strategic direction frameworks in “Buku Putih Strategi Nasional – Pengembangan Ekonomi Digital Nasional 2023”, such as:

1. Infrastructure, with the strategic direction on the availability and quality of digital infrastructure and physical (i.e., fiber optic network, data center, and electricity).
2. Human resources, with the strategic direction on the availability and advanced professional talents with the required competencies to accommodate digital economic development.
3. Business climate and cyber security, with the strategic direction on the end-to-end implementation of digital business landscape and cyber security.
4. Research, innovation, and business development, with the strategic direction of acquiring, developing, and implementing competency and technology to create innovation inside or outside IT.
5. Funding and investment, with the strategic direction on the ability to generate/attract funding sources and capital investment into ICT and other supporting industries.
6. Policy/regulation, with the strategic direction on the adequacy of policies/regulations to support digital economic development and capital investment.

To support the acceleration of the national digital transformation, the Government has specifically assigned Telkom to execute the Electronic Procurement System and all its supporting systems, which cover funding, planning, establishment, development, integration, operation, and system maintenance. This specific assignment was officiated through Presidential Regulation number 17 Year 2023 regarding the Acceleration of Digital Transformation in Government Procurement of Goods/Services. This assignment is part of *Satu Data Indonesia* Implementation Framework and its interoperability between systems within the Electronic-based Government System Framework (SPBE). This Presidential Regulation is expected to accelerate the digital transformation of the Government Procurement of Goods/Services as an effort to improve independence and growth and ensure equal distribution of the national economy.

The Central Bureau of Statistics data shows that the telecommunication industry 3Q2023 grew by 8.52% from the 3Q2022 of 6.95%. The Government and stakeholders have strongly supported creating a conducive ecosystem that pushes the development of the telecommunication sector. It shows that there is still a growth opportunity for the telecommunication industry, aligning with the rapid growth of the digital technology ecosystem. However, there are a few challenges the telecommunication sector faces, including the constant demand for frequency amid the expensive spectrum price, high regulatory charges of Operation Rights Fees (BHP) and USO, and the obligation to build the infrastructure to remote areas with minimum incentive. These challenges prevented the growth of the telecommunication industry from reaching its maximum potential during its role as an enabler of the digital ecosystem.

Therefore, comprehensive solutions and synergy between the Government and telecommunication service providers are needed to ensure the development of the telecommunication industry ecosystem in Indonesia. A cohesive synergy is required to help advance the industry and digital economy in Indonesia and prepare a conducive digital ecosystem amidst a constantly growing digital era. Furthermore, uncertainties in facing quick digitalization growth can also hinder the flow of funding entering Indonesia.

On the other hand, with the growing demand for internet connection services, Indonesia's operators have shifted to FMC business to create better customer experience, unbreakable connection, efficiency, and synergy inter-services. Recently, Telkomsel has aggressively developed its FMC business with its product "Telkomsel One," which launched after the integration of IndiHome into Telkomsel in 2023. There was XL Axiata, which had previously introduced the mobile and fixed convergence product of "XL SATU Lite" and supported by the acquisition of LinkNet and Indosat Ooredoo Hutchison with the acquisition of MNC Play. Therefore, these initiatives could increase the connectivity growth of Indonesia's telco industry and give significant added value services to subscribers.

The telecommunication sector is predicted to be one of the most profitable and beneficial sectors from potential growth at the beginning of the political year 2024. Data traffic is assumed to increase amid Christmas and the 2024 New Year momentum, not to mention the 2024 Election from the start of the year, thus causing an increase in internet data usage, especially in social media. To anticipate the spike in data traffic, Telkom has prepared an infrastructure that will operate constantly, both from the 28-submarine cable infrastructures nor the international traffic route through the Batam & Manado gateway, as well as other preparations to ensure a stable and reliable network condition for all customers.

TELECOMMUNICATION INDUSTRY COMPETITION

The telecommunication industry nowadays is constantly developing, specifically digital communication, as most of the public chooses. This condition provides an opportunity for Telkom, the biggest telecommunication provider in Indonesia, to proactively push the development of digitalization across the country and benefit from the various opportunities available to expand its business. Therefore, Telkom will continue to focus on producing products and services to fulfill the public's needs, especially amidst the vastly developing global digitalization.

Mobile Business

In 2023, Telkom still stands as the mobile operator with the most subscribers in Indonesia with 159.3 million subscribers and 50.5% in market share. The country's other big mobile operators are Indosat Ooredoo Hutchison (IOH), XL Axiata, and Smartfren. At the end of 2023, SIM card penetration decreased 0.3% with 315.6 million subscribers compared to the previous year. Cellular data traffic also increased, while voice and SMS had a declining trend due to the lower usage of these services along with the available Over the Top (OTT) service and more affordable smartphones. To measure this decline and extend the service period, Telkomsel initiates a personal and personification marketing scheme to offer more added-value packages, meet the subscribers' needs, and increase voice package penetration. Telkomsel also commits to its mobile data and digital services to ensure we will always meet growing demands.

Fixed Broadband & Fixed Voice Business (Fixed Business)

At the end of 2023, Telkom, through the brand IndiHome that has integrated into Telkomsel, still holds the position of the market leader in fixed broadband business in Indonesia with 10.1 million subscribers and 66.7% of market share. Other leading competitor operators of Telkom in the fixed broadband industry are PT First Media Tbk (First Media), PT Eka Mas Republik (MyRepublic), PT Supra Primatama Nusantara (Biznet Home), PT MNC Kabel Mediacom (MNC Play), Cyberindo Aditama (CBN Fiber), PT XL Axiata (XL Home), PT Oxygen Multimedia Indonesia (Oxygen.id), and Indosat Ooredoo Hutchison (Indosat HiFi). The competition was fiercer with the newcomer of PT Indonesia Comnets Plus (a subsidiary of PT Perusahaan Listrik Negara) under the Iconnet brand. With the relatively low penetration of fixed broadband in Indonesia and the other operators widening their coverage area, Telkomsel commits to increasing its penetration and proactively accommodating the fixed broadband market demand by offering high-speed and better packages with excellent infrastructure and coverage across Indonesia.

Data Center Business

The Data Center business has become one of the main pillars in the growth of TelkomGroup's digital platform business. Telkom has been provided with a data center with an integrated domestic and global network and is supported by various flexible, modular, seamless, and scalable comprehensive services. Telkom's subsidiary responsible for managing the data center business in the domestic market, Telkom Data Ekosistem (NeturaDC), owns and operates Hyperscale Data Center at Cikarang, Enterprise Data Center at Serpong, Sentul, and Surabaya, as well as Edge Data Center. NeutraDC competes with several other companies that also provide data centers, such as DCI Indonesia, Indosat Ooredoo, Moratelindo, IDC Indonesia, BDx, Atria, Princeton DC, NTT Communication, EdgeConnex, and Biznet. Aside from those, Telkom also operates in the global market through Telin, Telkom's subsidiary, which provides data centers globally and competes with other providers in Singapore and Hong Kong.

International Traffic and Interconnection Business

As for now, there are two traditional (non-VoIP) international traffic IDD (International Direct Dialing) operators in Indonesia, such as Telkom and Indosat Ooredoo Hutchison. However, non-VoIP services are less desirable for the public with the emergence of OTT services and digital communication, such as LINE, WhatsApp, and Skype, which provide VoIP (Voice over Internet Protocol) services that can also get international access. It has resulted in a constant decrease in Telkom's revenue from international traffic IDD (non-VoIP). Therefore, Telkom implemented added value by collaborating with OTT, some of which are by providing connectivity, data center, and Content Delivery Network (CDN) services that can help increase revenue for TelkomGroup.

Network and Satellite Infrastructure Business

Telkom's infrastructure business line, specifically the tower, is managed by Mitratel. There are a few of Telkom's main competitors in the tower business, such as Tower Bersama Infrastructure and PT Profesional Telekomunikasi Indonesia. Mitratel conducts an organic strategy to implement added value by building new towers and co-locations to provide services to mobile operators, implementing inorganic strategies through tower consolidations in TelkomGroup's internal, and acquiring towers from other tower companies other than TelkomGroup.

On the satellite business line, through Telkom's subsidiary Telkom Satelit Indonesia (Telkomsat), Telkom provides satellite-based services, including cellular backhaul, broadband backhaul, enterprise network, military and government network, video distribution and contribution, DTH Television, communication for aviation, maritime, and plantation, disaster recovery, and other satellite-based services. with customers across Asia Pacific, especially South-East Asia. Telkomsat operates two satellites, Telkom-3S Satellite and Merah Putih Satellite, which serve telecommunication needs across Indonesia and parts of Asia. Telkom is also strengthening its satellite business portfolio through collaboration with SpaceX, providing backhaul service with Low Earth Orbit satellite constellation of StarLink that could be a solution to an undeserved area with improper connectivity or unserved area with none connectivity, specifically the 3T region (frontier, disadvantaged, and outermost region).

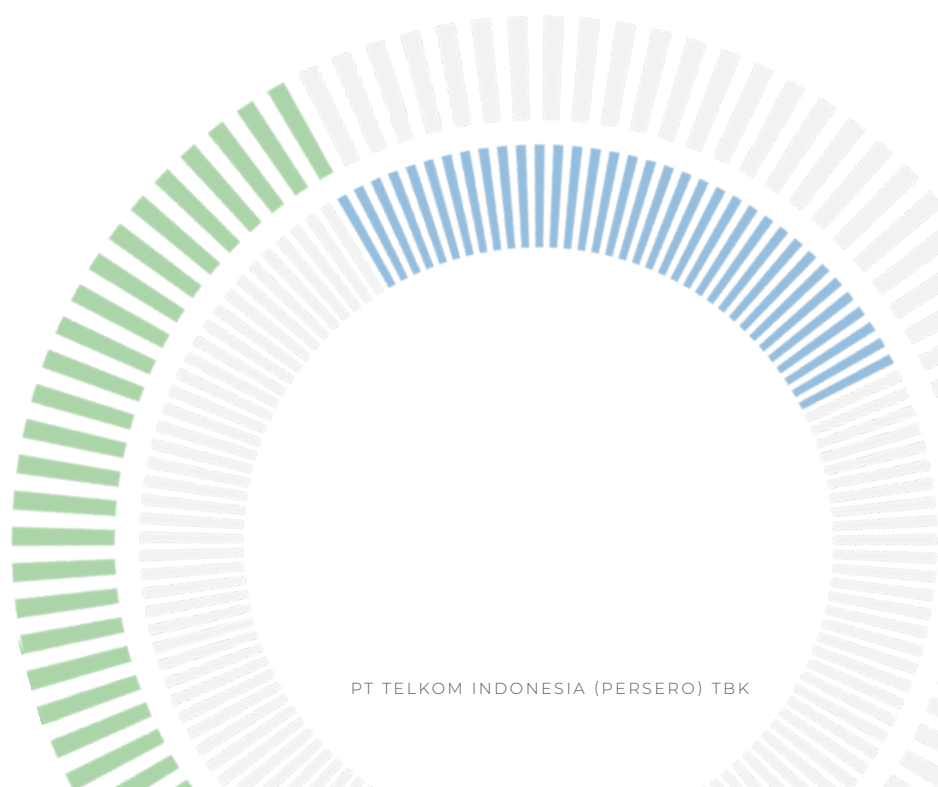

Digital Business

The rapid digitalization development means fiercer competition in the digital business, with several main competitors expanding the vertical industries such as logistics, e-commerce, financial services, and travel services. Telkom develops several digital products suited to the public's need to join the competition and accelerate their digital business.

Through Telkom Digital Leap, Telkom aims to be at the forefront of digital transformation and provides various opportunities for economic growth. Telkom Digital Business is constantly improving the digital ecosystem in Indonesia through digital innovations to offer innovative

solutions to the public and bring transformations in reaching the Indonesian economy to digital sovereignty. Several developed products of Leap's program include Agree, ANTARES, BigBox, indibizPAY, LOGEE, Netmonk, OCA Indonesia, PaDi UMKM, Pijar, and Toms.

Telkomsel also established a subsidiary focused on digital business, PT Telkomsel Ekosistem Digital or INDICO. INDICO focuses on three sectors: edutech (Kuncie), healthtech (Fita), and gaming (Majamojo). INDICO is also building two business platforms: Digital Food Ecosystem (DFE) and Digital Goods Commerce (DGC), which have been highly relevant to Telkomsel's telecommunication assets over all these years.

MOBILE SEGMENT CAPACITY AND DEVELOPMENT

TelkomGroup cellular subscribers at the end of 2023 were 159.3 million subscribers, with 95.3% prepaid subscribers and 4.7% postpaid subscribers. It increased by 1.6% from the 2022. Prepaid subscribers recorded at 151.8 million subscribers, which increased by 1.4%, while postpaid subscribers were 7.5 million subscribers, which increased by 5.6%. The increase was due to the Telkomsel initiatives to promote a healthier business practice in the telco industry, focusing on sustainable subscribers' growth and productivity. Telkomsel also implements a centric approach and a health business practice with a suitable price offering to maintain the subscriber's attractiveness by optimizing CVM and delivering the best customer experience. Telkomsel continues developing the analytical engine and hyper micro segmentation to complete the offer as per the subscribers' needs. It is to optimize the traffic and subscriber growth and improve the existing subscribers' productivity. After integrating IndiHome with Telkomsel, the FMC initiative created opportunities for Telkomsel to cross-sell, particularly in IndiHome's dominant area.

With the 5G network available in Indonesia, Telkomsel is committed to maximizing the growth of digital connectivity, digital platforms, and other digital services in Indonesia. With the excellent 5G network, the future IT solution development, i.e., artificial intelligence, cloud computing, and Internet of Things (IoT), could be carried out in phases based on the roadmap plan and considerations, including the readiness and stability of the connectivity ecosystem. Telkomsel continues to improve the use case selectively for 5G implementation with the B2B and B2C demands approach by partnering with the manufacturing and infrastructure, supporting education, and participating in national occasions. Telkomsel broadens the 5G service to boost Indonesia's digital ecosystem development and collaborates with IT companies to develop the 5G Fixed Wireless Access roadmap in Indonesia.

Meanwhile, the mobile broadband subscribers increased by 5.1% to 127.1 million subscribers, and data usage also increased by 9.0% to 17.9 million TB in 2023. The increase resulted from the healthy business practices initiative and higher subscribers' productivity with the package repurchase promotion, cross-sell, and up-sell offerings through the FMC initiative. It was also due to the expansion

of the portfolio of digital services as a complement to the rapidly developing connectivity. Digital services have been a primary driver for Telkomsel's transformation as a digital telco company to optimize and accelerate the adoption through its high-quality products and services. Besides, Telkomsel Orbit subscribers with fixed wireless access also increased by 30.6% to 1.1 million subscribers. The increase was aligned with the utilization of Telkomsel's strong network, which subscribers could use Telkomsel Orbit as a temporary solution to answer the demand for unavailable fixed broadband areas.

Telkom, through Telkomsel, commits to developing mobile services, improving digital capability, and widening the digital ecosystem to deliver not only the best connectivity but also an impressive experience for subscribers. Telkomsel develops its digital services of Digital Lifestyle, Digital Advertising, Digital Enterprise Solution & IoT business, including Telkomsel Video with various streaming services of MAXstream and on-demand shows, such as Prime Video, Disney+ Hotstar, Netflix, HBO GO, and others; music streaming with Langit Musik; end-to-end gaming ecosystem with Telkomsel Dunia Games; online education with Kuncie; and fintech with LinkAja.

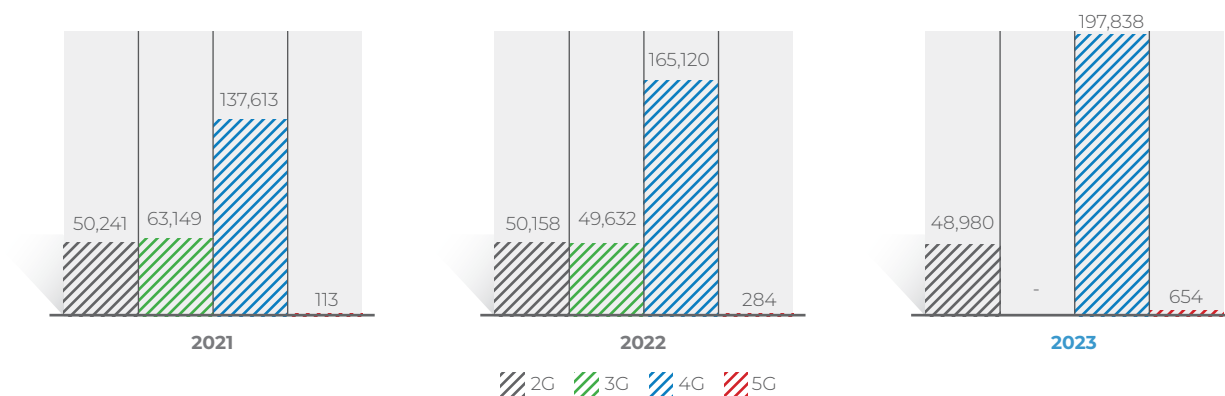

Cellular Traffic Data (TB) in 2021-2023

In 2023, Telkomsel finished the network switching process from 3G to 4G, which began in March 2022. It was a gradual process of switching networks on more than 49 thousand 3G BTS and building more than 32 thousand new 4G BTS. It was to create an equal 4G/LTE broadband network across Indonesia, focusing on network

dominance enhancement by improving its coverage and quality. To maximize the 5G network, Telkomsel also built 370 new 5G BTS. At the end of 2023, Telkom had 197.8 thousand 4G BTS and 654 5G BTS to accommodate the subscribers' digital activities.

In addition, internet and cellular data revenue also increased by 4.9% or to Rp76,834 billion. It indicates an increase in data mobile usage that supports digital services. Overall, the Mobile segment created a net profit of Rp28,693 billion in 2023.

CONSUMER SEGMENT

16 million optical ports as broadband access based on optical fiber

The Consumer segment provides products and services, including fixed voice, fixed broadband, IP-TV, and digital services under the IndiHome brand. IndiHome subscribers in 2023 increased by 9.5% from 9.2 million in the last year to 10.1 million subscribers. The average revenue per user (ARPU) for IndiHome B2C this year was Rp252.7 thousand, which decreased from the previous year of Rp270 thousand. Our strategy that more focusing on the youth and customer of tomorrow segment resulted this ARPU decrease.

CONSUMER SEGMENT CAPACITY AND DEVELOPMENT

Telkom is improving the IndiHome B2C strategically to maintain and attract its subscribers. The strategies are the bundling program consisting of internet broadband, IP-TV, and fixed wireline telephone, sales via digital channels, and promotions every year. IndiHome B2C is also committed to delivering high-quality services and digital entertainment to subscribers. Therefore, IndiHome B2C collaborated with the local video-on-demand (VOD) of Vision+ and the content provider of CXO Media to offer attractive programs and content specifically for Indonesia's young generation, i.e., K-Pop festivals, talk shows, concerts, and others.

IndiHome B2C maintains its position as Indonesia's largest and most complete TV provider under IndiHome TV. IndiHome TV is a paid TV bundling and internet (IndiHome B2C) service that we would send in an Android TV box device with Google Ecosystem. IndiHome B2C paid TV

services include TV linear channels, TV-on-demand (catch-up TV), and 14 OTT services of non-video OTT: Gameqoo, LangitMusik, IndiHome Karaoke, and video OTT: Netflix, Disney+ Hotstar, Lionsgate Play, Viu, Catchplay+, Mola, WeTV, Iflix, Vidio, Vision+, and IndiHome TV App. Besides, IndiHome TV also has 149 high-definition channels and 5 Dolby Audio channels. Subscribers could access these services via the IndiHome TV app and website at indihometv.com (previously via UseeTV Go and useetv.com), which could have a multiscreen and could access OTT content anytime and anywhere. IndiHome TV's active users are more than 1 million users to date.

Telkom strives to deliver subscribers the best customer experience and convenience for accessing IndiHome B2C products. Therefore, Telkom keeps updating myIndiHome applications to speed up access, such as face recognition and biometric features. With myIndiHome, subscribers can manage the IndiHome B2C services and have transactions via smartphone, including requesting new installation and service maintenance, i.e., technician schedule and maintenance progress.

In 2023, Telkom signed the Conditional Spin-off Agreement (CSA) to integrate IndiHome to Telkomsel, aligned to Fixed Mobile Convergence (FMC), as a part of the primary strategy of Five Bold Moves. It was a Telkom strategy implementation to strengthen its business by offering more comprehensive broadband service and accelerating the inclusive and sustainable equality of digital connectivity in Indonesia. The FMC initiative strengthened Telkom's position as the leading digital telco company in Indonesia so that it creates more advancement opportunities,

MANAGEMENT DISCUSSION AND ANALYSIS

delivers the whole experience of digital connectivity, and provides reliable and integrated services of unbreakable wifi, specifically for domestic segment subscribers.

As of December 31, 2023, Telkom had 10.1 million subscribers of IndiHome fixed broadband. It was 66.7% fixed broadband market share in Indonesia. Telkom also offers more services for subscribers of wifi.id that offers unlimited internet access to the entire wifi.id access spots across Indonesia. wifi.id is a public wireless internet services that provide high-speed internet and other multimedia services.

Telkom also encountered challenges such as the ARPU increase and declining churn. Therefore, Telkom still upgrades its network infrastructure reliability as one of the key measures for the challenges. Telkom had 16 million optical ports at the end of 2023 with fiber optic as the basis for fixed broadband network access. Telkom also enhances its Mean Time To Install (MTTI) and Mean Time To Repair by improving technicians' capacity and business processes. Through Telkom Akses Command Center, Telkom can manage the access network, detect disruptions, and promptly take immediate action with digital integrated control.

CONSUMER SEGMENT FINANCIAL PERFORMANCE

Consumer segment contributed 13.3% of TelkomGroup's consolidated revenue in 2023.

Consumer Segment	2023-2022	2023		2022	2021
	(%)	(Rp billion)	(US\$ million)	(Rp billion)	(Rp billion)

Result	5.2	7,971	518	7,579	5,894

Consumer segment revenue 2023 was recorded at Rp26,607 billion, which increased 0.2% from the last year of Rp26,549 billion. It was due to the rising number of IndiHome subscribers. Meanwhile, the Consumer segment expense was Rp18,636 billion, which increased 1.8% compared to the last year. Therefore, the Consumer segment recorded a net profit of Rp7,971 billion in 2023. The profitability was good, with an EBITDA margin of 50.9%.

ENTERPRISE SEGMENT

524 Groups of SOEs, MOCs, and Public Service Agencies

1,694 private companies

618,854 SMEs

714 Government institutions

2 satellites with **109** TPE capacity

The Enterprise segment offers ICT and platform services consisting of Enterprise Connectivity, Satellite, Digital IT Service, Digital Adjacent Service, and BPO to deliver end-to-end solution and IT ecosystem. Their customers are corporates (SOEs and private companies), SMEs, and government institutions.

ENTERPRISE SEGMENT CAPACITY AND DEVELOPMENT

The Enterprise segment focuses on high profitability and recurring business lines, particularly on enterprise solutions, such as enterprise connectivity, data centers, and cloud. Enterprise connectivity services are fixed broadband, Wi-Fi, Ethernet, and data communication, including leased channels of metro ethernet, VPN-IP, and high-capacity data network solutions that provide point-to-point connection and fixed voice. Telkom provided bandwidth in service in 2023 of 3,222 Gbps with 1,814 Gbps for corporate internet customers and 1,407 Gbps for data communication customers. It increased 2% from the last year.

To improve its connectivity service in Enterprise segment, Telkom has the synergy with its subsidiary of Telkomsat to integrate the satellite service with 109 TPE of self-owned transponder and rents third-party satellites of 37.84 TPE transponder. Therefore, it enables customers to rent the satellite transponder capacity for various required connectivity. Telkom also plans to launch High Throughput Satellite (HTS) to improve its satellite-based broadband solutions.

Telkom also launched the MyIndibiz application as a digital touch point specifically designed for SMEs amid the development of digitalization. Indibiz offers bundling internet solutions for SME that adjusted to the ecosystem, such as Indibiz Sekolah, Indibiz Hotel, Indibiz Multifinance,

and Indibiz Ruko. We keep developing these bundling packages with user feedback to accommodate the SME's needs.

For system integration and IT service management, Telkom offers business process management, business process as-a-service, and customer relationship management (CRM) and develops the digital advertising agency through media placement and integrated digital media, such as mobile advertising, online advertising, and digital printing. Therefore, Telkom built the platforms to provide insights for analyzing consumer behavior and creating marketing campaigns based on big data and data analytics.

To support business development, the subsidiary of Infomedia has succeeded in collaborating with WhatsApp Business Solution Provider to use WhatsApp as a business platform. This service complements Infomedia's CRM portfolios. The OMNIX, Infomedia's CRM platform with integrated WhatsApp Business features, will deliver a complete digital customer experience and ease customers to integrate the communication with end user holistically. Infomedia offers end-to-end process management of WhatsApp Business, including registration of verified WhatsApp Business accounts, marketing campaigns and sales, and customer complaint management. With this platform, the recorded customers' transactions and interactions on WhatsApp Business Accounts and other communication channels would be saved and integrated into one database so companies could analyze their customers' behaviors and preferences.

MANAGEMENT DISCUSSION AND ANALYSIS

In addition, TelkomGroup provides services related to hardware and software sales, including IT support. TelkomGroup also offers building Internet of Things (IoT) solutions and develops IoT apps for smart energy monitoring management, fleet management, IT security services, unified communication, and collaboration services.

Telkom's Enterprise segment services are excellent in fiber optic infrastructure networks with extensive coverage. Telkom is still innovating and managing its total solution products and services for customers to improve and utilize this advantage. At the end of 2023, the Enterprise segment had 612,786 customers, including 524 Groups of SOEs, MOCs, and Public Service Agencies, 1,694 private companies, 618,854 SMEs, and 714 Government institutions.

We have improved the human resource competency and supporting infrastructure by attaining the ISO 27000-17/18 and CSA Star & PII Related Certification. It was to increase the customers' trust and get more competitive in Indonesia's cloud market. Besides using our human resources, Telkom partners with global cloud players to provide professional cloud management and consultation. The partners are Amazon Web Services (AWS), Google Cloud Platform (GCP), Microsoft Azure, and Alibaba Cloud; we expect these collaborations could accommodate the demand in various SME, startup, SOE, enterprise, and government industries.

ENTERPRISE SEGMENT FINANCIAL PERFORMANCE

Enterprise segment contributed 22.4% to TelkomGroup's consolidated revenue in 2023. The following table shows the Enterprise segment performance in the last three years.

Enterprise Segment	2023-2022		2023		2022	2021
	(%)	(Rp billion)	(US\$ million)	(Rp billion)	(Rp billion)	
Revenues	2.1	44,742	2,906	43,807	41,536

The customers of this segment are domestic and overseas Other Licensed Operators (OLO), Service Providers, and Digital Players. WIB segment performance was relatively stable in 2023. However, TelkomGroup still develops new innovations and business initiatives to maintain profitability.

WHOLESALE AND INTERNATIONAL BUSINESS (WIB) SEGMENT CAPACITY AND DEVELOPMENT

1. Carrier Service

The carrier business line offers domestic and international wholesale traffic and wholesale network, including interconnection service of voice, data, and internet, as well as network service. It also provides domestic and international wholesale digital platform and services of A2P SMS, platform, and solutions. In 2023, carrier services have grown, with most contributions from Domestic & International Network, Internet Traffic, and A2P SMS.

We also continue developing the Enabler Digital Ecosystem initiative to support wholesale network service. The submarine cable of SEA-ME-WE 5 and SEA-US, the deployment of SEA-ME-WE 6 submarine cable system that began last year, support the offering of direct broadband connectivity across Europe, Asia, and America regions and become the main gateway of digital connectivity that brings domestic traffic to global, global traffic to domestic, and between countries (hubbing), for voice and A2P SMS.

To solidify the equality of telecommunication and digital access in Indonesia, TelkomGroup, through Telin, has Manado and Batam Gateway as digital gateways for international communication lines. Besides, Telin is also carrying out the Bifrost joint project of the Submarine Cable Communication System or *Sistem Komunikasi Kabel Laut* (SKKL) with Meta and Google. It will connect Singapore and the United States with 16,460 Km, crossing the Java Sea and Sulawesi Sea, which it will finish in 2024.

TelkomGroup had 122 Point of Presence (PoP), including 64 domestic PoP in 49 cities and 58 Global PoP in several countries. Another service in this business line is the Content Delivery Networks (CDN) operation that has the capacity of 26,834 Gbps in 2023, which increased by 84.15% compared to the previous year.

2. Data Center Service

TelkomGroup strives to enhance the Indonesia digital ecosystem with the data center ecosystem development. It could support the transformation, create a digital economy, and assist the business development of various sectors, including finance, manufacturing, and domestic and overseas cloud computing.

To intensify the data center as one of the growth engines, TelkomGroup consolidated its data center business into one management entity of PT Telkom Data Ekosistem (NeutraDC). NeutraDC has a significant role as the digital ecosystem enabler by providing the global neutral data center infrastructures with the best connectivity and ensuring the business continuity of international and domestic Digital Players/Hyperscalers and Enterprise and Government segments. Therefore, with this consolidation, we transferred the operation management of 3 Enterprise Data Centers and 1 Hyperscale Data Center (HDC) of tier 3 and 4 located in Cikarang to NeutraDC. We will gradually increase the HDC Cikarang capacity until we reach the total design IT Load Capacity of 51 MW.

At the end of 2023, TelkomGroup operated 32 data centers in all operation areas of 27 domestic data centers that consist of 23 NeuCentrIX Data Centers, 3 Enterprise Data Centers, and 1 Hyperscale Data Center; and 5 overseas data centers located in Singapore (Telin 1, Telin 2, Telin 3), Timor Leste (1 location), and Hong Kong (1 location). The occupancy rate of the overseas data centers was approximately 86%, while for NeuCentrIX, 57% of the total capacity after the capacity development in 2023.

TelkomGroup also builds Hyperscale Data Center (HDC) in Batam to boost the data center business growth with global standard campus and ultimate IT load capacity of 51 MW (initial phase of 17 MW) with green data center concept. Batam is a strategic location that could connect Southeast East Asia to Indonesia via Singapore, considering the data center as a part of the vital infrastructure to support the digital ecosystem. HDC Batam will be the actual measure to its position as the main player of regional data center business. Not only provide business in Indonesia, it will also capture the potential of demand spillover from other countries.

3. Tower Service

TelkomGroup provides the rental and installation of telecommunication devices for other operators. Through Mitratel, TelkomGroup offers co-location and reseller tower business. Mitratel managed 57,409 tenants and 2,818 reseller towers. In 2023, TelkomGroup had 43,047 total towers, with 38,014 Mitratel towers, 477 Telkom towers, and 4,556 Telkomsel towers.

Mitratel had significant growth by aggressively implementing the tower addition and acquisition strategies. In 2023, Mitratel built 682 new towers and acquired more than 1,900 towers, including 803 towers of PT Gametraco Tunggal and 997 towers of Indosat Ooredoo Hutchison. Mitratel also actively increases its tenancy ratio by providing high-capacity connectivity with the deployment of fiber optic and satellite services and a power supply that will fully support the telecommunication operators. With these strategies, TelkomGroup expects Mitratel to support digital acceleration and realize the nation's ideal of becoming one of the largest Asia-Pacific digital economy countries in 2025.

4. Infrastructure Services and Network Management

TelkomGroup's network infrastructure and management covers the network construction and maintenance, including the submarine cable installation and maintenance and energy solutions. At the end of 2023, TelkomGroup had a fiber optic backbone network of 176,663 Km consisting of 111,663 Km domestic and 64,700 Km international network, with each capacity of 287,260 Gbps and 83,795 Gbps. Based on a permanent telecommunications lease agreement with other global submarine cable operators/consortiums, TelkomGroup also operates and has the right to use the 134,040 km fiber optic backbone network.

Telkom, through its subsidiary of Telkominfra, cooperates and has procured a submarine cable ship as TelkomGroup's asset to increase submarine cable installation and maintenance capability. Telkominfra also collaborates with other SOEs to maintain the diesel machines for the telecommunication networks in Kalimantan and Sulawesi related to energy solutions.

5. International Business

Telkom develops its business activities in several countries through its subsidiary of Telin, such as in Singapore, Hong Kong, Timor Leste, Australia, Myanmar, Malaysia, Taiwan, the United States, and Dubai, and also Sales Representative in the United Kingdom, Philippines, Vietnam, India, and Canada that has region-based management. Telin offers wholesale, cloud and connectivity, data center and managed services, retail mobile services (MNO and MVNO), IP transit, and digital platform & services. Telkom has a routine analysis and evaluates its overseas operations based on profitability, prospects, and positions to optimize the portfolio structure and global market access.

Telin develops NeuAPIX cloud-based CPaaS service with omnichannel features (bots and live chat, real-time voice capabilities, SMS, emails, video calls, and messaging service). With NeuTrafiX, a web-based B2B marketplace platform, Telin could conveniently connect buyers and sellers to transact wholesale voice, SMS, and virtual numbers trading.

In 2023, Telin launched the Telin NeXt Gen Platform (TNeX), a new digital platform where business players could connect data centers worldwide. It shows that Telin's innovation could accommodate the global

market demand for fast, easy, adaptable, secure, and trusted connectivity. Telin also officially became the Telecom WhatsApp Business Solution Provider (BSP). It enables business players to use WhatsApp as a customer communication channel by integrating Telin's NeuAPIX CPaaS (Communications Platform-as-a-Service) with the WhatsApp Business Platform.

In addition, Telin strengthened its international business through a strategic partnership with Expereo, a global managed service provider specifically for intelligent internet connectivity. This partnership would significantly enhance Telin's Software Defined-Wide Area Network (SD-WAN) solution with comprehensive global coverage in over 195 countries. Therefore, Telin could offer SD-WAN service to a larger market share worldwide and secure its position as a global player in the telecommunication industry.

On September 5-8, 2023, Telkom with Telin organized the Bali Annual Telkom International Conference (BATiC) 2023 with the theme "Unleashing the Innovation Wave, Enabling a Digital Tomorrow". More than 1,000 people participated in the BATiC 2023 from more than 300 global and local partner companies, wholesale players, data centers, digital players, enterprises, analysts, vendors, and regulators. The BATiC 2023 collaborated with the ITW Global Leaders' Forum (GLF), an association of Global Leaders Telkom members, to enhance global collaboration, compatibility, and technology coverage in the telecommunication ecosystem. We also expected that BATiC 2023 could be a business platform for TelkomGroup and other telco industry players and create more value for the national and global telecommunication industry.

WIB SEGMENT FINANCIAL PERFORMANCE

WIB segment contributed 18.6% to the total TelkomGroup consolidated revenue in 2023. WIB segment revenue was mostly from network, interconnection, internet, submarine cable, data center, tower, and infrastructure. WIB has a significant role in TelkomGroup as an enabler and catalyst for other business segments to create more value.

OTHERS SEGMENT

17.7 million Digital Music active users

15.6 million Digital Games paid users

In others segment, Telkom offers a variety of digital products and services based on big data, smart platforms, digital advertising, digital entertainment (music & games), and e-commerce. In addition, Telkom also manages venture capital funds through PT Metra Digital Innovation (MDI Ventures). MDI Ventures is still looking for opportunities and investing in several digital startups with growth potential and companies that can enhance TelkomGroup's business performance.

OTHERS SEGMENT CAPACITY AND DEVELOPMENT

Telkom offers big data and smart platforms, including BigBox and Antares, for the Enterprise segment. BigBox is a big data platform for startup companies that provides analytics, data & business solution, and an API platform for companies to develop their business. Antares is a smart poultry platform with digital technology advantages to ease the real-time monitoring process of livestock and nearby surroundings using sensors.

Telkom, through its subsidiary of PT PINS Indonesia focusing on the Internet of Things (IoT), has carried out projects that increase people's productivity and life quality, such as Smart Manufacturing, Air Pollution Monitoring, Smart Electricity, Waste Management, and others.

Telkom offers digital advertising with the online media of Uzone.id, focusing on gadgets, technology, and automotive information. In 2023, Uzone.id became the official media partner for MotoGP Mandalika 2023, strengthening its position as the leading automotive news in Indonesia. Telkom also offers an ad-exchange platform for UAd, connecting publishers, advertisers, and agencies so that they can perform digital advertising activity effectively and efficiently.

Telkom's subsidiary of PT Nuon Digital Indonesia (Nuon) focuses on digital entertainment management services, digital games, game publishing, top up games through Upoint, digital music of ring backtone

under the Nada Sambung Pribadi (NSP) brand and music streaming under Langit Musik brand, ticketing platform, OTT video, and other digital content services. In 2023, digital music had 17.7 million active users (8 million music streaming users and 9.7 million NSP users) with 102.5 million transactions (34 million from music streaming and 68 million from NSP). For top-up games, Nuon recorded more than 123 million transactions and 15.6 million paid users of digital games. For OTT video, it had 36.9 million transactions with 10.5 paid users.

Telkom also provides digital platforms for people's activity convenience, such as Pasar Digital (PaDi) for SMEs, Xooply for non-SOE Enterprise, Agree (agriculture and fishery ecosystem), Logee (logistic ecosystem), Wonderin.id (tourism ecosystem), Pijar (education ecosystem), Gameqoo (games) and others. Telkomsel also collaborates with Gojek to intensify the strategic partnership to accelerate SME digitalization with these initiatives below:

1. Collaborate to increase Telkomsel users in the Gojek ecosystem.
2. Easy onboarding for Gojek's MSME partners to become Telkomsel reseller partners.
3. Easy access to Telkomsel outlets and resellers via GoShop.
4. Improve customer experience in Gojek services with the Number Masking feature from Telkomsel's Enterprise solution.
5. Forming a new GoTo entity as a synergy initiative to expand to Tokopedia.

MDI VENTURES DEVELOPMENT

MDI Ventures has a role as corporate venture capital and performs investing, synergy, portfolio management, value creation, and fundraising. MDI Ventures' investment focuses on high-growth business verticals to deliver customers the best digital experience, such as logistics, financial technology, cloud computing, agritech/food, deep tech, digital life, healthtech, new retail, and IoT. As a corporate venture capital, MDI Ventures actively supports startup developments with partnerships with other parties. It was by synergy activities with other TelkomGroup and SOE startups that resulted synergy value of Rp3.3 trillion in 2023.

Telkom University collaborates with MDI Ventures for BUMN Goes to Campus. The collaboration includes digital ecosystem development to accommodate knowledge transfer between industry and the university with entrepreneurship development, innovation commercialization, and human resource development. We expect it would increase startup developments from Telkom University's student innovation and Bandung Techno Park (BTP) as the business incubator in the Telkom University area and advance student capability and lecturer research.

Moreover, MDI Ventures has a strategic partnership with Antler Germany as an early-stage venture capital and global startup generator. It could create more partnership

opportunities and explore the global potential startups, specifically deep tech startups such as biotech, cyber security, and climate tech startups that intend to enter Indonesia's market. MDI Ventures also collaborates with the Ministry of Communications and Informatics (MoCI) to promote startup businesses in Indonesia.

In 2023, MDI Ventures invested in 5 new startups for all managed funds, so it had 90 cumulative startups in 12 countries. MDI Ventures funds include 6 types of funds in several stages:

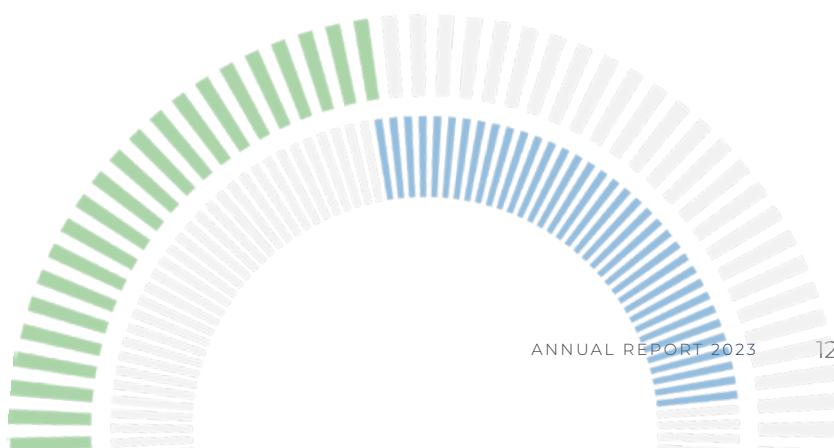

- **MDI 500**, supporting developed companies by leveraging the network from TelkomGroup and other SOE initiatives.
- **MDI 100**, MDI's first disbursed fund, is currently in the "harvesting" phase. The MDI 100 is for the evergreen fund and reinvesting purposes.
- **Telkomsel Mitra Inovasi (TMI) Fund** focuses on funding startups that provide synergy value for Telkomsel.
- **Centauri Fund**, MDI Venture's managed fund with KB Financial (South Korea) that invested in ready to developed business.
- **Arise Fund**, MDI Venture's managed fund with Finch Capital (Netherland) focusing on early staged tech startup funding in Indonesia and Southeast Asia.
- **Merah Putih Fund (MPF)**, it was initiated by Ministry of SOE with five SOE CVC, such as MDI Ventures, Telkomsel Ventures, Mandiri Capital Indonesia, BRI Ventures, and BNI Ventures, focusing on the Indonesia's startup growth.

MARKETING OVERVIEW

MARKET SHARE

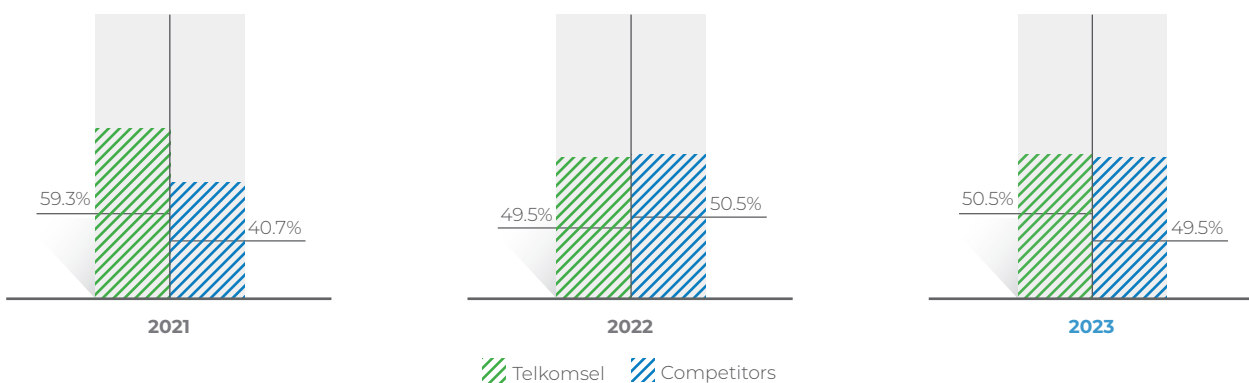

TelkomGroup constantly monitors the latest technology development and develops products, services, standards, and business models that suit the market dynamic to win the competition in the domestic and global markets. Therefore, Telkom and all its subsidiary entities are constantly synergizing to increase value and give the best digital experience to customers.

Mobile Segment Market Share

In 2023, Telkomsel remained the biggest mobile operator in Indonesia, with a market share comparison to other leading operators, Indosat Ooredoo Hutchison (IOH)

and XL Axiata, reached 50.5% for the Mobile segment. Telkomsel's subscribers in 2023 were 159.3 million mobile subscribers (an increase of 1.6%), including 127.1 million mobile broadband subscribers (an increase of 5.1%). The increasing number of cellular subscribers was aligned with the Company's strategy to implement a healthy market with the right subscriber acquisition strategy, optimize subscribers' value, and encourage subscribers to be more active to create more productive subscribers. Telkomsel successfully maintained its stable subscribers in 2023 with the increase in the subscribers' productivity and quality, as shown by the higher payload, payload/data users, and solid ARPU growth, following the Company's strategy to lead a healthy behavior and industry price adjustment.

Cellular Subscribers Market Share for Telkomsel and Competitors 2021-2023

The increasing number of cellular subscribers aligned with the Company's strategy to implement a healthy market with the right subscriber acquisition strategy, optimize subscribers' value, and encourage subscribers to be more active to create more productive subscribers. Telkomsel's revenue experienced growth, which was mainly contributed by mobile data usage. Thus, Telkomsel continues its planned marketing strategy to maintain its market share and positive profitability.

With the higher availability of the 5G network in Indonesia, Telkomsel has focused more on providing various digital services, from video streaming, music, and games to many technology solutions such as artificial intelligence, cloud computing, and the Internet of Things (IoT). Telkomsel's commitment to 5G

development indicates its looking forward view, making Telkomsel the leader of the technology advancement in the telecommunication industry. The advancement is shown by Telkomsel's 4G SDR-based equipment that enables a 5G network without changing the equipment. It guarantees a smooth transition to the 5G network, which indicates Telkomsel's commitment to more efficient and cost-effective technology. The considerations still need to be noticed if it wants to gain maximum implementation of 5G in Indonesia, including infrastructure and device availability, connection ecosystem stability, and user education. Nevertheless, Telkomsel believes implementing the 5G network will be the key to Indonesia's digital transformation and commits to supporting the growth of digital connectivity in Indonesia.

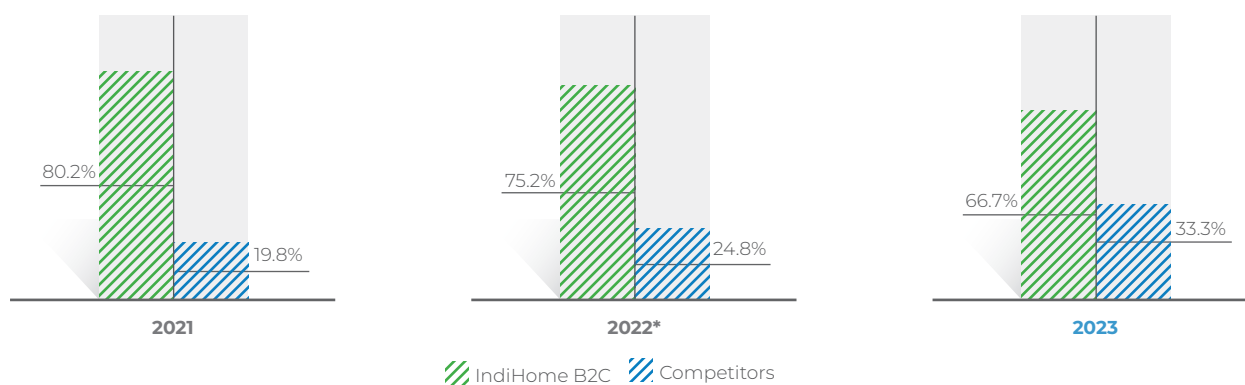

Consumer Segment Market Share

IndiHome B2C competes with other leading fixed broadband service providers in the Consumer segment, such as First Media, Biznet, MNC Play, and My Republic. In addition, a few emerging competitors are raising awareness, such as Iconnet (Perusahaan Listrik Negara's brand), Gasnet (Perusahaan Gas Negara's brand), and XL Home, which targets the middle-low segment. As the public's digital activities increase, more companies offer

fixed broadband services, resulting in denser competition in this segment.

By the end of 2023, fixed broadband IndiHome has gained 0.9 million new subscribers, accumulating 10.1 million subscribers. Thus, IndiHome still dominates the market share of fiber optic-based fixed broadband services. IndiHome B2C network domination has covered 99% regencies/cities or as many as 507 regencies/cities in Indonesia.

Fixed Broadband Market Share for IndiHome B2C and Competitors 2021-2023

Remarks:

*Considering industry competition dynamics, market share calculation with the competitors addition from 2022

To support subscribers' digital activities, IndiHome B2C had the "New High-Speed Same Price" program (New HSSP), which gives loyal customers a free increase of internet bandwidth or internet speed of 40-300 Mbps. It was due to maintaining the increasing digital demands in the future and improving the retention rate of customers.

IndiHome B2C expands its fixed broadband area to increase market share covering all Indonesian regions, with different approaches from product, technology, and price to improve the product preposition and adapt to each subscriber's conditions. It proves IndiHome B2C commitment to widening the coverage and delivering high-quality service to all strata of society. Thus, IndiHome determines to become an affordable and good quality solutions for all people.

After integrating IndiHome into Telkomsel, Telkomsel launched a new product, Telkomsel One, to continue implementing the FMC initiative. The initiative is to promote the equal distribution of digital connectivity with various customer-centric packages and multi-screen approaches for content optimization.

Enterprise Segment Market Share

In the Enterprise segment, TelkomGroup provides various digital services such as IoT, cyber security, big data, and digital ads, which completes the varied products and connectivity services, satellite, IT services, data center, and cloud. Besides that, TelkomGroup also provides big data platforms that can help companies in decision-making, governance, and the formulation of the next business strategy.

**MANAGEMENT
DISCUSSION AND ANALYSIS**

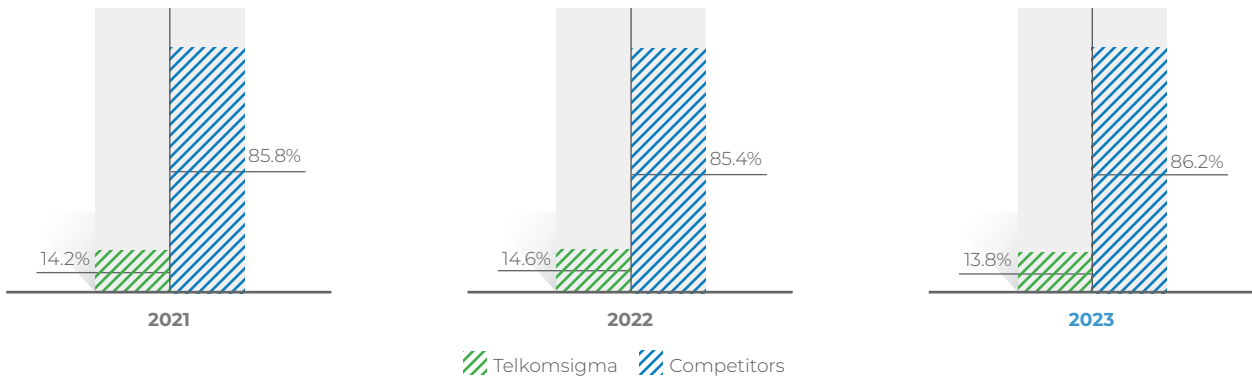

Throughout 2023, TelkomGroup has successfully provided bandwidth as much as 3,222 Gbps and increased by 2% compared to last year. Meanwhile, TelkomGroup's bandwidth in service market share has reached around 59.9% in 2023, increased by 0.5% from 2022.

In 2024, we anticipate the cloud and B2B IT services business in Indonesia to experience a significant increase, with respective CAGRs increasing by 27% and 7%, respectively. It presents an opportunity for

Telkomsigma, TelkomGroup's subsidiary, through its B2B IT services portfolio. Therefore, Telkomsigma aims to expand its services and increase its collaboration with global players to anticipate the future demand for cloud services.

Through Telkomsigma, TelkomGroup achieved 13.8% of system integration market share in 2023, whereas for Shared Service Operation (SSO) and Customer Relationship Management (CRM) market share from Infomedia was 27%.

System Integration Market Share for Telkomsigma and Competitors 2021-2023

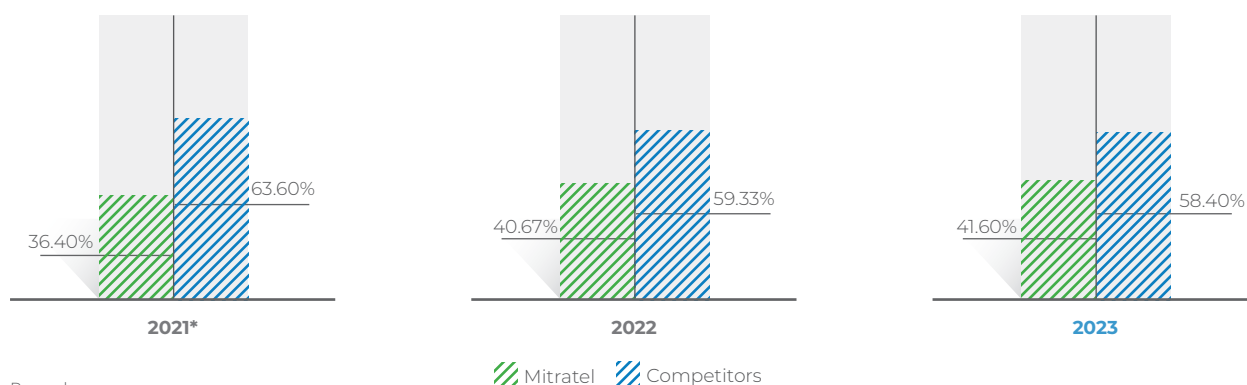

**Wholesale & International Business
Segment Market Share**

In the WIB segment, TelkomGroup operates various business activities consisting of carrier traffic, carrier network, tower, and managed network & infrastructure services. Although the WIB market share was relatively stable during 2023, TelkomGroup kept preparing new business portfolios to solidify the Company's position, one of which is through a Hyperscale Data Center targeting the enterprise and wholesale segment customers. As for International Business, there has been an increase

in demand for data centers. Thus, TelkomGroup has increased its data center capacity in Singapore and Hong Kong to meet growing needs.

TelkomGroup has remained the leader in the carrier traffic market share by dominating the voice interconnection of 90.1%. TelkomGroup also had 61.9% of the market share for wholesale network and 20.2% on wholesale internet. The Metro E product and leased line supported the wholesale network segment, while the IP Transit product supported the wholesale domestic segment.

Tower Market Share form Mitratel and Competitors 2021-2023

Through Mitratel, TelkomGroup operates its wireless telecommunication tower business, with the Company dominating 41.60% of the market share in 2023, an increase from the previous year of 40.67%. Mitratel had 38,014 towers across Indonesia, with 58% of towers located outside Java, appealing to the mobile operators to expand its network outside Java. The Company's leadership in Indonesia's telecommunication tower market share is competitive excellence to deliver more diverse services in the tower ecosystem. Most Mitratel towers have also utilized fiber optic networks that can increase the bandwidth capacity while lowering latency. The rapid growth of the fiber optic business is a significant milestone for the Company to complement the tower service with the value-added service of a reliable connectivity network for cellular operators. Mitratel has a fiber optic of 32,521 km, including 6,979 km from the acquisition in 2022-2023.

In early 2023, Mitratel strengthened its business through a conditional sales agreement over 997 towers of Indosat Ooredoo Hutchison (IOH), and in 4Q23, it also acquired 803 telecommunication towers from PT Gametraco Tunggal. Therefore, Mitratel will further solidify its position as the independent and trustworthy telecommunication tower company with the most towers in Southeast Asia.

Digital and Other Segments Market Share

The Digital segment comprises various service portfolios, such as smart platform, digital content, and e-commerce. TelkomGroup provides digital ads services, intelligent applications, big data, IoT, and financial services in the smart platform business line. The Digital Content line includes music and gaming services through LangitMusik - a streaming application, and Upoint - a gaming top-ups and vouchers application. In 2023, TelkomGroup through its subsidiaries also released online mobile game of Paw Rumble collaborating with local game developers. While in the e-commerce line, TelkomGroup focuses on B2B through PaDi UMKM to expand SMEs' business ecosystem and Xopply for the non-SOE enterprises with more diverse suppliers.

Meanwhile, Telkom has managed venture funds for other segments through its subsidiary MDI Ventures. The investment focuses on vertical businesses garnered high growth, allowing the best digital services delivered to customers, such as financial technology, cloud computing, big data, health technology, e-commerce, IoT, and other services. Until the end of 2023, MDI Ventures has invested in 5 portfolios and emerging startups. MDI Ventures has invested in more than 80 Southeast Asia and global startups since 2016, focusing on early and mid-stage startups.

MARKETING STRATEGY

To increase sales, TelkomGroup has a competitive, strategic, and comprehensive products and services distribution channels and continues to strengthen its branding by adding value and improving the customer experience of its products and services. TelkomGroup also consistently implements price adjustments of its products and services to stay competitive, following the market's buying power considering the utilization of the network, traffic load, and revenue.

Furthermore, TelkomGroup uses the current momentum, such as an increase in public consumption of digital services, the Government policies that support the telecommunication industry development to accelerate national digital transformations, and the expansion opportunities to create various collaborations and telecommunication infrastructure development in remote areas of Indonesia. These actions are part of TelkomGroup's marketing strategy.

Telkom also plans various marketing strategies, including market expansions, collaborations with other strategic companies in building a sustainable digital ecosystem, developing products and services, building good customer relationships, and maintaining network infrastructure to provide optimum services continuously. It is to ensure the network provides optimum services for customers by:

- Conducting upgrades and increasing the capacity to ensure proper services
- Monitoring network issues through the integrated command center (TIOC).
- Having the maintenance team constantly patrolling to prevent errors or intrusions equipped with an application to handle issues end-to-end.

Mobile

The Company is attempting to find the correct balance between market share growth, income, and profitability in the Mobile segment. Telkomsel implements Mobile segment marketing strategies, which are:

- Providing specific products and services that target specific subscriber segments.
- Running a personal offering system through more efficient digital channels.
- Implementing healthy market behavior, the right strategy for subscriber acquisition, value optimization, and encouraging subscribers to be more active.
- Increasing payload growth and new subscribers through improved network quality, products and services offers, digital capability, and acceleration and expansion of the digital ecosystem.
- Collaborating with other parties to enrich digital content on existing platforms.
- Providing aligned offers with subscribers' needs and behaviors to increase ARPU and yield rate.
- Improving the IT platform for better subscribers' analytics capability so it can digitalize and deliver personalized products to subscribers.
- Strengthening the leading network with its coverage and quality to support the digital business and improve the customer experience while adopting the digital lifestyle.

By the end of 2023, Telkomsel had 159.3 million of mobile subscribers, consisting of 151.8 million pre-paid subscribers, 7.5 million post-paid subscribers, and 127.1 million mobile broadband subscribers. Telkomsel has implemented various strategies to encourage a healthier industry that leans toward sustainable growth, such as price rationalization and cost optimization, personalized offerings, optimized networks, and broadband core enhancement with various digital services. Telkomsel continuously improves its digital content, including video and games.

To raise our position in the digital content industry, we strengthened MAXStream's position as the provider of video streaming services by expanding our partnerships with content partners. We are also developing in the mobile game industry through the Dunia Games brand, which provides complete solutions for the gaming community, and are starting to penetrate the game publishing industry. Aside from digital content, we are also constantly developing Telkom's Orbit service, an in-home wireless internet service, to optimize our network capacity. This initiative indicates Telkom's commitment to providing high-quality connectivity beyond traditional cellular services. Telkom Orbit aims to meet the increasing demand for smooth and reliable internet connectivity at home. Therefore, Telkom seeks to redefine the home internet experience, providing customers with fast and reliable wireless connections to enhance their digital lifestyle.

Telkom constantly explores opportunities with initiatives and new digital solutions to expand its digital ecosystem and increase its product portfolios. With the leading network quality, Telkom can increase its product offerings to fulfill customers' vastly evolving demands. Through PT Telkom Ekosistem Digital (INDICO) as the digital powerhouse, we can improve our digital innovations by offering quality products and services beyond connectivity while contributing to accelerating Indonesia's digital economy. With its aim to go beyond the limits to empower Indonesian people and support businesses, INDICO continues developing Indonesia's digital ecosystem by leveraging the assets and capabilities of Telkom and its related ecosystems.

Consumer

As our main product in the Consumer segment, we have performed IndiHome B2C marketing in various ways, such as through digital channels with many discount events and service benefits for IndiHome B2C subscribers and applying dynamic product pricing and services. Telkom constantly improves its service quality and enhances IndiHome B2C subscriber experiences. Therefore, our subscribers are our main priority in designing various

loyalty programs and fastening the response time to solve their disruption.

On the other hand, IndiHome B2C sales strategy focuses on implementing value-based pricing; thus, the selling price of IndiHome B2C products and services will adjust to the local area conditions. Furthermore, Telkom consistently rolls out branding campaigns to attract new customers while offering better-packaged products to divert the competitor's subscribers.

In addition, Telkom is intensifying its efforts to deliver services based on subscribers' profiles. Therefore, we compiled subscribers' data to generate personalized product offerings. We are also implementing a customer relations management process that can conduct end-to-end tracking, allowing us to identify and solve issues promptly before the customer reports them.

In 2023, we implemented various campaigns and promotions to increase our branding:

- **Telkomsel One**
Telkomsel One is a convergence service that provides superior fixed network (IndiHome B2C) and mobile broadband (Telkomsel) connectivity in one service for a seamless broadband experience and better digital experience without being tied to one particular network technology.
- **JITU 1**
The JITU 1 package is specifically designed to provide high-speed internet services at affordable prices, especially for household subscribers.

Enterprise

Telkom's marketing strategy for the Enterprise segments includes conducting sustainable fundamental improvements, implementing consultative selling, and developing strategies to push products and services upon entering the market. We also constantly work alongside customers to plan adjusted services according to their needs.

In addition, Telkom also has several marketing strategies to support digital transformation:

- We strengthen the market's position for our product portfolio and lead the transformation agenda of digital enterprises (including SOEs) to be the leading provider of digital connectivity with the largest bandwidth market share in the Enterprise segment.
- We empower local businesses through digital platforms to simplify market access, funding, better information and technology to support Indonesia's digital transformation.
- We are becoming the Government's trusted information technology partner to support the main national digital agenda of Making Indonesia 4.0 and One Data Indonesia.

We also provided an Account Manager for each corporate customer as a primary way to provide end-to-end service up to after-sales. On the other hand, for our government institution customers, we have a Government Relationship Officer (GRO) responsible for managing relations and seeking strategic information of Government programs.

Wholesale and International Business

We do the WIB segment's marketing strategy by improving the effectiveness and efficiency of cost structure, developing new opportunities, and supporting ministerial programs related to BUMN Go Global. Besides that, we constantly monitor ongoing overseas business to build a better portfolio structure and maximize the value of WIB's segment.

Marketing strategies in 2023 stated as below:

- We offer an attractive business scheme to voice traffic portfolios to improve retail traffic with voice traffic bundling at competitive prices according to service quality.
- We improve quality and service coverage for data center customers and connectivity abroad.

- We offer end-to-end solutions for customers of core tower services, such as "built to suit" (tailored tower leasing services according to location and specifications of the first tenant or primary tenant of relevant towers), co-location services, fiber optic network at tower location, and other related services.
- We explore the regional market through submarine cable service deployment and maintenance.

We also implement other strategies in this segment by developing the tower market by diverting tower operations from Telkomsel to Mitratel. The strategies are to improve the tenancy ratio and optimize the tower business more focused under Mitratel.

We also conduct marketing strategies with various customer approaches in this segment by providing an account manager, wholesale digital touchpoints (apps and web), and customer care support available 24 hours a day. Besides, we constantly improve the team's capability and competency through training based on customer centricity. We periodically conduct surveys through digital touch points and interviews to understand customers' needs better. We will use survey results as input in developing products and services based on customer feedback.

Digital and Others Services

For the Digital and Others segment, Telkom implements its marketing strategies by increasing digital innovations, including enriching digital content, realizing digital services with various features, improving branding, platform, operational, and customer experience, creating digital business models to support Indonesia's digital economy, utilizing assets and inventory to gain insights of digital services and customers experience, as well as developing digital business portfolios with digital startup investments. We also own communication channels to serve customers, such as contact centers, dedicated account management, customer care, channel management, websites, and social media.

In addition, our digital service program also helps improve IndiHome B2C services with MyIndiHome as a digital touchpoint for subscribers, which also offers Disney+ Hotstar as a bundling sim card package, IndiBox as an add-on service that provide video, game, and other Google application contents, GameQoo as a cloud gaming services, and IndiHome Smart as a home IoT service for IndiHome B2C subscribers.

Telkomsel is committed to increasing product differentiation and digital capabilities beyond connectivity while expanding the current digital ecosystem, focusing on customer needs and long-term growth supported by network quality.

- Enrich the MAXstream platform through more customer-oriented features, the release of more MAXstream Original content, and continuous improvements to the service and channel offerings with more than 12.1 million monthly active users.

DISTRIBUTION CHANNEL

Digital Touch Point

After IndiHome was integrated into Telkomsel, the Digital Touch Points for cellular and fixed broadband subscribers were combined in the MyTelkomsel app. Fixed broadband subscribers can use the MyTelkomsel application to submit requests for new installations and manage bills and payments. Until the end of 2023, 35.8 million active Telkomsel subscribers registered in the MyTelkomsel application. For a more interactive customer experience, we have integrated MyTelkomsel with Veronika, a chatbot-based virtual assistant supported by Microsoft Azure and OpenAI.

TelkomGroup also provides a web-based digital touch point for customers in the Enterprise segment with My Telkom Enterprise Solution (MyTeNS) that could increase customer productivity and service. MyTeNS helps to simplify the business process by conveniently accessing product catalog, digital quotations, tracking delivery tickets, and recording any service disturbance that customers submit through ticket publishing.

For SMEs, Telkom provides MyIndibiz website of business to business (B2B) marketplace to boost the go-digital and growing SMEs in Indonesia. For Wholesale customers, Telkom provides a self-service digital touch point, MyCarrier, an end-to-end digital customer experience that is integrated in real-time with internal processes, includes the product catalog, orders management, service installation/activation tracking, billing, and payment, disruption report and monitoring, and others.

We also measure customer experiences using digital touch point by implementing Net Promoter Score (NPS) method. It allows us to gain accurate data to improve the quality of products and services and customer experience.

Customer Service Point

TelkomGroup provides Plasa Telkom and GraPARI as customer service points to provide solutions for TelkomGroup products and services, which subscribers have access to all Telkom and Telkomsel products and services, including billing, payment, subscription cancellation, promotions, and complaint handling. Currently, Plasa Telkom and GraPARI outlets make fixed broadband and cellular services more accessible to customers. We are optimizing the number of Customer Touch Points and reducing duplication of Plasa and GraPARI, where by the end of 2023, TelkomGroup will have 186 Telkom Plasa and 309 GraPARI Centers in Indonesia, as well as 571 IndiHome B2C sales car units.

We optimized more than 210 Plasa and 89 GraPARI to maximize synergy initiatives. This approach will maintain current levels of customer satisfaction and result in better customer experiences and increased operational efficiency.

Authorized Dealers, Retail Outlets, and Modern Channels

Authorized dealers and retail outlets are a non-exclusive distribution network that offers various Telkomsel products, such as starter packs for prepaid SIM cards, prepaid SIM cards, and top-up vouchers with multiple discounts. As the customers' preference changed to online transactions compared to traditional outlets, Telkom adjusted its performance indicator for outlet partners to give them proper appreciation and support for optimizing their business model to increase sales.

In 2023, we noticed the shift from traditional to modern channels due to consumer behavior changes during the COVID-19 pandemic. More customers avoid or limit physical interactions or must comply with social distancing measures and guidelines. Therefore, they prefer online transactions using the internet or special mobile applications rather than transacting at traditional outlets.

Digitalization, implementation of digital strategies, and transformation by private companies, institutions, and public agencies increased transaction volumes through modern channels, resulting in rapid development in the e-commerce, fintech, e-money, and delivery services sectors. Telkomsel has monitored these changes to adapt and redefine key performance indicators used in rewarding and helping partners optimize their business models to increase sales.

Partnership Stores

TelkomGroup works alongside third-party marketing outlets to expand its distribution network, including computer and electronics stores, ATM networks, and other business networks.

Contact Centers

TelkomGroup has contact center services in Semarang, Bandung and Malang operating 24 hours. It is to ease customers' registration, submit complaints, and get product information and other TelkomGroup services.

Account Management Team

TelkomGroup's account management team acts as the primary interaction channel with customers and is responsible for managing customers' relations and portfolios. The account management team serves various customers, including corporate, SME, government institutions, and wholesale and international customers.

Sales Specialist

TelkomGroup has sales specialists working with account managers to identify customers' technical needs.

Channel Partner

TelkomGroup collaborates with other parties to organize events for Enterprise customers. TelkomGroup also works with Community and B2B partners to fulfill Enterprise segment customers' requests and to reach retail customers.

Website

TelkomGroup has several websites that customers can access according to their needs, such as www.telkom.co.id, www.telkomsel.com, www.telin.net, and www.indihome.co.id. It helps customers access information, submit a complaint, and get services such as e-billing, registration, and collective billing information.

Social Media

TelkomGroup manages social media such as Facebook, Instagram, and Twitter to reach massive customers, communicate with customers, and gain fast feedback on products and services.

Instant Messaging

TelkomGroup also manages instant messaging, including Facebook, Twitter, Telegram, and WhatsApp, for Telkomsel's subscribers to communicate with our virtual assistant chatbot, Veronika, enabling them to explore our products and services.

LinkAja

LinkAja is a mobile-based digital wallet application with many features to pay bills, purchase digital products and services, and other digital transactions. In September 2023, along with the minister of SOEs, LinkAja officially launched a special edition skin as an actual step in digital transformation for integrated payment and communication. This application is for SOE employees as a supporting transaction tool with LinkAja's balance usage, an effective and efficient communication medium over the newest information on the Ministry of SOE and other SOEs, and an SOE's promotional media on products and services.

CUSTOMER RELATIONSHIP MANAGEMENT (CRM)

We implement CRM for a personalized service to identify customers' interests and preferences, which is one of them through the IndiHome B2C service. IndiHome B2C officers proactively identify subscribers' issues and initiate solutions for the problems to improve their convenience. IndiHome B2C can provide services to each subscriber through a solid subscriber database and enhance the customer experience.

On the other hand, we are conducting sustainable improvements through a close-the-loop system, which means "beginning and ending with the customer mind" by continuously improving solutions for customers' pain points to enhance the customer experience. We deeply analyze customer feedback garnered from PNS surveys (specifically detractors/customers that do not recommend IndiHome B2C services) to analyze the cause and then produce a prioritized most impactful action plan for IndiHome subscribers' satisfaction.

We are also improving our services to customer needs and behavior, using customer profiles generated from data collection and advanced improvements to our hyper micro-segmentation analysis engine. It aims to personalize services and improve product offerings with appropriate pricing to meet customer needs. It may appeal to the customers based on their profile, seeking to maintain customer engagement and productivity. We also rely on the traceable customer relationship management process, allowing us to identify and fix problems promptly rather than customer complaints. Therefore, we can avoid the customers' dissatisfaction and proactively resolve issues. We can reach our customers across the country through our extensive customer touch points, increasing their convenience.

SOLVENCY

TelkomGroup's 2023 Consolidated Financial Statements (Audited) show the Company's decent liquidity, solvency, and ability to pay short and long-term liabilities. TelkomGroup's debt repayment was from cash inflows of operational activities. It shows that the management could adequately manage its operations and liquidity.

SHORT-TERM LIABILITY

TelkomGroup uses several ratios to measure its ability to pay short-term debt, such as the current, quick, and cash ratios. We use these ratios to maintain liquidity and ensure the funds' availability to pay short-term debt. TelkomGroup strives to keep the current ratio percentage above the industry average current ratio and retain the available loan that can be withdrawn if needed.

Ratio	TelkomGroup Liquidity Ratio 2021-2023		
	2023	2022	2021
Current Ratio	77.7%	78.2%	88.6%
Quick Ratio	57.8%	59.9 %	68.7%
Cash Ratio	42.9%	47.3 %	56.1%

LONG-TERM LIABILITY

TelkomGroup monitors several ratios to ensure its ability to pay its long-term debt, such as the Debt to Equity Ratio, the Debt to EBITDA Ratio, and the EBITDA to Interest Expense Ratio. The TelkomGroup 2023 Consolidated Financial Statements indicate a Debt to Equity Ratio of 0.44 times, a Debt to EBITDA Ratio of 0.88 times, and an EBITDA to Interest Expense Ratio of 16.7 times. Those ratios conclude that TelkomGroup's ability to pay the long-term debt has a relatively low risk of default.

Ratio	2023	2022	2021
Debt to Equity Ratio	0.44 X	0.42 X	0.48 X
Debt to EBITDA Ratio	0.88 X	0.80 X	0.91 X
EBITDA to Interest Expense Ratio	16.7 X	19.6 X	17.3 X

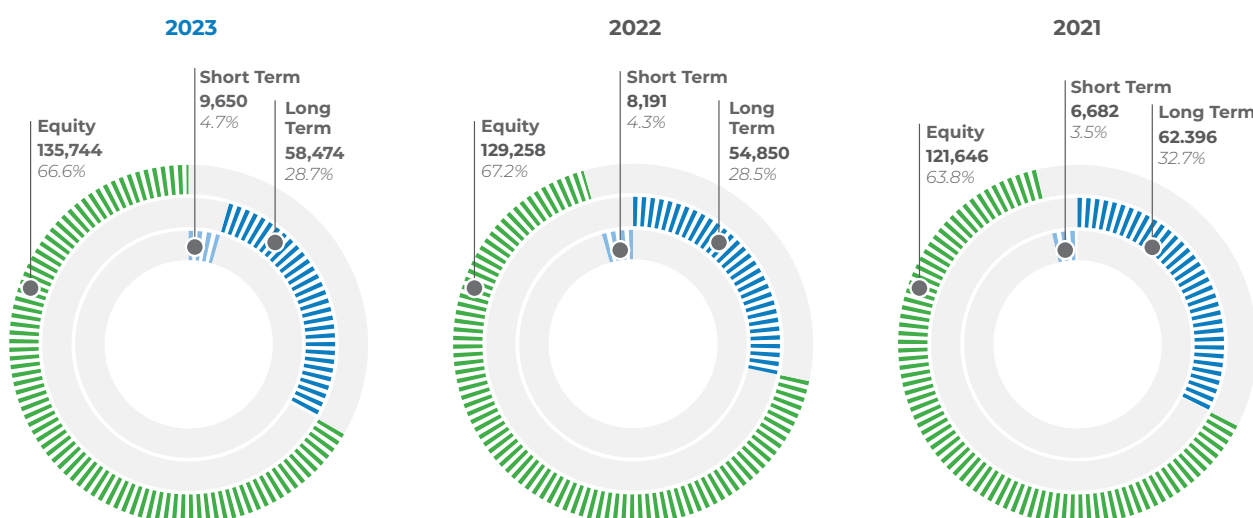

TelkomGroup actively evaluates its debt profile, particularly with floating interest, to decrease interest expenses and exposure to interest rate fluctuations in the future. Further information regarding liquidity and the discussion regarding the debt of Telkom and its subsidiaries can be seen in Notes 18 and Notes 19 in TelkomGroup's Consolidated Financial Statements for 2023.

Total	203,868	13,239	192,299	190,724

MANAGEMENT POLICY FOR CAPITAL STRUCTURE

TelkomGroup is required to maintain its creditworthiness, as indicated in its credit rating and capital structure. In 2023, TelkomGroup kept the debt levels below the industry average, signified in the Debt to Equity Ratio and Debt to EBITDA Ratio. TelkomGroup also successfully maintained its solid capital structure by optimizing the cost of capital (weighted average cost of capital) and tax benefits and ensuring healthy financial ratios to maintain a balanced capital structure.

These measures aligned with TelkomGroup's capital structure policy to achieve an optimal funding composition. The capital structure policy in the current year will become the basis for management decision-making in terms of adding or paying short-term and long-term debt.

In 2023, TelkomGroup's Debt to Equity Ratio (DER) was 0.44 times, while in 2022, it was 0.42 times. TelkomGroup's Debt Service Coverage Ratio as of December 31, 2023, was 1.9 times, while in 2022, it was 1.6 times. Further information regarding management's policy on the capital structure is in Notes 38 Capital Management in the 2023 TelkomGroup's Consolidated Financial Statements.

REALIZATION OF CAPITAL EXPENDITURE

To anticipate the dynamic technology transformation, TelkomGroup has realized capital expenditure investments that adjusted to the Company's needs and strategies throughout 2023. The denomination of TelkomGroup's capital expenditure investment is in two currencies, namely Rupiah (Rp) and US Dollar (US\$).

STRATEGY AND OBJECTIVES OF INVESTMENT IN CAPITAL EXPENDITURE

The objective and strategy in determining investment in capital expenditure are to expand and maintain business growth in the digital era based on digital connectivity, digital platforms, and digital services. In 2023, TelkomGroup invested capital expenditure to build infrastructure capacity and capability for the increasing customer demand in the future

MATERIAL COMMITMENT FOR CAPITAL EXPENDITURE

OBJECTIVES OF MATERIAL COMMITMENT FOR CAPITAL EXPENDITURE

As a digital telco company, TelkomGroup should make sustainable investments to accelerate digital transformation. We made several material commitments for capital expenditure to support transmission and network equipment and other digital infrastructure. The material commitment of TelkomGroup and other parties in the form of project agreements is in Note 35 Significant Commitments and Agreements in the 2023 TelkomGroup's Consolidated Financial Statements.

SOURCES OF FUNDS TO FULFILL MATERIAL COMMITMENT FOR CAPITAL EXPENDITURE

In 2023, TelkomGroup had a decent leverage to fund capital expenditures. TelkomGroup has several alternatives for other funding, including internal and external funding sources, such as bank funding, debt instruments, and additional share capital for capital expenditure investment according to a predetermined business plan.

DENOMINATED CURRENCIES OF MATERIAL COMMITMENT FOR CAPITAL EXPENDITURE

TelkomGroup uses three currency denominations in material commitments for capital expenditure investment. It consists of the Rupiah, Chinese Yuan, and the US Dollar. The most significant bond is in the Rupiah currency of Rp8,596 billion.

Material Commitments Based on Currency as of December 31, 2023

Table of Material Commitment based on Currencies	Amounts in Foreign Currencies (million)	Equivalent in Rupiah (billion)
IDR	-	8,596
USD	235	3,619
Chinese Yuan	33	71
Total	—	12,286

FOREIGN CURRENCY RISK MITIGATION OF MATERIAL CONTRACTS FOR CAPITAL EXPENDITURE

Material commitments for capital expenditure in foreign currencies can be affected by fluctuations in currency rates. To mitigate this risk, TelkomGroup determines time

deposits and receivables of at least 25% of the outstanding foreign currency short-term liabilities. Therefore, TelkomGroup can offset exchange rate fluctuation losses with exchange rate gains on time deposits and receivables. More details regarding material commitments for capital expenditure investment and foreign exchange rate risk are in Note 35 Significant Commitments and Agreements and Note 37 Financial Instruments in the 2023 TelkomGroup's Consolidated Financial Statements.

BUSINESS PROSPECTS AND SUSTAINABILITY OF THE COMPANY

2023 was a recovery period after the COVID-19 Pandemic, during which public activities returned to normal and the economy recovered. Nevertheless, many economic challenges remained this year, specifically the global economy. Amid the challenges, Indonesia's economy remained relevantly secured, with a GDP growth of 5.05% in 2023. Despite weakening growth compared to 2022, which was 5.31%, Indonesia could still maintain its relatively strong economic activity amidst the increasingly challenging global conditions.

For the telecommunication sector, the vast growth of internet usage in Indonesia benefits Indonesia's leading telecommunication operators. The Indonesian Internet Service Providers Association (APJII) survey stated that the total number of internet users in Indonesia is 78% of the total population, exceeding the average number of users in South East Asia, which reaches around 77% and is the most internet penetration than other Asian regions. It also shows that 99% of Indonesians access the internet by using smartphones. These numbers are expected to keep increasing with the higher smartphone use in Indonesia. It is an excellent opportunity for the telecommunication industry, specifically mobile operators, to grow its business further.

As internet use rises, so does the public's interest in various digital services. Many digital services in Indonesia are gaining traction, including music streaming, video content, games, and digital financial services such as online payment like m-banking and QRIS. The Indonesian Telecommunication Providers Association (ATSI) data shows that monthly, 400-500 million online transactions occur. Therefore, the telecommunication sector plays a significant role as an economic locomotive in other sectors.

To support Indonesia's digital economic growth and strengthen its position in the telecommunication industry, Telkom constantly develops and improves its infrastructure, including fiber optic network development and increasing its network capacity. Telkom has also adopted the latest technology and provided various IoT

solutions to give added value to customers. Therefore, Telkom can improve its service quality and competitiveness with a reliable infrastructure.

On the other hand, the Government has specifically tasked Telkom to support accelerating the national digital transformation by launching the Electronic Procurement System. It was officiated through Presidential Regulation Number 17 Year 2023 regarding the Acceleration of Digital Transformation in Government Procurement of Goods/ Services. Telkom has prepared the adequate infrastructure and capacity to support the acceleration of this digital transformation.

Telkom has owned 175,692 km of fiber optic network covering 501 cities/regencies. Two satellites with 109 transponders, 231,226 base transceiver stations (BTS), and 42,106 telecommunication towers support this network. Telkom also possesses supportive digital platforms of 31 data centers, with 26 domestic data centers and 5 abroad.

In the Mobile segment, Telkom notices the opportunities from the increasing public interest in digital services. Therefore, Telkom is trying to maximize the growth of digital connectivity and platforms to develop digital services by utilizing 5G network connectivity. Telkom will also be gradually developing IoT solutions, cloud computing, and artificial intelligence following the maturity and stability of the connectivity ecosystem.

Meanwhile, Telkom focuses on improving the customer experience to maintain its market share and attract new subscribers in the Consumer segment. Besides, Telkom also integrated IndiHome products that target the Consumer segment into Telkomsel products that target the Mobile segment. The integration was based on the Fixed Mobile Convergence (FMC) initiative as part of the primary Five Bold Moves strategy. This FMC initiative opens the opportunity to further strengthen Telkom's business in digital telecommunication by providing seamless service between fixed and mobile broadband to get more subscribers' satisfaction. FMC also encourages more coverage of broadband service and accelerating digital connectivity equality in Indonesia that is inclusive and sustainable.

MANAGEMENT DISCUSSION AND ANALYSIS

In addition, Telkom also focuses on the Enterprise business line that possesses high profitability and recurring tendency through the enterprise solutions services. Telkom also fulfills the hybrid cloud demands from SMEs, startups, SOEs, enterprises, and Government institutions. The higher digitalization of business activities by business players also means a market opportunity for Telkom. To seize this opportunity, Telkom offers system integration, IT service management, and CRM services as a solution for the Enterprise segments to operate their business.

On the Wholesale & International Business (WIB), Telkom focuses on improving the services and capacity of digital ecosystem infrastructures, which include carrier, data center, tower, infrastructure maintenance, and network management services. This segment is the digital ecosystem enabler and is significant in promoting the growth of digital connectivity in Indonesia. Thus, Telkom is focusing on data center development to anticipate

higher demands in line with the more advanced of other digital services and solutions. Besides, Telkom is also operating its international business and strategic partnerships with other global players to solidify its business in the telecommunication industry.

Telkom constantly tries to answer every customer's needs and maintains business continuity with the development of infrastructure, platforms, and digital services to support activities in all segments and society strata. These measures align with the digital telco prospect so that Telkom will keep improving digital technological integration to all business aspects that can encourage fundamental changes in governance, business operation, and how it adds value to every user. In addition, Telkom will keep strengthening its competitive advantages to accelerate its vision of becoming the leading digital telco and create equal digital sovereignty to society for a better Indonesia.

CHANGES IN LAW AND REGULATION

In implementing the practice of Good Corporate Governance (GCG), TelkomGroup constantly reviews every regulation change that could affect operational activities. On February 20, 2023, Presidential Regulation Number 17 Year 2023 regarding the Acceleration of Digital Transformation in Government Procurement of Goods/ Services was released. This Presidential Regulation was to create sovereignty and growth in Indonesia's economy by increasing the use of local products and SME and Cooperative products in the Government's Procurement of Goods/Services, as well as accelerate the absorption of the State's Budget (Anggaran Pendapatan dan Belanja Negara or APBN)/Local government budget (Anggaran Pendapatan dan Belanja Daerah or APBD) to boost the equal national economy.

With this acceleration, in December 2023, Telkom signed an agreement with the National Public Procurement Agency (LKPP). Through LKPP, the Government assigned Telkom to launch the Electronic Procurement System (Sistem Pengadaan Secara Elektronik or SPSE) and its supporting system, which could create a more modern, transparent, efficient procurement process and simplify bureaucracy. Through this Presidential Regulation, the Indonesian Government has specifically assigned Telkom to boost the national digital transformation. This system is the only general application for goods/services procurement to create a government ecosystem based on e-government.

Meanwhile, the Government also issued Law No. 6 of 2023 on the Stipulation of Government Regulation in Lieu of Law No. 2 of 2022 on Job Creation to Become Law on March 31, 2023. The Law No. 6 of 2023 officiated the Government Regulation (Perpu) 2 of 2022 regarding Job Creation to become the Job Creation Law and perfected several workforce substances such as:

1. Outsourcing provisions of what types of work can be outsourced.
2. Improvements and adjustment of minimum wage calculation.
3. Confirmation of the obligation to implement a wage structure and scale for workers/laborers who have worked for one year or more.
4. The use of disability terminologies as adjusted by Law Number 8 of 2016 regarding Persons with Disabilities.
5. Corrected references for the articles that regulate the use of the right-to-rest breaks with fully paid wages and regulate the benefits of the Job Loss Guarantee (*Jaminan Kehilangan Pekerjaan* or JKP) program.

On July 20, 2023, Presidential Regulation Number 47 of 2023 was issued regarding the National Cyber Security Strategy and Cyber Crisis Management. It acts as the foundation for government institutions and stakeholders in creating cyber power and capability to get cyber security stability. It is also a reference for Telkom in solving cyber threats and preparing proper strategies to form cyber security.

Corporate Governance

CORPORATE GOVERNANCE PRINCIPLE AND PLATFORM

TelkomGroup implements Good Corporate Governance (GCG) to strengthen trust and increase the Telkom's added value for shareholders and other stakeholders. The implementation of GCG is also expected to support the Telkom in realizing Telkom's Vision and Mission. Furthermore, with consistent implementation of GCG, TelkomGroup will be able to maintain and improve healthy and competitive business continuity in the long term.

Apart from that, the consistency of GCG implementation is also a concern for Telkom, especially in the Anti-Corruption & Business Ethics Program. The Telkom ensures that its anti-corruption policies and procedures are communicated to employees and business partners in a manner that demonstrates senior management's explicit and active commitment. Telkom applies a "zero tolerance" approach to fraud, corruption, and other unethical behavior or actions that violate the implementation of good corporate governance (GCG).

In implementing GCG, Telkom refers to various relevant regulations as a reference, including:

1. Law No. 40 Year 2007 regarding Limited Liability Companies;
2. Law No. 8 Year 1995 regarding Capital Market;
3. Financial Services Authority Regulation No. 33/POJK.04/2014 regarding Directors and Commissioners of Issuers or Public Companies;
4. Financial Services Authority Regulation No. 34/POJK.04/2014 regarding Nomination and Remuneration Committee of Issuers or Public Companies;
5. Financial Services Authority Regulation No. 11/POJK.04/2017 regarding Reports of Ownership or Any Changes in Ownership of Public Telkom Shares;
6. Financial Services Authority Regulation No. 60/POJK.04/2015 regarding Information Disclosure of Certain Shareholders;
7. Financial Services Authority Regulation No. 8/POJK.04/2015 regarding Website of Issuers or Public Companies;
8. Financial Services Authority Regulation No. 29/POJK.04/2016 regarding Annual Report of Issuers or Public Companies;

9. Financial Services Authority Regulation No. 21/POJK.04/2015 regarding Implementation of Governance Guidelines for Public Companies;
10. Financial Services Authority Circular Letter No. 32/SEOJK.04/2015 regarding Governance Guidelines for Public Companies;
11. Financial Services Authority Circular Letter No. 16/SEOJK.04/2021 regarding Form and Content of Annual Report of Issuers or Public Companies;
12. SOE Minister Letter No.S-35/MBU/01/2020 regarding Implementation of an Anti-Bribery Management System in SOE;
13. SOE Minister Regulation No.PER-2/MBU/03/2023 regarding Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises.

Telkom also refers to other GCG implementation guidelines, such as Corporate Governance principles developed by the Organization for Economic Cooperation and Development (OECD) and General Guidelines for Indonesian Corporate Governance (PUGKI) developed by the National Committee for Governance Policy (KNKG), as well as ASEAN Corporate Governance Scorecard. Telkom has built a strong foundation in implementing GCG for Subsidiaries through Resolution of the Board of Directors No. PD.602.00/r.00/HK000/COP-D0030000/2011 regarding TelkomGroup GCG Guidelines as a guide for Telkom and Subsidiaries in operating and transacting according to GCG ethics and principles.

IMPLEMENTATION OF GCG BASIC PRINCIPLES

Telkom applies 5 (five) GCG principles in carrying out its business processes, namely:

- c. Have a clear Key Performance Indicator (KPI) and operational targets.

3. Responsibility

- a. Comply with laws and/or tax regulations, fair competition, industrial relations, occupational health and safety, payroll standards, and other relevant regulations.
- b. Have mechanisms and procedures that regulate and evaluate compliance with applicable laws and regulations, as well as implement good corporate principles.
- c. Having a manager of Legal and Compliance function for ensuring the fulfillment of all rules and regulations.

4. Independency

- a. To carry out professionalism within the Telkom without a conflict of interest and free from the influence of pressures from other parties that are not appropriate with regulations and contrary to right corporate principles.
- b. Include rules/authority for corporate decision making in the Board Manual and Telkom's Articles of Association which emphasizes independency.
- c. Have additional policies in the Corporate Governance Guidelines oriented towards the principle of independency, such as conflict of interest transaction policies, the prohibition of donations from political parties, and prohibitions on affiliation.

5. Fairness

- a. Apply the principles of equality and fairness in fulfilling the rights of Stakeholders that arise based on agreements and applicable laws and regulations.
- b. Respect the rights of minority Shareholders.
- c. Prohibit the practice of insider trading.
- d. Implement performance management based on a balanced scorecard.
- e. Conducting open auctions in the procurement of goods/services and implementing e-procurement.

Principle 8			
Improving The Implementation of Information Disclosure.	1. To use wider information technology along with website as a medium of information disclosure.	Telkom also active in various social media as medium for information disclosure and product promotion. In addition, Telkom also use the mailing list system as medium for information disclosure and communication with Investor.	Comply
	2. The Annual Report of Public Companies disclose the most current beneficial owners of the Company's ownership, at least 5% other than major shareholders and controllers.	Telkom discloses the ultimate beneficial owner in the ownership of Company shares with ownership of 5% or more in Telkom's Annual Report in the Composition of Shareholders section.	Comply

The Telkom's commitment to preventing and eradicating corruption is carried out in three stages. The first is establishing anti-corruption policies, integrating anti-corruption policies into business operations, and reporting and being involved in anti-corruption programs. Anti-corruption policies and procedures are established to identify, prevent, and overcome corruption in the Company. Telkom's anti-corruption policy is based on a comprehensive risk assessment regarding the potential for corruption in all business operations. Telkom has also developed programs and procedures outlined in internal policies, including integrity pact policies, business ethics, LHKPN reporting obligations, employee discipline, gratification control, and the Anti-Bribery Management System (SMAP) assessment.

CORPORATE GOVERNANCE STRUCTURE

In accordance with Capital Market Provisions and Law No. 40 Year 2007 regarding Limited Liability Companies, Telkom owns governance structure consisting of Main Organs and Supporting Organs, as follows:

CORPORATE GOVERNANCE ASSESSMENT

Through the implementation of GCG, Telkom supports accountability, increases business success, increases value, and creates a superior Telkom image. Telkom is committed to implementing comprehensive governance in the future by relevant regulations, such as Laws, Government Regulations, and Ministerial Regulations, as well as complying with the rules imposed by the Financial Service Authority as an issuer registered on the IDX.

The ASEAN Capital Market Forum (ACMF) developed a parameter for measuring governance practices in the form of an ASEAN Corporate Governance Scorecard (ACGS) assessment created based on OECD principles. These parameters are expected to increase investor confidence in listed companies in ASEAN.

TelkomGroup has implemented governance according to the parameters of the ASEAN Corporate Governance Scorecard, which is assessed annually by Financial Service Authority, RSM Indonesia, and Indonesian Institute for Corporate Director (IICD). There five main parameters are considered, including those related to Shareholder Rights, Equal Treatment of Shareholders, Role of Stakeholders, Disclosure and Transparency, and Board Responsibilities. Information on GCG assessment results

referring to the ASEAN Corporate Governance Scorecard can be accessed at https://www.Telkom.co.id/sites/about-Telkom/id_ID/page/asean-corporate-governance-scorecard-2023-1009.

Telkom is always committed to carrying out the Telkom's performance based on ESG principles, including implementing GCG. This is proven by obtaining the title "Most Excellence Good Corporate Governance Implementation" at the 2023 CNBC Indonesia Awards. Telkom also received an award from the Economic Review at the 2023 Indonesia GCG Award as 1st The Best Indonesia GCG for Public Telkom 2023, Sector: Infrastructure, Utilities & Transport – Industry: Telecommunications and 1st The Best Indonesia Enterprise Risk Management for Public Telkom 2023, Sector: Infrastructure, Utilities & Transport – Industry: Telecommunications. Apart from that, The Telkom was also named in the Top 50 Issuers with the Largest Market Capitalization (Best Non-Financial Sector category) in the 14th IICD Corporate Governance Award. This award was given to appreciate Telkom's exemplary GCG implementation and risk management so that it can grow and develop amidst global economic competition and uncertainty.

GENERAL MEETING OF SHAREHOLDERS(GMS)

The General Meeting of Shareholders (GMS) is Telkom's highest governance organ, which is a means for Shareholders to make significant and strategic decisions. In accordance with Telkom's Articles of Association and Legislative Regulations, the Annual GMS (AGMS) is held once every year with a routine discussion agenda as follows:

1. Approval of the Telkom's Annual Report, including Board of Commissioners Supervisory Task Report.
2. Ratification of the Telkom's Financial Statement and Annual Partnership and Community Development Program Report, as well as the Exemption of Liabilities of the members of the Board of Directors and Commissioners.
3. Determination of Telkom's Net Income, including dividend payment in the Financial Year.
4. The determination of remuneration for the members of the Board of Directors and Commissioners.
5. The appointment of Public Accounting Firm to audit the Telkom's Financial Statements, including audit of Internal Control over Financial Reporting and Appointment of a Public Accounting Firm to audit Financial Statements of Partnership and Community Development Programs.

6. Any other agenda proposed by one or more shareholders that represent 1/20 or more of all shares that have a voting right.

AGMS FOR THE 2021 FINANCIAL YEAR

Telkom held an AGMS for the performance of the 2021 Financial Year on May 27, 2022. At the AGMS, the Telkom appointed an independent party, Notary Ashoya Ratam SH., MKn., to record the proceedings of the Meeting and PT Datindo Entrycom to calculate and validate votes. Summary information on the minutes of the AGMS for the 2021 Fiscal Year, which contains the agenda and realization of meeting decisions, can be accessed at [https://www. BOARD OF COMMISSIONERS' SELF ASSESSMENT POLICY

Based on Joint Regulation of the Board of Commissioners and Directors No. 05/KEP/DK/2022 and PD.620.00/r.01/HK200/COP-M4000000/2022 regarding Guidelines for the Work Procedures of the Board of Commissioners and Directors (Board Manual) of the Company (Persero) PT Telekomunikasi Indonesia Tbk, Telkom has a self-policing policy—assessment to assess the performance of the Board of Commissioners. Self-assessment is carried out by each member of the Board of Commissioners by evaluating the performance of the Board of Commissioners collegially, not by assessing individual performance. This policy is a guideline used as a form of accountability performance appraisal of the performance of the Board of Commissioners so that each member of the Board of Commissioners is expected to contribute to improving their performance on an ongoing basis.

INDEPENDENT COMMISSIONER

As of December 31, 2023, Telkom has a total of 10 Commissioners and 4 of them are Independent Commissioners. This amount exceeds the provisions of the Financial Services Authority's Regulation No. 33/POJK.04/2014 by 30%. Criteria for determining Independent Commissioners and appointment at the GMS refers to:

1. Telkom's Articles of Association; and
2. Financial Services Authority Regulation No. 33/POJK.04/2014 regarding Directors and Board of Commissioners of Issuers or Public Companies, as follows:

- a. Not a person who works or has the authority and responsibility to plan, lead, control, or supervise the activities of the Company in the past 6 (six) months, except for the reappointment as an Independent Commissioner in the following period.
- b. Do not have Telkom shares either directly or indirectly.
- c. Has no affiliation with Telkom, members of the Board of Commissioners, members of the Board of Directors, or main Shareholders of Telkom.
- d. Has no direct or indirect business relationship related to Telkom's business activities.

In addition to the Articles of Association and Financial Service Authority Regulation No. 33/POJK.04/2014, Telkom also pays attention to the regulations of Independent Commissioners, which are regulated in the Minister of SOE Regulation No: PER-3/MBU/03/2023 regarding Organs and Human Resources of State-Owned Enterprises.

INDEPENDENCE STATEMENT

In accordance with Article 25 of the Financial Services Authority's Regulation No. 33/POJK.04/2014, Independent Commissioners who have served for 2 terms of office (2 times for 5 years) may be reappointed by declaring their independence to the GMS and publicly disclosed in the Annual Report.

Until the financial year 2023, there were no Independent Commissioners of Telkom who served for 2 terms. However, Telkom still requires every Independent Commissioner to sign an Independence Statement annually as one of the efforts to implement Good Corporate Governance (GCG), which ensures that every member of the Board of Commissioners carries out their duties independently without interference from other parties.

BOARD OF COMMISSIONERS' MEETING

Based on the Telkom's Board Manual and in line with Financial Service Authority's Regulation No. 33/POJK.04/2014, the Board of Commissioners is required to hold meetings at least once a month or at any time deemed necessary, and holding joint meetings with the Board of Directors at least once every three months or at any time needed. If more than half of the members of the Board of Commissioners are present at a meeting being held, the meeting is considered a quorum. Decision-making in Board of Commissioners meetings is done by prioritizing deliberation to reach consensus. If consensus cannot be reached, decisions are made based on the majority vote of the members of the Board of Commissioners present or represented at the meeting. If the number of votes is balanced, then the decision is following the opinion of the Chair of the Meeting.

Throughout 2023, the Board of Commissioners has held internal meetings 27 times and joint meetings with the Board of Directors 13 times. The following tables show the frequency of attendance of members of the Board of Commissioners at internal meetings and the frequency of attendance of members of the Board of Commissioners and Directors at joint meetings during 2023.

BOARD OF COMMISSIONERS' PERFORMANCE ASSESSMENT

The performance assessment of the Board of Commissioners is carried out based on the Key Performance Indicator (KPI), which is formulated from the primary duties of the Board of Commissioners, including supervising the policies and running of the Company's management carried out by the Directors, and providing advice to the Directors, including overseeing the implementation of the Company's Long-Term Plan, Telkom's Annual Work and Budget, provisions of the Articles of Association and GMS Resolutions, and statutory regulations per the Company's aims and objectives. KPI evaluations are carried out every years, with the aggregation of evaluation results in 2023 showing that the Board of Commissioners has carried out its supervisory duties well.

Board of Commissioners' Performance Assessment Based on KPI Year 2023

Key Performance Indicators (KPI)	Achievement Score	
	Point (%)	Score (%)
Planning	20	100
Supervision and Direction	36	100
Reporting	18	100
Dynamic	26	100
Score	100	100

COMMITTEE UNDER BOARD OF COMMISSIONERS' ASSESSMENT

The Board of Commissioners is assisted in carrying out its duties by the Audit Committee, Nomination and Remuneration Committee, and Planning and Risk Evaluation and Monitoring Committee. The Board of Commissioners assesses the performance of the committees under it every year, and in 2023, the assessment will be carried out using KPI self-assessment. In general, these committees were able to carry out their duties and responsibilities well throughout 2023.

Performance of The Committees Under the Board of Commissioners in 2023

Committees	Score (%)
Audit Committee	100
Committee for Nomination and Remuneration	100
Committee for Planning and Risk Evaluation and Monitoring	100

BOARD OF DIRECTORS' PERFORMANCE ASSESSMENT

One of the measuring tools that can be used to assess the performance of the Board of Directors is the Key Performance Indicator (KPI) based on the Regulation of the Minister of SOE No.PER-3/MBU/03/2023 dated March 20, 2023 regarding Organs and Human Resources of State-Owned Enterprises, which contain:

- Obligation to sign the Management Contract by the Board of Directors. The Management Contract contains promises or statements from prospective members of the Board of Directors, namely that if they are appointed/re-appointed as members of the Board of Directors, they promise, among other things, to fulfill all targets set by the GMS/Minister, including KPIs that have been previously determined, and implement the principles of Good Corporate Governance (GCG).
- Performance appraisal based on KPI is determined collegially for the President Director, and individually for each member of the Board of Directors.

- The establishment of five perspectives in collegial preparation of the KPI for the Board of Directors, namely:

- Economic and social values for Indonesia;
- Business model innovation;
- Technology leadership;
- Increased investment; and
- Talent development.

The Board of Directors's KPI achievements are calculated collegially and individually and reviewed by the Public Accountant Office (KAP), which audits Telkom's financial reports. The collegial achievement report of KPI is presented in the Board of Directors' Collegiate Assessment section on this Annual Report.

In line with Telkom's commitment to managing ESG aspects in its business value chain, the Telkom has established key performance indicators in the ESG aspect category, including:

- Environmental aspects, reflected in the parameters of TJSI effectiveness, ITDRI research effectiveness;
- Social aspect, seen from the parameters of total shareholder return and social impact; and
- Governance aspects, reflected in the risk maturity index parameters, effectiveness of the 2023 financial reports, and procurement excellence.

AUDIT COMMITTEE

In accordance with the regulation of the Company's Articles of Association, Telkom formed an Audit Committee who assists the Board of Commissioners in its supervisory function. The Audit Committee works based on the Resolution of the Board of Commissioners No 11/KEP/DK/2021 regarding Work Implementation Guidelines (Charter) for the Company Audit Committee (Persero) PT Telekomunikasi Indonesia Tbk. The formation of the Audit Committee is also a form of compliance with Financial Service Authority Regulation No 55/POJK.04/2015 dated December 23, 2015, provisions of the US SEC Exchange Act 10A-3, Regulation of the Minister of SOE No PER-2/MBU/03/2023 regarding Governance Guidelines and Significant Corporate Activities of State-Owned Enterprises and Number PER-3/MBU/03/2023 dated March 20 2023 regarding Organs and Human Resources of State-Owned Enterprises.

AUDIT COMMITTEE'S SCOPE, DUTIES, AND RESPONSIBILITIES

The following is a summary of the performance and implementation of activities of the Audit Committee during the financial year 2023 in the Report Committee activities include:

1. Supervision of Financial Information

- a. Reviewing the process of preparing financial reports to ensure that the preparation of financial reports has been carried out in accordance with applicable regulations, policies, systems, and procedures;
- b. Evaluate the financial information that will be published by the Company such as financial reports, projections, and other financial information; and
- c. Ensuring that financial reports and other related information are presented based on financial or management accounting data and information correctly and accurately in accordance with generally accepted accounting principles.

2. Supervision of Internal Audit

KNR'S EDUCATION AND TRAINING

Given that all members of Committee for Nomination and Remuneration are the Board of Commissioners, an explanation of education and training can be seen in the profile section of the Board of Commissioners in this Annual Report.

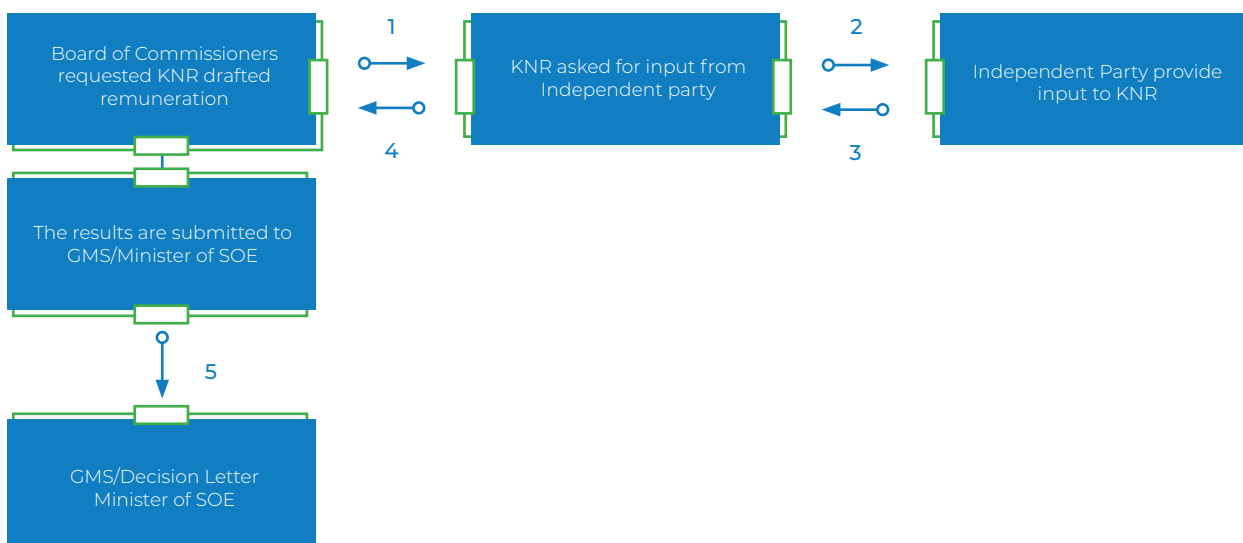

REMUNERATION OF THE BOARD OF COMMISSIONERS AND THE BOARD OF DIRECTORS

The remuneration policy for the Telkom Board of Commissioners is determined based on the SOE Minister's

Regulation No. PER-3/MBU/03/2023 dated March 20, 2023 regarding Organs and Human Resources of State-Owned Enterprises. In accordance with these regulations, the remuneration of the Board of Commissioners has components consisting of:

1. Salary/Honorarium;
2. Allowance, which consists of:
 - a. Holiday allowance;
 - b. Transportation allowance;
 - c. Retirement insurance.
3. Facilities, which consist of:
 - a. Medical facility;
 - b. Legal aid facilities.
4. Tantiem/Performance Incentive, where additional Tantiem can be given in the form of a Long Term Incentive (LTI).

REMUNERATION OF THE BOARD OF COMMISSIONERS AND THE BOARD OF DIRECTORS

Furthermore, the procedure for proposing up to the determination of the remuneration of Telkom's Board of Commissioners and Board of Directors are explained as follows:

1. The Board of Commissioners requests the KNR to draft a remuneration proposal for the Board of Commissioners and the Board of Directors.
2. If needed, Committee for Nomination and Remuneration can request an independent party to draw up a framework on the remuneration of the Board of Commissioner and the Board of Directors.
3. The Committee for Nomination and Remuneration proposes the remuneration framework referred to to the Board of Commissioners.
4. The Board of Commissioners proposes remuneration for the Board of Commissioners and the Board of Directors to GMS.

5. The GMS can give authority and power to the Board of Commissioners, with the prior approval of Series A Dwiwarna Shareholders to determine the remuneration for Board of Commissioners and the Board of Directors.

In 2023, the Minister of SOE issued Regulation of the Minister of State-Owned Enterprises No. Per-3/MBU/03/2023 regarding Organs and Human Resources of State-Owned Enterprises (Minister Regulation 3 of SOE). Telkom has confirmed the implementation of Minister Regulation 3 of SOE in Telkom areas through the GMS Resolution for the 2022 financial year. One of the things regulated in the Minister of State-Owned Enterprises Regulation No. Per-3/MBU/03/2023 regarding Organs and Human Resources of State-Owned Enterprises is the provision for postponing the payment of part of the *tantiem*, and Long Term Incentive (LTI) to the Board of Directors and Board of Commissioners.

KEMPR'S INDEPENDENCE

KEMPR members are required to fulfill the independence aspect in carrying out their duties in accordance with the terms and conditions stated in the Resolution of the Board of Commissioners No. 13/KEP/DK/2021 dated November 29, 2021 regarding Work Implementation Guidelines (Charter) for the Committee for Planning and Risk Evaluation and Monitoring of the Company (Persero) PT Telekomunikasi Indonesia Tbk.

KEMPR'S PERFORMANCE AND IMPLEMENTATION ACTIVITIES

1, Telkom Long Term Plan (RJPP) and Corporate Strategic Scenario (CSS)

a. Focus on Monitoring Implementation of RJPP 2020-2024 and CSS 2023-2025

- Update/renewal of Telkom's RJPP for 2020-2024, which includes changes to priority initiatives, KPI aspirations & targets, accountability for priority initiatives, and implementation of a timeline adjusted to current developments in the Telecommunications business and industry situation.
- CSS Changes (CSS-P) for 2023 – 2025 is a follow-up to the results of the annual GMS of PT Telkom Indonesia (Persero) Tbk on May 30, 2023, especially regarding the approval of the separation of the Indihome business segment from Telkomsel and changes to the nomenclature of positions for members of the Board of Directors (removal of the Director Consumer Service and the addition of a Director Group Business Development). Apart from that, there is a sharpening of the strategy and roadmap related to the plan to establish Infraco.
- CSS for 2024 – 2026 is adjusted to the five bold moves initiative and industry benchmarks.
- Improved business performance, digital platforms & services.

b. Evaluation of 2024-2026 CSS Proposals

- Ensure that the post-FMC transition process runs smoothly by taking anticipatory and mitigating steps towards potential risks that arise and ensuring the quality of business processes and services to customers runs well.

- Increase TelkomGroup readiness to face challenges in the B2B business and the need for a clear division of roles in B2B business management between related units in the TelkomGroup.
- In implementing each stage in the development of the 5 Bold Moves, especially for InfraCo and DigiCo, it is necessary to ensure that the critical assumptions in each initiative are met and running well.
- Ensure that the Group Business Development (GBD) Directorate provides added value in accelerating and improving the performance of TelkomGroup's new engine growth.
- It is necessary to sharpen the strategy in the Five Bold Moves initiative to provide a higher financial impact than at present, based on evaluations and benchmarks against other companies in the domestic or global scope.

c. Evaluation of 2024-2026 CSS Proposals

- Preparation of business targets, especially those related to B2B IT Services, so that they are carried out realistically and in stages per Company conditions developments.
- In preparing the Company's strategic planning documents to optimize the market intelligence function and utilize the information obtained to enrich the analysis of competitors and sharpen the formulation of business strategy in dealing with competitors.
- Ensure that the execution carried out can run well and achieve the targets that have been set.

2. Telkom Work Plan and Budget, as well as Capital Expenditures

a. Focus on Monitoring the Implementation of the 2023 RKAP and Capital Expenditures

- Increasing the competitiveness of the IndiHome business and transferring the IndiHome business to Telkomsel as an implementation of the FMC initiative.
- Ready to implement B2B IT Services and digital product portfolio as Telkom's transformation after transferring the IndiHome business to FMC.
- TelkomGroup Performance Improvement.
- Increasing profitability, efficiency, and timeliness in capex deployment, including ensuring anticipation and risk mitigation for potential delays in capex deployment.
- Strengthening Enterprise Risk Management to oversee five bold moves.

b. Evaluation of the 2024 RKAP and Capital Expenditure Proposals

- The future state of network architecture will receive more attention to increasing sustainable value creation in developing digital ecosystems and continuing the transformation of society based on digital-ready organizations to fulfill shareholder aspirations (APS).
- Increase the productivity of Human Resources (HR) to create superior and professional human resources to maintain technological leadership in connectivity, support Indonesia's digital innovation, provide digital solutions, and improve ecosystem digital services to the community.
- Use of capex that is right on target and optimal and ensures the creation of efficiency in capex deployment through thoughtful capex planning so that there is no duplication of capex in the Telkom Group and strives to increase the level of domestic content (TKDN).
- Ensure a more aggressive increase in customer acquisition by sharpening the GoTo Market strategy through external hiring to strengthen external revenue.
- Ensure regional Telkom readiness in implementing B2B IT Services products and digital product portfolio.
- Focusing on strategic partnerships for Telkom businesses.
- Ensure that the execution of the five bold moves goes according to the plans that have been prepared.
- Acceleration of the digitalization process and standardization of agreements with customers.
- Anticipate non-terrestrial network (NTN) technologies such as LEO satellites (Starlink, OneWeb).
- Increase maturity and readiness in implementing cybersecurity within Telkom (parent) and the Telkom's subsidiaries.

3. Telkom Risk Management (Enterprise Risk Management/ERM)

Based on monitoring of the Telkom's risk profile, there are three things that receive attention, specifically:

- a. Implementation of risk management both within the scope of the Company and on strategic projects.
- b. Improving the quality of ERM implementation in Subsidiaries.
- c. Preparation and calculation of the Telkom Group Risk Profile.
- d. Telkom Group's compliance with SOE Ministerial Regulation No. 2 of 2023 regarding Implementation of Risk Management in SOEs.

4. Certain Actions of the Board of Directors that Require the Approval of the Board of Commissioners

During 2022 KEMPR has assisted the Board of Commissioners in reviewing strategic plan proposals submitted by the Board of Directors, including the following projects:

- a. Strategic Fit Project Grand, including the continued development of HDC Cikarang campus 1 (floors 2-4) and campus 2 (floor 1), and the Telin Singapore Data Center consolidation to TDE.
- b. Batam Data Center Initiative Final Approval.
- c. Final Approval Project FMC (Fix Mobile Convergence) Speed 2.
- d. Final Approval Project Grand, namely the continued construction of HDC Cikarang campus 1 (floors 2-4) and campus 2 (floor 1), as well as the consolidation of the Telin Singapore Data Center to TDE.
- e. Final Approval Project Infraco, namely establishing a New Telkom Subsidiary as an InfraCo-FiberCo Entity and approval of an Equity Call for PT Telkom Infrastruktur Indonesia.
- f. Approval to Write Off Bad Debts in 2023.
- g. Release Capex phase 1 RKAP 2024.

BOARD OF DIRECTORS' SELF ASSESSMENT POLICY

Based on Joint Regulation of the Board of Commissioners and Directors No. 05/KEP/DK/2022 and PD.620.00/r.01/HK200/COP-M4000000/2022 regarding Guidelines for Work Procedures of the Board of Commissioners and Directors (Board Manual) of the Company (Persero) PT Telekomunikasi Indonesia Tbk, self-assessment policy is implemented to assess the performance of the Board of

Directors. The assessment is carried out by each member of the Board of Directors by evaluating the performance of the Board of Directors in a collegial manner, not by evaluating individual performance. This policy is a form of accountability for assessing the performance of the Board of Directors so each member can contribute to improving the performance of the Board of Directors on an ongoing basis. More complete information regarding the Directors' self-assessment policy can be seen on the Telkom website in the GCG menu - Directors and Board of Commissioners Work Guidelines.

BOARD OF DIRECTORS' MEETING

Based on the Company's Articles of Association, the Telkom Board of Directors must hold internal meetings monthly and at any time necessary. The Board of Directors must also hold joint meetings with the Board of Commissioners at least once every 4 months. If more than half of the total number of members of the Board of Directors are present or legally represented at the meeting, a quorum can be achieved. Each member of the Board of Directors present or legally represented has one vote.

Decision-making at meetings is carried out by prioritizing deliberation to reach a consensus. If consensus cannot be reached, decisions are made based on the majority vote of the members of the Board of Directors who are present or legally represented. Throughout 2023, Board of Directors meetings have been held 68 times. The following tables present the frequency of attendance of members of the Board of Directors at meetings during 2023.

INTERNAL CONTROL SYSTEM

The Internal Control System (SPI) is a continuous monitoring mechanism that includes the reliability of financial reports and the availability of complete and timely financial reports, including the evaluation of financial reporting. SPI Telkom is run collectively by the Board of Directors, management, and other personnel under the supervision of the President Director and Director of Finance.

Through SPI, Telkom ensures that the preparation of consolidated financial reports is in accordance with the Financial Accounting Standards set by the Indonesian Institute of Accountants (IAI). Telkom's shares are listed on the New York Stock Exchange, therefore Telkom must also comply with the provisions of SOX Section 404, which requires Telkom to establish, maintain, test, and disclose the effectiveness of internal control over financial reporting.

SPI also ensures the achievement of efficiency and effectiveness of operational activities and compliance with regulations. Through SPI, Telkom can monitor the Company, compliance with applicable regulations, both regulations from Telkom officials and government regulations. Telkom can also control its operational activities in accordance with the work procedures in each function.

INTERNAL CONTROL FRAMEWORK

Telkom implements SPI in accordance with the Internal Control-Integrated Framework 2013 from The Committee of Sponsoring Organizations of the Treadway Commission (COSO). Telkom continues to ensure that all business activities are carried out in accordance with applicable

laws and regulations. The Legal & Compliance Unit under the Corporate Secretary Department is responsible for statutory compliance, which carries out several activities, such as legal advisory, legal opinion, legal review, and litigation.

Telkom implements five internal control components with the COSO Framework, which are interconnected at all levels and business units of the Company,, namely:

1. Control Environment

- a. Demonstrates commitment to integrity and ethical values.
- b. Exercises oversight responsibility.
- c. Establishes structure, authority, and responsibility.
- d. Demonstrates commitment to competence.
- e. Enforces accountability.

2. Risk Assessment

- a. Specifies relevant objectives.
- b. Identifies and analyzes risk.
- c. Assesses fraud risk.
- d. Identifies and analyzes significant change.

3. Control Activities

- a. Selects and develops control activities.
- b. Selects and develops general controls over technology.
- c. Deploys through policies and procedures.

4. Information and Communication

- a. Uses relevant information.
- b. Communicates internally.
- c. Communicates externally.

5. Monitoring Activity

- a. Conducts ongoing and/or separate evaluations.
- b. Evaluates and communicate deficiencies.

INTERNAL CONTROL IMPLEMENTATION IN TELKOM

Telkom implements and applies the COSO Framework components to its policies, namely:

Internal Control Implementation In Telkom

Control Environment

- Telkom is committed to integrity and ethical values by building and establishing a corporate culture as a guide for main players in building leadership patterns and strengthening organizational synergies, as an engine of economic growth, an accelerator of social welfare, a provider of employment, and a provider of high performing culture talent. Telkom guarantees sustainable competitive growth in the form of long-term superior performance achievement. Core Values AKHLAK (*Amanah, Kompeten, Harmonis, Loyal, Adaptif, and Kolaboratif*) are the main values of SOE human resources that must be adopted by TelkomGroup so that every TelkomGroup resource knows, implements, and internalizes seriously, consistently and consequently, thus bring forth to daily behaviors that shape the work culture of TelkomGroup which is in line with the Core Values of SOE.
- Telkom ensures the effectiveness of implemented Internal Audit activities by implementing the SOA 302/404 prerequisites and managed with a risk-based audit approach. Telkom also ensures that effective coordination and co-operation with internal and external parties, and business risks to all business activities are adequately managed with internal control systems.
- Telkom has a Competency Directory that defines the Telkom's competency needs. One of them is Finance Stream which includes the competence of Corporate Finance with the sub-area of capital structure competency and Working Capital Management (Treasury Management). Then, Accounting with sub-area competence of Financial Accounting, Management Accounting, and Corporate Tax. The competency development policy is aimed at creating superior, global quality, and highly competitive employees.

Risk Assessment

- Telkom has several considerations in developing accounting policies, such as Statements of Financial Accounting Standards (PSAK), Interpretation of Statements of Financial Accounting Standards (ISAK), International Accounting Standards (IAS), related laws, and changes in impacted internal environments.
- Telkom has a principle of financial assertion in ICOFR planning that is well respected by all relevant employees.
- Telkom manages internal and external corporate risk with established mechanisms.
- Telkom also implements an anti fraud policy control system and has potential fraud prevention.

Control Activities

- Telkom sets up a Business Process Owner (BPO) and AO (Application Owner) that have duties and responsibilities related to ICOFR.
- Risk determination rules and internal controls refer to the ICOFR policy consisting of segregation of duties, risk determination, and determination of internal controls.
- Telkom has guidelines for the implementation of information systems security that are aligned with Telkom needs and can be implemented on an ongoing basis.

Information and Communication

- Telkom has accounting policies implemented under IFAS and IFRS, outlined following accounting principles and implementation, including information or data related to the process and disclosure of financial reporting, and regulates the components of the consolidated financial statements.
- Telkom has an information technology policy that provides a frame of reference for each process or unit associated with the organization's IT operations in the preparation and implementation of guidelines and procedures. The scope of IT regulations in our Telkom covers aspects of IT governance and IT management.

Monitoring Activity

- Telkom has an Internal Audit Charter that includes the auditor's requirements in Internal Audit Department, which has professional integrity and behavior, knowledge of risks and important controls in the field of information technology, knowledge of Capital Market laws and regulations.
- CEO TelkomGroup always increases awareness from management regarding audit and change management in the form of CEO Notes and establishes Integrated Audit and forms Probis IFRS.

In accordance with Minister of State-Owned Enterprises Regulation No. PER-01/MBU/2011 regarding the Implementation of Good Corporate Governance (GCG) in SOE, specifically Article 26 paragraph (2), Telkom carries out regular assessments of the implementation of SPI to improve the quality of SPI. The results of the SPI assessment in 2023 show that Telkom's Control System is effective.

FINANCIAL AND OPERATIONAL CONTROL

Financial control carried out by Telkom includes financial plans, feedback, adjustments, and validation processes to ensure plan implementation or change plans in response to various changes. Meanwhile, operational control consists of the deployment process to ensure operational activities run effectively and efficiently.

In general, financial and operational control at Telkom, includes:

1. Physical Control of Assets and Intangible Assets

Physical control of assets in the corporate environment is directed at securing and protecting risky assets.

2. Separation of Functions and Authorization

Segregation of functions is geared towards adequate review and reduces the potential for errors and fraud.

3. Execution of Events and Transactions

Control is carried out to ensure that transaction activities are carried out properly according to the plan and need that have been determined.

4. Accurate and On Time Records on Events and Transactions

Accurate and on time records of operational events and transactions that carried out.

5. Restricted Access and Accountability for Resources and Their Records

Access to Telkom resources and records should be limited only to the personnel that assigned the duties and responsibilities.

6. Good Documentation of Control Events and Transactions

Every event and transaction in the Company is well documented as basic evidence of the occurrence and fairness of the transaction.

EFFECTIVENESS OF INTERNAL CONTROL SYSTEM OVERVIEW

Telkom reviewed SPI's effectiveness based on supervision carried out by the Internal Audit (IA) and External Audit Departments. The IA Department submits SPI supervision reports to the Board of Directors and Board of Commissioners. Management is responsible for implementing an effective and reliable SPI and ensuring that this is embedded at every level of the Company.

The Internal Audit Department reports the results of SPI supervision to the Board of Directors and Board of Commissioners. The audit findings will be submitted to the relevant management for follow-up. Based on the supervision in 2023, Telkom's SPI is considered to have been running effectively.

STATEMENT OF THE BOARD OF DIRECTIONS AND/OR THE BOARD OF COMMISSIONERS ON ADEQUACY OF INTERNAL CONTROL SYSTEM

Through the Audit Committee, the Board of Directors and Board of Commissioners hold regular meetings with the Internal Audit and External Audit Departments to discuss internal control monitoring and follow-up plans on matters management needs to pay attention to. The Internal Audit and External Audit Unit reports the results of monitoring and testing of internal control to the Board of Directors and Board of Commissioners at least once a year.

The Board of Directors and Board of Commissioners assess that Telkom's internal control system has been running effectively and has met the adequacy of the policies and standards referred to, among others:

1. Provisions of Sarbanes-Oxley Act (SOX) 302, 404, and 906.
 - a. **SOX 302 Corporate Responsibility for Financial Reports**

Require the CEO and CFO to provide certification regarding the effectiveness of design and implementation of internal control and disclosure of significant deficiencies in internal control in the context of financial reporting (Internal Control over Financial Reporting/ICoFR).
 - b. **SOX 404 Management Assessment of Internal Controls**

Require companies that list their shares on United States stock exchange to design, implement, document, evaluate, and disclose the result of evaluation of the effectiveness of internal control over financial reporting (Internal Control over Financial Reporting/ICoFR).
 - c. **SOX 906 Corporate Responsibilities for Financial Reports: Failure of Corporate Officers to Certify Financial Reports**
 - i. If misrepresented, the CEO and CFO are subject to criminal penalties of up to \$1 million or up to 10 years in prison, or both, or
 - ii. If the disclosure is intentional, the CEO and CFO are subject to criminal penalties of up to \$5 million or up to 20 years in prison, or both.
2. Regulation of Minister of State-Owned Enterprises Article 26 Paragraph 2 of 2011 regarding Implementation of Good Corporate Governance (GCG) in SOE.

RISK MANAGEMENT SYSTEM

The risk management system is essential in realizing Good Corporate Governance (GCG). By implementing a good risk management system within Telkom and its subsidiaries, the Company can identify various business risks faced and develop appropriate risk mitigation to expand the business scope for communication transformation in the digital era, improve the risk management system on an ongoing basis, and support business continuity.

GENERAL ILLUSTRATION REGARDING THE RISK MANAGEMENT SYSTEM

As a Company listed on the New York Stock Exchange (NYSE), Telkom is also required to implement risk management that complies with the Sarbanes-Oxley Act, significantly articles 302 and 404. Based on the Minister of State-Owned Enterprises Regulation No. PER-2/MBU/03/2023 regarding Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises, Telkom, as a state-owned Telkom, is also required to implement a risk management system. Implementing a risk management system is carried out to fulfill compliance aspects and maintain business continuity so that it runs well.

Telkom publishes various Telkom policies relating to risk management implementation arrangements, among others:

1. Decision of the Commissioners (KAKOM No. 7/2006 Risk Management regarding the Authorities and Responsibilities of the Commissioners, the Obligations of the Directors regarding the Implementation of Risk Management);
2. Resolution of the Board of Directors/Regulation of the Board of Directors (KD 13/2009 regarding Guidelines for the Management of SOX Sections 302 and 404, Telkom Management refers to the provisions of the US SEC;
3. Regulation of the Board of Directors of a Limited Liability Telkom (Persero) (Number: 614.00/r/01/HK200/COP-D0030000/2021) regarding Telkom Risk Management;

These various regulations and provisions form the foundation for Telkom to carry out risk management, of course referring to various existing standards and best practices.

RISK MANAGEMENT SYSTEM (FRAMEWORK) AND POLICY

Telkom's risk management implementation is based on two policies: Regulation of the Board of Directors No. PD.614.00/r.01/HK.200/COP-D0030000/2021 dated April 30, 2021 regarding Company Risk Management (Telkom Enterprise Risk Management) and Regulation of the Director of Finance and Risk Management No. PR.614.00/r.01/HK200/COP-I0000000/2022 regarding Guidelines for Implementing Enterprise Risk Management (Telkom Enterprise Risk Management). Since 2021, Telkom's risk management policy has referred to the ISO 31000:2018 Risk Management – Principles and Guidelines standard, which consists of 3 main components, namely:

1. Principle

Risk Management Principles as the foundation for how risk management works to ensure the creation and protection of value, including:

- 1) Integrated
Risk management is an integrated part of the Company's overall activities.
- 2) Structured and Comprehensive
In practice, the Company takes a structured and comprehensive approach to provide consistent and comparable results.
- 3) Customized
The risk management framework and process must be adapted and proportionate to the external and internal context of the organization in line with the Company's goals.

4) Inclusive

It is necessary to involve the right stakeholders at the right time to take their knowledge, views, and perceptions into account, thereby increasing awareness of risk management, which is well-informed.

5) Dynamic

Risks can appear, change, and disappear along with the changes in the context and conditions of the Company's internal and external environment. The application of risk management must be able to anticipate, detect, acknowledge, and respond to these changes and events in an appropriate and timely manner.

6) Best Available Information

Risk management is based on historical, current information, and expectations for the future. Risk management explicitly considers all limitations and uncertainties associated with such information and expectations. Information must be timely, clear, and available to relevant stakeholders.

7) Human and Culture Factors

Behavior and culture significantly affect all aspects of risk management at every level and stage of the Company's activities.

8) Continuous Improvement

Risk management is continuously improved through learning and experience.

2. Framework

The framework that regulates the commitment to the role and division of Telkom's risk management functions includes:

1) Leadership and Commitment

- i. The Board of Directors ensures that risk management is integrated into all activities of the Company and must demonstrate leadership and commitment, by:
 - a. Customize and implement all components of the framework;
 - b. Issue a statement or policy that sets out risk management approaches, plans, or actions;
 - c. Ensure that necessary resources are allocated to manage risk;
 - d. Establish authority, responsibility, and accountability at the appropriate level within the Telkom.

- ii. Risk management becomes inseparable from the Company's objectives, governance, leadership and commitment, strategy, goals, and operations.

2) Integration

- i. Risk management becomes inseparable from the Telkom's objectives, governance, leadership and commitment, strategy, goals, and operations;
- ii. The integration of risk management into the Company is a dynamic and iterative process and must be adapted to the needs and culture of the Company.
- iii. Risks are managed in every part of the Company's structure, where everyone in the Company has the responsibility to manage risks.

3) Design

- i. The design of the risk management framework is carried out by examining and understanding the external and internal context of the Telkom.
- ii. The Board of Directors and the Board of Commissioners demonstrate and articulate their ongoing commitment to risk management through policies, statements, or other forms, and are communicated within the Company and stakeholders.
- iii. Authority, responsibility, and accountability related to risk management are established and communicated at all levels within the Company.
- iv. Management ensures the appropriate allocation of resources for risk management.
- v. The Company establishes approved communication and consulting approaches to support the framework and facilitate the implementation of effective risk management.

4) Implementation

Risk management implementation requires stakeholders' involvement and awareness, thus allowing the Company to consider uncertainty in decision-making explicitly.

5) Evaluation

The Company evaluates the effectiveness of the risk management framework by periodically measuring its performance of the risk management framework.

6) Improvement

- i. The Company monitors and adjusts the risk management framework in anticipation of external and internal changes.
- ii. The Company is constantly improving the suitability, adequacy, and effectiveness of the risk management framework and how to integrate risk management processes.

3. Context assignment - Scope, Context, and Criteria;

1) Risk assessment consisting of:

i. Risk identification

It is a process to find, recognize, and describe risks in achieving the Company's objectives. Relevant, appropriate, and up-to-date information is essential in identifying risks.

ii. Risk Analysis

It is a process to understand the nature and characteristics of risk, including its level of risk. Risk analysis involves a detailed consideration of the uncertainty, the source of the risk, the consequences, the possibilities, events, scenarios, controls, and their effectiveness. An event can have many causes and consequences and can also affect a variety of objectives.

iii. Risk evaluation

Is a process to support decision-making. Risk evaluation involves comparing risk analysis results with established risk criteria to determine where additional measures are needed.

2) Risk treatment

- i. Risk treatment is to select and implement options for dealing with risk, which consists of:
 - a. Risk aversion
 - b. Accept risk
 - c. Mitigating risk
 - d. Dividing/transferring risk
- ii. The risk treatment plan should be integrated into the Company's management plans and processes in consultation with appropriate stakeholders.

3) Monitoring dan review

- i. Monitoring and review are to ensure and improve the quality and effectiveness of the process design, implementation, and risk management outcomes.
- ii. Monitoring and review should be carried out at all process stages, including planning, collecting, analyzing information, documenting results, and providing feedback.

4) Recording and Reporting

- i. The risk management process and its results should be documented and reported through appropriate mechanisms.
- ii. Reporting is an integral part of corporate governance. It is intended to improve the quality of dialogue with stakeholders and support the Board of Directors and the Board of Commissioners in fulfilling their responsibilities.

RISK AWARENESS AND CULTURE

Increasing Risk Aware Culture is an important factor in achieving the Telkom's targets and objectives, in line with the Strategic Plan of the Ministry of SOEs 2020-2024, especially regarding strengthening the risk management function and GCG of SOE. A good Risk Aware Culture can improve:

1. Organizational capability to manage measurable risk levels.
2. Improving Corporate Governance Compliance.
3. Achievement of Telkom performance targets.

Risk Aware Culture also applies one of AKHLAK's core values, especially the KOMPETEN aspect, namely continuing to learn and develop capabilities. For this reason, the risk awareness program is carried out in 3 categories, namely the leader journey, people journey, and program journey.

1. Leader Journey

- a. Sharing Session Involving Telkom Leaders
Telkom routinely conducts sharing sessions involving C-Level Executives from divisions and subsidiaries with the aim of building a commitment to risk management implementation.
- b. Training and Certification
Telkom also strengthens risk management through relevant training programs that are attended by Heads of Units and Management of Subsidiaries.
- c. Webinars with External Experts
The webinar program is conducted by external experts, both consultants, practitioners, and academics

2. People Journey

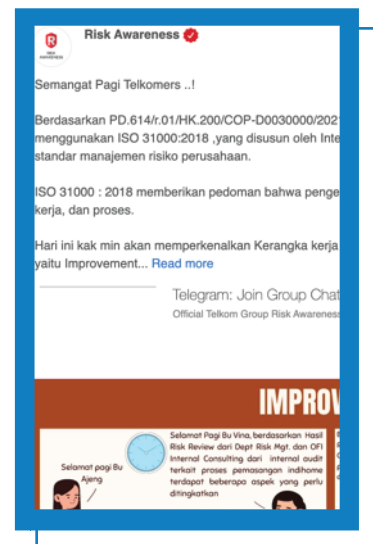

- a. Communicate Clearly (Compile Story)
Telkom's Risk Management Department intensively conducts advisory and also provide coaching to Units and Subsidiaries in order to strengthen risk management through several platforms (information listed on the platform is available in Indonesian language) including
 - 1) Diarium (Digital Poster)
 - 2) Telegram Channels

RISK MANAGEMENT SYSTEM'S REVIEW ON THE EFFECTIVENESS

During 2023, Telkom's risk management system has effectively managed various Telkom business risks to support every policy and process in the TelkomGroup. Telkom uses several tools or risk management information systems, including:

1. Generic Tools Enterprise Risk Management Online (ERM Online), which is used by all units to manage risk register.
2. Specific Tools for certain Risk Management which are:
 - a. Fraud Management System (FRAMES) application is used as an early detection system for the possibility of Customer and Third Party Fraud.
 - b. i-Library application managed by Service Operation Division and to be used to manage the documentation system of the Integrated Management System.
 - c. SMK 3 Online application managed by Security & Safety unit for Health and Safety Documentation Management.

The evaluation process for assessing the effectiveness of Risk Management implementation will be carried out in 2023, namely:

1. Measurement of Risk Maturity Index (RMI).
2. Monitoring and evaluation of the effectiveness of risk mitigation through the ERM Online application.
3. One-on-one evaluation/discussion and advisory with business units as needed.
4. Joint reporting and evaluation with BOD and Committee for Planning and Risk Evaluation and Monitoring (KEMPR).

STATEMENT OF BOARD OF DIRECTORS AND BOARD OF COMMISSIONERS ON ADEQUACY OF RISK MANAGEMENT SYSTEM

The Board of Directors and Board of Commissioners, through the Planning and Risk Evaluation and Monitoring Committee (KEMPR), hold regular meetings with the Risk Management Department to discuss risk monitoring within the Company as well as follow-up actions that risk owners have carried out to minimize risks that occur. The Risk Management Department will report risk monitoring results to the Board of Directors and Board of Commissioners every quarter.

The Board of Directors and Board of Commissioners assess that Telkom's risk management system in 2023 has run well and meets the adequacy of the policies and standards referred to. These adequacies include, among others:

1. Adequacy of Risk Management Information System

The risk management system implemented in the Company refers to the ISO 31000:2018 framework and adopts various international standards to ensure the best implementation of risk management. The Company has utilized the ERM Online application to compile risk registers and risk profiles and monitor and evaluate risks.

2. Adequacy of Risk Identification, Measurement, Monitoring, and Control Processes.

The Board of Directors through the Internal Audit function has carry out inspections, evaluations, reports, and/or recommendations for improvement of adequacy and the effectiveness of the risk management process then followed up through evaluation by the Evaluation Committee and Planning and Risk Monitoring.

WHISTLEBLOWING SYSTEM

Following up on the Sarbanes-Oxley Act of 2002, Telkom established a violation reporting system or Whistleblowing System (WBS), which has been running since 2006. This WBS mechanism is an effort to prevent fraud. It is a medium for all individuals within Telkom and third parties to report violations, fraud, or other forms of ethical violations related to TelkomGroup.

The WBS is managed by the Audit Committee and is designed to receive, review, and follow up on complaints received while maintaining the confidentiality of the reporter's identity. The Audit Committee continues to strive to increase the credibility of the WBS system so that it can

become a media that the public trusts to report violations. For this reason, the Audit Committee conducted various studies and comparative studies to improve Telkom's WBS while improving the quality of internal control.

As a result, on January 31, 2022, the Telkom Integrity Line was launched, resulting from WBS development involving Deloitte as an independent consultant, with 7 (seven) complaint channels. The policies and provisions of this system are regulated in Kep. Dekom No. 01/KEP/DK/2022 dated January 25, 2022, and has been ratified through Directors' Regulation No. PD.622/r.00/HK200/COP-C0000000/2022 dated February 22, 2022.

The complaint must meet the following requirements:

1. Issues in accounting and internal control over financial reporting that has the potential to result in material misstatements in the Company's financial statements;
2. Audit issues, especially those involving the independence of the Public Accounting Firm;
3. Violation of the laws and regulations of the capital market relating to the Company's operations;
4. Violation of internal regulations that have the potential to cause harm to the Company;
5. Fraud and/or Abuse of Position committed by officials and/or employees within the TelkomGroup Environment;
6. Disrespectful behavior of the Board of Commissioners, Organs of the Board of Commissioners, Directors, Management, and employees of the Telkom, including but not limited to dishonesty, conflict of interest and providing misleading information to the public which directly or indirectly has the potential to damage reputation or cause losses to the Company.

PROTECTION TO THE COMPLAINANT

Telkom guarantees and ensures the protection of whistleblower confidentiality based on the following internal policies:

1. Resolution of the Board of Commissioners No. 01/KEP/DK/2022 dated January 25, 2022, regarding Policies and Procedures for Handling Complaints (Whistleblowing System) within the Telkom Group;
2. Board of Directors Regulation No. PD. 622/r.00/HK200/COP-C0000000/2022 dated February 22, 2022, regarding Ratification of the Resolution of Board of Commissioners No.01/KEP/DK/2022 regarding Complaint Handling Policies and Procedures (Whistleblowing System) within the Telkom Group.

Telkom always prioritizes confidentiality and the principle of presumption of innocence when following up on every report submitted via WBS. This encourages all parties to have courage and feel safe without fear or worry when submitting violation reports.

THE COMPLAINT HANDLING

Telkom operates Whistleblowing System mechanism under responsibility of Audit Committee. In practice, WBS mechanism refers to Financial Service Authority Regulation No. 55/ POJK.04/2015 and Sarbanes-Oxley Act 2002 Section 301 regarding Public Telkom Audit Committee.

In order to fulfill a responsible and not defamatory complaint report against someone, Telkom determines certain complaint requirements. Report can be followed up immediately if the type of complaint is in accordance with the scope of the Whistleblowing System mechanism, the truth and the accuracy of the complaint information has been supported by sufficient data. Some WBS complaints could not be followed up due to incomplete, inaccurate and unreliable data and information.

COMPLAINT HANDLING MECHANISM

 FU: Follow Up

THE PARTY THAT MANAGES THE COMPLAINT

Telkom's WBS mechanism is managed by the Audit Committee, Internal Audit Department, Investigation Committee, and Consultants/Independent Third Parties with their respective duties and responsibilities.

The Audit Committee is a committee formed by the Board of Commissioners of PT Telkom Indonesia Tbk to carry out oversight (oversight) over the quality and integrity of the company's financial reporting with the scope of its duties covering all companies within the TelkomGroup and following up on complaints received according to its authority.

The Internal Audit Department is appointed to monitor all complaints received from independent consultants who manage the receipt of complaints from all WBS channels and follow up on complaints in accordance with its authority.

The Investigation Committee is a committee formed by the Company's President Director to follow up on Investigation Reports on complaints that require a further investigative audit process according to its authority.

Consultant/Independent Third Party is a third party appointed by Telkom to participate and play an active role in receiving and distributing complaints and/or play an active role in the process of resolving complaints received through the complaint management system.

The Audit Committee has a role in:

1. Together with the Consultant/Third Party managing complaint reports, receive and submit complaint reports that meet the requirements to the Internal Audit Department or other independent parties for examination;
2. Monitoring the progress of the examination process for complaint reports;
3. Evaluating and decide whether the results of the inspection by the Internal Audit Department or other independent parties require a further investigation process or do not require a further investigation process and are stored as archives;

4. Make a letter requesting an internal investigation to the President Director for an investigation process that does not require the assistance of an independent party. Next, the President Director assigned the Investigation Committee to conduct an investigative audit; and
5. Request approval from the Board of Commissioners for investigation processes that require the assistance of independent parties. If the Board of Commissioners agrees, it will continue with the selection process, appointing and assigning selected Consultants/Independent Third Parties to conduct investigations and report the results.

The Internal Audit Department plays a role in:

1. Examine complaint reports received from the Audit Committee or Consultants/Third Parties managing complaint reports;
2. Collaborate with related units to ensure the truth of complaint reports, prove whether or not there are violations and follow-up actions;
3. If during the audit process, there is a need to carry out an in-depth investigation through an Investigative Audit, the SVP Internal Audit can report this to the President Director, who will then assign the Investigation Committee to carry out an investigative audit; and
4. Report the examination results and close the Complaint Report through the Complaint Report system, which can be accessed and analysed by the Audit Committee for further follow-up.

The Investigative Committee has a role in:

1. Reviewing problems and examination results of complaint reports that require an investigative audit process. If the investigation process concerns personnel and/or units in a subsidiary, the Investigation Committee will convey it to the Commissioners and Directors of the subsidiary in question;
2. Form an Investigation Team to carry out an investigative audit process in accordance with the authority referring to applicable regulations. The Investigation Team can consist of personnel from subsidiaries as needed;
3. Submit the Investigation Results Report to the President, Director, and/or Audit Committee as evaluation material for company management to be followed up to the next stage.

CORPORATE GOVERNANCE

Consultants/Third Parties appointed as complaint report managers play a role in:

1. Receiving and distribute incoming complaints from all Telkom Integrity Line channels
2. Conducting initial review and verification to ensure that the complaint meets the requirements to be designated as a valid complaint and will be processed further
3. Keep whistleblowing management archives, including complaints that do not meet the requirements
4. Monitoring the process of resolving complaints through the complaint management system.

THE RESULT OF COMPLAINT HANDLING

Throughout 2023, Telkom received 59 complaint reports. Total of the 28 complaints eligible for follow-up, 19 complaints were declared closed, with 3 complaints proven to have violations and 9 other still waiting for additional data to carry out the follow-up process.

- In the Annual Report 2023, records of the results of testing the complaint channel and additional communications related to complaints are not counted in the number of complaints.

THE COMPLAINT HANDLING PROCEDURES

The handling process for complaints received is as follows:

- Unit or third party appointed as the party responsible for receiving complaints in the whistleblowing system monitors incoming complaints from all existing reporting channels;
- The complaints received are reviewed and verified to ensure that the complaint meets the requirements to be determined as a valid complaint and will be processed further. Meanwhile, complaints that do not meet the requirements are not processed and stored as archives for the Whistleblowing Manager;
- Complaints that meet the requirements and will be processed further, are sorted based on the level/levelling being complained about and submitted to:
 - The Board of Commissioners through the Audit Committee, for complaints against one or more members of the Board of Directors of Telkom (including the Main Director), employees on duty at Telkom's Internal Audit Unit or employees within the supporting organs of the Board of Commissioners;
 - Main Director of Telkom through SVP Internal Audit, for all complaints against all Telkom Group employees including members of the Board of Directors and/or Commissioners of Subsidiaries, except for Telkom Directors and Telkom employees who serve in the Internal Audit Unit;
 - Ministry of SOE, for complaints against the Board of Commissioners.
- For complaints that meet the requirements as referred to in points 3.a. and 3.b. above, audits are carried out by the Internal Audit Department or other independent parties if necessary
- The Internal Audit Department reports the results of examinations and closes Complaint Reports through the Complaint Report system, which can be accessed and further analysed by the Audit Committee for further follow-up;
- Based on the results of the inspection by the Internal Audit Department or an independent party, the Audit Committee will evaluate and decide whether the results of the audit need to be followed up and processed further through an investigative audit or whether there is no need for a further investigation process and will be stored as an archive;
- If it is decided to carry out an investigative audit process that does not require the assistance of an independent party, the Audit Committee and/or SVP Internal Audit can make a letter requesting an internal investigation to the President Director, who will then assign the Investigation Committee to carry out the Investigation audit process and prepare an Investigation Result's Report; and
- If it is decided to carry out an investigative audit process that requires the assistance of an independent party, the Audit Committee will request approval from the Board of Commissioners. If the Board of Commissioners approves, the Audit Committee will select, appoint, and assign selected Consultants/Independent Parties to conduct investigative audits and prepare Investigation Results Reports.

INVESTIGATION PROCESS

As a follow-up to instructions from the President Director to carry out the investigative audit process, the Investigation Committee carried out the following:

1. Review problems and examination results of complaint reports that require an investigative audit process. If the investigation process concerns personnel and/or units in a subsidiary, the Investigation Committee will convey it to the Commissioners and Directors of the subsidiary in question;
2. Form an Investigation Team to carry out an investigative audit process in accordance with the authority referring to applicable regulations. The Investigation Team can consist of personnel from subsidiaries as needed;
3. Submit the Investigation Results Report to the President, Director, and/or Audit Committee as evaluation material for company management to be followed up to the next stage; and
4. If expert assistance is required to carry out the investigative audit process, the Investigation Committee may request the Main Director to process

the appointment and assignment of a Team of Experts to assist in handling the investigative audit process.

COOPERATION HANDLING OF INTEGRATED WBS

Telkom, together with 26 other SOEs and the Corruption Eradication Commission (KPK), signed a Perjanjian Kerja Sama (PKS) on March 2, 2021. This PKS aims to be an effort to eradicate criminal acts of corruption through the implementation of an integrated WBS. The scope of this collaboration includes:

1. Formulation and/or strengthening of the internal rules for handling complaints;
2. Commitment to complaint handling management;
3. Handling complaint through application;
4. Coordination and joint activities for handling complaints; and
5. Exchange of data and/or information.

Further discussion of WBS can be found in Sustainability Report.

POLICY REGARDING REPORTING SHARE OWNERSHIP OF DIRECTORS AND COMMISSIONERS

Each member of the Board of Directors and Board of Commissioners of Telkom has reported to the Financial Services Authority, either directly or indirectly, regarding ownership and any changes in ownership of Public Company shares in accordance with the provisions of OJK Regulation No. 11/POJK.04/2017 concerning Ownership Reports or Any Changes in Ownership of Public Company Shares by the Board of Directors and Board of Commissioners. Provisions regarding reporting of share ownership are also regulated internally in the Board Manual for the Board of Directors and Board of Commissioners as stated in the Joint Regulation of the Board of Commissioners and Directors No. 05/KEP/DK/2022 and No. PD.620.00/r.01/HK200/COP-M4000000/2022 concerning Guidelines for the Work Procedures of the Board of Commissioners and Directors (Board Manual) of the Company (Persero) PT Telekomunikasi Indonesia, Tbk.

The Company routinely reports the share ownership of members of the Board of Directors and members of the Board of Commissioners every month. It is disclosed in the Annual Report and Financial Report. In the Annual Report for Fiscal Year 2023, Telkom reports information on share ownership by members of the Board of Directors and Board of Commissioners, as well as changes in the "Shareholder Composition" section.

All members of the Board of Directors and Board of Commissioners must report changes in share ownership by three working days after ownership or change in ownership of Public Company shares occurs. This policy applies to all members of the Board of Directors and Board of Commissioners. In 2023, several Board of Directors and Board of Commissioners will receive Long Term Incentive (LTI) and Tantiem, which will be deferred for the 2022 financial year in the form of Telkom shares.

EMPLOYEE STOCK OWNERSHIP PROGRAM

Telkom has a policy of providing long-term, performance-based compensation for employees and management through share ownership programs, namely the Employee Stock Ownership Program (ESOP) and Management Stock Ownership Program (MSOP). The program aims to foster a sense of belonging and retain and appreciate employee contributions. This share ownership program started in 1995 when Telkom conducted an Initial Public Offering (IPO) and was carried out again on June 14, 2013. The conditions for implementing the ESOP carried out in 2013 were:

1. Number of Shares

Number of shares offered during ESOP program period in 2013 was 64,284,000 Series B stock which were the result of buyback phase III or Treasury Stock.

The amount was allocated to each participant with the following conditions:

- a. Participants have an active status, referring to the Band Position level, Role Category, and participant's contribution period as of December 31, 2012; temporary
- b. Participants have a non-active status, referring to the Band Position level and the contribution period during 2012, except in the event that the person concerned dies, the contribution is calculated at 100%.

Regarding the stock transfer process, employees who become program participants are subject to the provisions of the Lock-Up Period based on the following levels:

- a. Level BP I and II are subject to a Lock Up Period of 12 (twelve) months;
- b. Level BP III and IV are subject to a Lock Up Period of 6 (six) months;
- c. Levels BP V to VII are subject to a Lock Up Period of 3 (three) months.

2. Execution Time

Telkom stock ownership program by employees and/or management was implemented on June 14, 2013.

3. Employee and/or Management Requirements in Telkom Stock Ownership Program

- a. Meet Eligibility Criteria:
 - i. Employees of Company and Employees of Subsidiaries/Affiliates whose financial statements are consolidated in Telkom Financial Statements;
 - ii. Directors of Subsidiaries/Affiliates whose financial statements are consolidated, except BOD/BOC Telkom and Telkomsel.
- b. Have contributed at least 1 month in 2012;
- c. In the event that employee has an inactive status in 2013, then:
 - i. The person concerned is still entitled to participate in the program, with the allocation of stock calculated proportionally according to the contribution of the person concerned in 2012;
 - ii. The person concerned did not quit at his own request (APS), was dismissed due to a serious violation of employee discipline, and/or quit because he was appointed as the Board of Directors of a SOE.
- d. The program is optional with conditions: the right to buy is non-transferable and void if it is not used during the offer period.

4. Execution Pricing or Pricing

Whereas, in the implementation of employee stock ownership program in 2013, Telkom set a stock transfer price of Rp10,714 (ten thousand seven hundred and fourteen rupiah), which is 90% of the average closing price of stock trading for a period of 25 days prior to the price fixing date.

No.	Date	Number of Employees	Number of Shares	Stock Value
1.	November 14, 1995	43,218	116,666,475 shares	Rp239 billion
2.	June 14, 2013	24,993	59,811,400 shares (equivalent to 299,057,000 shares after a stock split)	Rp661 billion

SIGNIFICANT LEGAL DISPUTES

Throughout 2023, Telkom faced 153 legal cases consisting of 55 criminal law cases and 98 civil law cases. Among these cases, 62 cases are a continuation of cases from the previous period, while the remaining 91 cases are cases that began in 2023. Until the end of 2023, there are 97 cases that have not been completed and the process will continue for the next period.

CORPORATE CODE OF CONDUCT

CODE OF CONDUCT'S IMPLEMENTATION FOR BOARD OF DIRECTORS, BOARD OF COMMISSIONERS AND EMPLOYEES

Based on the Sarbanes-Oxley Act (SOA) 2002 section 406, Telkom has a code of ethics regulated in Directors Regulation No. PD.201.01/r.00/PS150/COP-B0400000/2014 regarding Business Ethics in the TelkomGroup Environment and Regulation of the Director of Human Capital Management No. PR.209.05/r.01/HK250/COP-A4000000/2020 regarding Employee Discipline.

Telkom's code of ethics regulates business ethics for the external environment (customers, suppliers, contractors, and other external parties) as well as employee work ethics for the internal environment, which applies to all members of the Board of Directors, members of the Board of Commissioners and the extended family of Telkom employees. Telkom requires all internal parties to sign an Integrity Pact, which contains a commitment from employees and management not to violate the established integrity and code of ethics. this integrity Pact is stated in Resolution of the Board of Directors No. KD.36/HK290/COP-D0053000/2009.

CODE OF CONDUCT'S PRINCIPLES

The Telkom Code of Conduct, which applies, among others, regulates the main matters regarding:

1. Employee Ethics
The system of values or norms that are used by all employees and leaders in the daily work.
2. Business Ethics
The system of values or norms that are upheld by the Company as guidelines for the Telkom, management, and its employees to interact with the surrounding business environment.

DISSEMINATION OF THE CODE OF ETHICS AND ITS EFFORTS TO ENFORCEMENT

Any code of ethics violation will be subject to sanctions after going through an investigation process and various considerations. The following table presents the sanctions provisions for each type of violation.

No.	Main Thing	Type of Violation	Penalty
1.	Employee Work Ethics	1. Misdemeanor	Light Discipline Punishment
		2. Moderate Violation	Moderate Discipline Punishment
		3. Serious Violation	Severe Discipline Punishment
2.	Business Ethics	1. Insider Trading	Integrity Committee Decision
		2. Conflict of Interest	Employee Discipline Committee Decision
		3. Window Dressing	Integrity Committee Decision
		4. Do gratuities	Employee Discipline Committee Decision

EFFORTS TO DISSEMINATION OF CODE OF CONDUCT

Every year, Telkom management sends outreach materials to all employees at TelkomGroup regarding understanding of GCG, Business Ethics, Integrity Pact, Fraud, Risk Management, Internal Control (SOA), Whistleblowing, Prohibition of Gratification, IT Governance, Information Security, Anti-Bribery Management System and other matters. Others related to ethics and corporate governance practices.

Telkom implements an obligation for every employee to create an Integrity Pact, which is filled out and signed by all employees every year as long as they are still employees of TelkomGroup. Telkom also carries out business ethics outreach through various media and e-learning, which also includes awareness of the implementation of SNI ISO 37001:2016 Anti-Bribery Management System (SMAP).

Table of Code of Conduct Socialization 2023

No.	Oncoming	Amount Reached
1.	E-learning	9,543/9,543
2.	Face to face (training, communication forum/workshop)	244/9,543
3.	Socialization material through the intranet portal	9,543/9,543

REPORT ON RESULTS OF APPLICATION OF CODE OF CONDUCT

Violations of Employee Discipline that will be processed at Telkom in 2023 are as many as 17 cases, consisting of 3 cases that have been decided with 26 perpetrators and 14 cases still in process with 75 people. This number increased compared to the previous year, with 13 cases with 143 perpetrators. Judging from the information, Telkom still needs to improve the quality of internal control so that the number of code of ethics violations can continue to be reduced.

ANTI CORRUPTION POLICY

Telkom is committed to maintaining GCG principles to ensure that the Telkom avoids corrupt practices, kickbacks, fraud, bribery, and illegal gratuities. This commitment has been realized through implementing ISO 37001:2016 regarding Anti-Bribery Management Systems (SMAP) since 2020. The SMAP standard determines various steps and controls that companies must implement to prevent and reveal bribery and corruption cases. Telkom also prepares programs and procedures as outlined in internal policies as follows:

1. Decision of the Board of Directors of the Company Number: KD.36/HK290/COP-D0053000/2009 regarding Integrity Pact.
2. Telkom Regulation PD.201.01/r.00/PS150/COP-B0400000/2014 regarding Business Ethics in TelkomGroup.
3. Regulation of Director of Human Capital Management Number: PR.209.03/r.01/PS000/COP-A4000000/2017 regarding Obligations for Reporting on Assets of State Administrators within TelkomGroup.
4. Regulation of Director of Human Capital Management Number: PR.209.05/r.01/HK250/COP-A4000000/2020 regarding Employee Discipline.
5. Regulation of Director of Human Capital Management Number: PR.209.04/r.01/PS950/COP-A4000000/2021 regarding Gratification Control.
6. Decision of President Director No.SK08/PS.000/COP-A0000000/2023 regarding Composition of the Organizational Structure of the Anti-Bribery Management System.

Policies, targets, and all SMAP implementation on TelkomGroup are outlined in ISO 37001:2016 Anti Bribery Management System Manual and 17 Procedures.

ANTI-CORRUPTION, KICKBACKS, ANTI-GRATIFICATION, AND ANTI-FRAUD PROGRAMS AND PROCEDURES

To support the prevention of corruption, kickbacks, gratuities, and fraud within the company, Telkom holds training and outreach programs for all employees to support the prevention of corruption, kickbacks, gratuities, and fraud within the Telkom. Training programs carried out by Telkom during 2023 include:

1. Conducting training and understanding of business ethics and signing the annual Integrity Pact, which is mandatory for all employees.
2. Conducted Awareness on ISO 37001:2016 Anti-Bribery Management System by experts in their fields to the team on the scope of expansion.
3. Extending the ISO 37001:2016 Anti-Bribery Management System (SMAP) Lead Auditor certificate through the external agency Professional Evaluation and Certification Board.
4. Conducting training on Lead Auditor ISO 37001:2016 Anti-Bribery Management System (SMAP)
5. Conducting Integrity Development Expert certification through KPK to representatives of the scope and FKAP Committee.
6. Conducted ISO 19011:2018 Internal Auditor training for representatives of the scope of the Anti-Bribery Management System certification.
7. Carry out an Internal Surveillance Audit ISO 37001:2016 Anti-Bribery Management System.
8. Carry out an External Surveillance Audit ISO 37001:2016 Anti-Bribery Management System.
9. Organized a program to commemorate World Anti-Corruption Day (HAKORDIA) within Telkom.

With the implementation of these programs within Telkom Indonesia, it is hoped that it will further enhance a work environment that is conducive and free from corrupt practices.

CORPORATE SOCIAL RESPONSIBILITY AND ENVIRONMENT (CSR)

06.

BRIEF SUMMARY OF CORPORATE SOCIAL RESPONSIBILITY AND ENVIRONMENT

Telkom implements good corporate governance by considering the rights of employees and stakeholders, contributing to environmental sustainability, and carrying out social and ecological responsibility (TJSL) or Corporate Social Responsibility (CSR). Telkom's CSR information reporting refers to several international standards, namely the Global Reporting Initiative (GRI), ISO 26000 Guidance for Social Responsibility, and Sustainable Development Goals (SDGs).

Telkom conveys information on CSR implementation in a Sustainability Report, which is separate from this Annual Report, following SEOJK No. 16/POJK.04/2021 regarding the Form and Content of Annual Reports of Issuers or Public Companies, with the basis for preparation based on OJK Regulation No. 51/POJK.03/2017 regarding the Implementation of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies.

Access to the 2023 Sustainability Report:

As a SOE, Telkom also implements CSR based on the Minister of State-Owned Enterprises Regulation Number PER-1/MBU/03/2023 regarding Special Assignments and Social and Environmental Responsibility Programs for State-Owned Enterprises which revokes and replaces the Minister of BUMN Regulation Number PER-05/MBU/04/2021 regarding Social and Environmental Responsibility Programs for State-Owned Enterprises as amended by Regulation of the Minister of State-Owned Enterprises Number PER-6/MBU/09/2022 regarding Amendments to Regulation of the Minister of State-Owned Enterprises Number PER-05/MBU/04/2021 concerning Social and Environmental Responsibility Programs for State-Owned Enterprises. Article 33 PM BUMN PER-1/2023 regulates that financial reports and implementation of the SOE CSR Program are reported in

periodic and Annual Reports. Telkom presents the TJSL Program implementation report in the Annual Report in the subchapter Corporate Social and Environmental Responsibility Program Implementation Report, while the TJSL Financial Report, namely the MSE Funding Program Financial Report, is shown in the attachment to this Annual Report.

CORPORATE SOCIAL RESPONSIBILITY AND ENVIRONMENT PROGRAM IMPLEMENTATION REPORT

CSR Sustainability Strategy Framework

Telkom's Board of Directors also supervises the implementation of sustainability practices through the TJSL Program and encourages compliance to ensure program accountability. Telkom's TJSL Program aligns with environmental, social, and governance (ESG) aspects to support business objectives and achieve sustainability performance contributions.

Telkom's sustainability strategy is embodied in the "SUSTAIN" Main Program, which aligns with efforts to achieve the Sustainable Development Goals (SDGs) targets. The details of the program are as follows:

- 1. Speed-up Inclusive Digital Education to Develop Superior Digital Talent and Increase National Digital Adoption**, which encourages the realization of inclusive education and good quality of healthy life to support a prosperous and competitive nation through digital infrastructure support and digital talent education to improve national digital literacy;
- 2. Unlock Sustainable Digital Ecosystem and Uplift Greeneration to Increase Climate Change Resiliency**, which supports the realization of sustainable infrastructure and encourages efforts to increase resilience to climate change through community empowerment and the deployment of digital environmental ecosystems;

3. **Strengthen Excellent MSME Digital Platform to Scale up MSME Capacity and Drive Digital Economy Growth**, namely enlarging the access and capacity of Micro and Small Enterprises (MSEs) to financial services to expand employment, increase labor productivity, and drive economic growth through intensification of distribution quality and strengthening loan repayment capacity;
4. **Transform Good Viability and Well-being to Build more Prosperous Society**, which accelerates the transformation of essential service aspects to support a prosperous and competitive society;
5. **Assuring Good CSR GRC Management Reinforcement**, namely maintaining the accountability aspects of TJSL Program management and aspects of risk management implementation and compliance through quality improvement and governance evaluation, as well as overseeing the audit process and management reporting;
6. **Intensifying Strong Impact CSR Branding & Communication Impact Amplification**, namely activating the publication of the implementation of the TJSL program by prioritizing communication from the aspect of the impact of Telkom's TJSL Program through multi-stakeholder partnerships/collaboration;
7. **Nurturing National CSR Process Digitalization to Enable Data-driven & Analytics Reporting**, namely strengthening the transformation of digitization and digitalization of TJSL Program management through improving and maintaining information systems, utilizing data analytics and decision support systems in strategic decision making.

COMMITMENT AND POLICY ON SOCIAL AND ENVIRONMENTAL RESPONSIBILITY

The legal basis for the implementation of Telkom's TJSL Program activities is the Regulation of the Minister of State-Owned Enterprises Number PER-1/MBU/03/2023

regarding Special Assignments and Social and Environmental Responsibility Programs of State-Owned Enterprises which revokes and replaces the Regulation of the Minister of SOEs Number PER-05/MBU/04/2021 regarding Social and Environmental Responsibility Programs of State-Owned Enterprises as amended by the Regulation of the Minister of State-Owned Enterprises Number PER-6/MBU/09/2022 concerning Amendments to the Regulation of the Minister of SOEs Number PER-05/MBU/04/2021 regarding Social and Environmental Responsibility Programs of State-Owned Enterprises. Meanwhile, the internal policy basis as a guideline for the implementation of the TJSL Program is the Board of Directors Regulation No. PD.703.000/r.00/H-K200/CDC-A1000000/2021 dated 31 December 2021 regarding Social and Environmental Responsibility Programs and the Shareholder/Capital Owner Aspiration letter No. S-683/MBU/10/2022 dated 24 October 2022 regarding Shareholder/Capital Owner Aspirations for the Preparation of the Company's Work Plan and Budget for 2023.

Telkom's TJSL program is the authority of the Community Development Center (CDC) Unit, while the Corporate Communication Sub-Department is specifically responsible for the publication of the implementation of the TJSL Program. Telkom conducts socialization of core values and development of the Company's culture to encourage socially and environmentally responsible behavior in all TelkomGroup people. Telkom also involves employees in TJSL activities in the Employee Volunteering Program (EVP) through an employee social project program called TESA (Telkom Employee Social Activity) as a forum for one employee, and one social activity. Telkom also continues to encourage and ensure the active role of stakeholders in the planning and formulation of TJSL Programs that are integrated, directed, and measurable in impact to create shared value for stakeholders.

MSE DEVELOPMENT PROGRAM

In 2023, the Ministry of SOEs issued Regulation of the Minister of State-Owned Enterprises of the Republic of Indonesia Number: PER-1/MBU/03/2023 regarding Special Assignments and Social and Environmental Responsibility Programs of State-Owned Enterprises which revoked and replaced Regulation of the Minister of SOEs Number PER-05/MBU/04/2021 regarding Social and

Environmental Responsibility Programs of State-Owned Enterprises as amended by Regulation of the Minister of State-Owned Enterprises Number PER-6/MBU/09/2022 regarding Amendments to Regulation of the Minister of SOEs Number PER-05/MBU/04/2021 concerning Social and Environmental Responsibility Programs of State-Owned Enterprises. Referring to the regulation, as part of SOE, Telkom helps the Government to develop the local economy by the 8th SDG, namely Decent Work and Economic Growth, through the MSE Development program as follows:

1. **Access to Capital: Capital Assistance Program for MSE Business Acceleration**

Implementing the distribution of the MSE Funding program of Rp20 billion through a cooperation mechanism with BRI as a recommended SOE by letter S-721/MBU/11/2022, and Telkom Stopping the activities of independently distributing the MSE Funding program to partners/fostered MSEs and focusing on collection and MSE coaching programs.

2. **Access to Competence: MSE Coaching/Guidance Program in terms of modernization of MSE internal business processes**

Digitalization of MSE business activity solutions through digital platforms: as an application toolset to solve the end-to-end business process needs of MSEs through the Go Modern and Go Digital programs.

3. **Access to Commerce: MSE Guidance Program in access to a broader market**

Acceleration of MSE product promotion through marketplaces and virtual expos to increase MSE market access to consumers without having to open physical outlets through the Go Online and Go Global programs.

4. **Moneva Collection**

Optimizing the monitoring and billing teams and socializing with foster partners on how to pay through virtual bank accounts.

MSE FUNDING PROGRAM

The MSE (Access to capital) Funding Program aims to increase the income of Micro and Small Enterprises (UMK) through providing assistance in the form of capital loans with a relatively low level of administrative services. The management of this program is also strengthened by the digitalization process, making it easier for MSEs to access loan applications as well as obtain information and monitoring and installment history.

In 2023, Telkom distributed funds amounting to **Rp20 billion**. The amount of funds disbursed decreased by 91.57% compared to last year due to adjusting the distribution mechanism by SK-721 KBUMN.

FUND DISTRIBUTION EFFECTIVENESS OF THE MSE FUNDING PROGRAM

The level of effectiveness in distributing PUMK Program funds in 2023 will reach **8.00%** (score 1) of available funds, with a target set at **90%**. This achievement has been consistent in the last three years as a manifestation of Telkom's commitment to empowering the national MSE sector.

MSE DEVELOPMENT PROGRAMS

Telkom encourages MSEs to upgrade by increasing the capacity of MSEs and digitalization through the Go Modern, Go Digital, Go Online, and Go Global programs, as well as various activities to increase the productivity of Assisted MSEs. In 2023, Telkom also included Assisted MSEs in multiple activities, such as Trade Mission Singapore in collaboration with KADIN, the 20th China-ASEAN Expo, the Islamic and Halal Festival between Johor Malaysia, Packaging Festival 2023, and the SMEs Hub of the 42nd ASEAN Summit to introduce products and increase the level of MSEs in Indonesia with export activities abroad. In addition, the MSE Development Program is also carried out to improve the competence of MSEs through Mindset, Skillset, and Toolset Training and assist MSEs in obtaining business certifications and licenses.

DISTRIBUTION EFFECTIVENESS OF SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAMS

Telkom targets in 2023 to distribute 100% of the TJSL Program funds from the budget allocation of **Rp136 billion** (including MSE development). The budget realization achieved in 2023 was **Rp134.94 billion** or **99.22%** of the budget allocation.

Effectiveness of Telkom's Social, Economic, and Environmental Empowerment Program Distribution of Funds

Community Development Program	Unit	2023	2022	2021
Amount of Funds Disbursed	Rp billion	134.93	124.78	124.76
Fund Allocation Available	Rp billion	136	125	125
Level of Effectiveness of Funding	%	99.22	99.82	99.80

BUDGET ALLOCATION OF SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM

Based on the provisions of the Ministry of SOEs, the budget allocation for the TJSL Program is part of the budget calculated as the Company's costs or setting aside a portion of the Company's net profit in the previous fiscal year. The total TJSL budget decreased from **Rp355 billion** in 2022 to **Rp293.5 billion** in 2023. This decrease is due to the budget allocation for the MSE Funding Program through cooperation with BRI being smaller than the budget for independent distribution in the previous year.

DIGITALIZATION OF MSE MANAGEMENT

Starting 2021, Telkom implemented digitalization of integrated MSE Funding Program management through the UKM Access application, making it easier for MSEs to access all MSE services provided by Telkom and the loan application process for MSEs became easier and faster. Apart from that, digital management also makes it easier for Telkom to monitor loan repayments.

Furthermore, in 2022, Telkom has re-engineered the UKM Access application by dividing the application specifically for TJSL Managers through New Smart Survey and specifically for Foster Partners through UKM Access Reborn. Telkom also migrated the CDC Dashboard from the Extract Transform Load (ETL) mechanism to become a machine to machine mechanism through the Application Programming Interface (API) which is integrated with SIMPKBL in real time. In addition, Telkom CDC developed the Satu Data UKM platform to create a comprehensive profile of Telkom-assisted MSEs based on personal data profiles and business data, which is expected to help Company determine and offer the right TelkomGroup products for MSEs.

CSR ACTIVITIES SUCCESS PARAMETERS

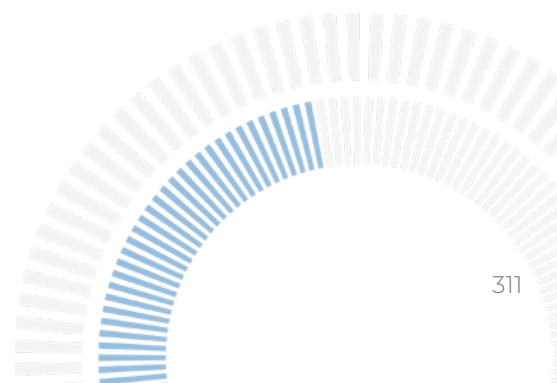

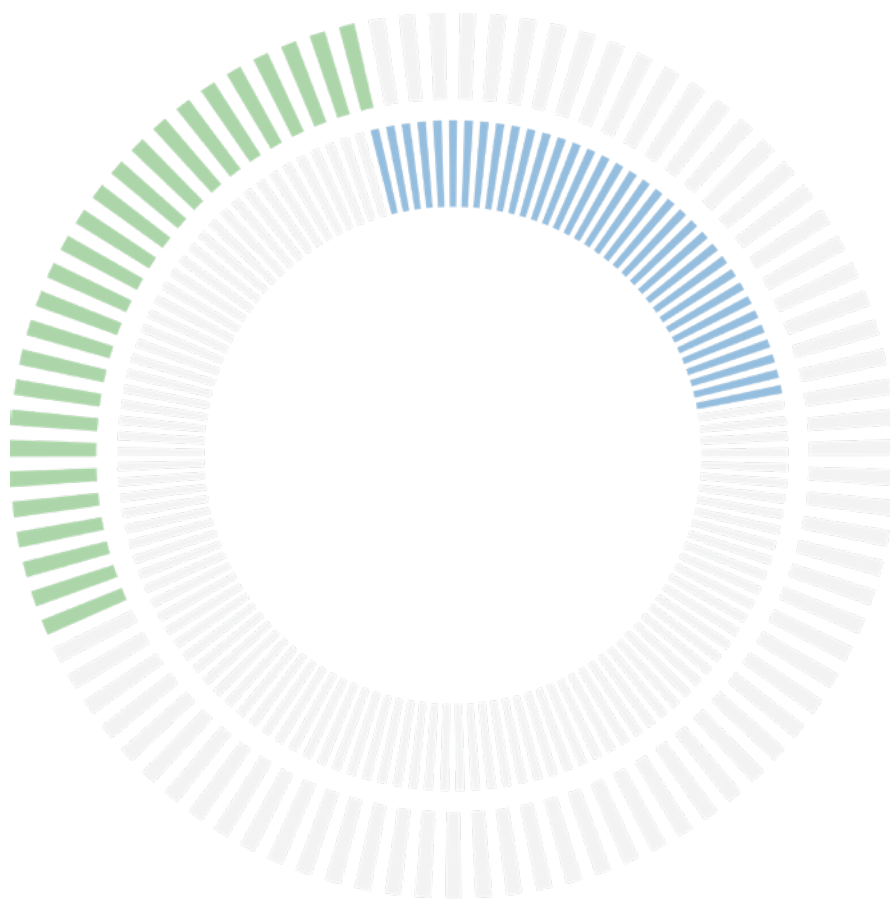

The success of Telkom's TJSL Program activities is measured using the Community Satisfaction Index (IKM), Net Promoter Score (NPS), and Social Return on Investment (SROI) methods. Telkom's CSR (TJSL) Index measurement in 2023 will reach 83.84%, which shows that Telkom's CSR activities are in the good category or strong level and have a positive influence on the Company's image. This is due to an increase in the perception of assisted MSEs/beneficiaries and the surrounding community regarding Telkom's CSR program, especially in the Corporate Governance & Economic Responsibility.

Then, the Net Promoter Score (NPS) is used to measure the success of social responsibility towards society and identify the level of community motivation to promote Telkom products and services. The NPS measurement results in 2023 reached 56, showing a positive value from the public's perspective in recommending Telkom products.

Meanwhile, Social Return on Investment (SROI) is used to measure the beneficial impact of the TJSL Program. In 2023, measurements were carried out on 4 priority programs in the fields of Environment, Education and MSE Development with an average value **2.01** from the target of > 1.5. This shows that every rupiah invested in the TJSL Program provides a return in the form of a social beneficial impact of more than 1 Rupiah.

Independent Auditor's Report

Report No. 00268/2.1032/AU.1/06/0687-2/1/III/2024

The Shareholders and the Boards of Commissioners and Directors
Perusahaan Perseroan (Persero) PT Telekomunikasi Indonesia Tbk

Opinion

We have audited the accompanying consolidated financial statements of Perusahaan Perseroan (Persero) PT Telekomunikasi Indonesia Tbk. (the "Company") and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated statement of financial position as of December 31, 2023, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position as of December 31, 2023, and its consolidated financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants ("IICPA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report. We are independent of the Group in accordance with the ethical requirements relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with such requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. Such key audit matters were addressed in the context of our audit of the consolidated financial statements taken as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on such key audit matters. For the key audit matter below, our description of how our audit addressed such key audit matter is provided in such context.

Independent Auditor's Report (continued)

Report No. 00268/2.1032/AU.1/06/0687-2/1/III/2024 (continued)

Key audit matters (continued)

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report, including in relation to the key audit matter communicated below. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the accompanying consolidated financial statements. The results of our audit procedures, including the procedures performed to address the key audit matter below, provide the basis for our opinion on the accompanying consolidated financial statements.

Evaluation of telecommunication infrastructure estimated useful lives

Description of the key audit matter:

As of December 31, 2023, the balance of consolidated telecommunication infrastructures amounted to Rp158,516 billion which represents 55% of total consolidated assets. As discussed in Notes 2y and 11 to the accompanying consolidated financial statements, the Group reviews the estimated useful lives of its property and equipment, including telecommunication infrastructures, at least annually and such estimates are updated if expectations differ from previous estimates due to changes in expectation of physical wear and tear, technical, or commercial obsolescence, and legal or other limitations on the continuing use of the property and equipment.

Auditing the Group's estimated useful lives of telecommunication infrastructures is complex and requires significant judgment because the determination of the estimated useful lives considers a number of factors, including strategic business plans, expected future technological developments, and market behavior.

Audit response:

We obtained an understanding, and evaluated the design and tested the operating effectiveness, of internal controls over the Group's process of estimating the useful lives of its telecommunication infrastructures. This includes, among others, testing of management's review control on checking the completeness and accuracy of the assets classification data and assessing the appropriateness of the judgments regarding the most relevant data to be considered in determining its useful lives. We also tested management's control on benchmarking analysis, including the selection criteria, on the estimated useful lives of telecommunication infrastructures.

To test whether the estimated useful lives of telecommunication infrastructures used by management was reasonable, our audit procedures included, among others, obtaining an understanding of management's strategy related to asset replacements and assessed the reasonableness of assumptions by considering external sources, such as telecommunication technology growth, changes in market demand, and current economic and regulatory trends. We assessed whether the benchmarking analysis on the estimated useful lives of telecommunication infrastructures used by management was complete and consistent with the selection criteria through comparison with sample portfolio of public companies within the telecommunication industry.

Other information

Management is responsible for the other information. Other information comprises the information included in the 2023 Annual Report ("The Annual Report") other than the accompanying consolidated financial statements and our independent auditor's report thereon. The Annual Report is expected to be made available to us after the date of this independent auditor's report.

Our opinion on the accompanying consolidated financial statements does not cover the Annual Report, and accordingly, we do not express any form of assurance on the Annual Report.

In connection with our audit of the accompanying consolidated financial statements, our responsibility is to read the Annual Report when it becomes available and, in doing so, consider whether the Annual Report is materially inconsistent with the accompanying consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions based on the applicable laws and regulations.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting, unless management either intends to liquidate the Group or to cease its operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements taken as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing established by the IICPA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report (continued)

Report No. 00268/2.1032/AU.1/06/0687-2/1/III/2024 (continued)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

As part of an audit in accordance with Standards on Auditing established by the IICPA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to such risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our independent auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusion is based on the audit evidence obtained up to the date of our independent auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Independent Auditor's Report (continued)

Report No. 00268/2.1032/AU.1/06/0687-2/1/III/2024 (continued)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe such key audit matters in our independent auditor's report unless laws or regulations preclude public disclosure about such key audit matters or when, in extremely rare circumstances, we determine that a key audit matter should not be communicated in our independent auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

b. Company's Board of Commissioners, Board of Directors, Audit Committee, Corporate Secretary, Internal Audit, and Employees (continued)

iii. Employees

As of December 31, 2023 and 2022, the Company and its subsidiaries (collectively referred to as "the Group") had 20,605 employees and 20,951 employees (unaudited), respectively.

c. Public offering of securities of the Company

The Company's number of shares prior to its Initial Public Offering ("IPO") totalled 8,400,000,000, consisting of 8,399,999,999 Series B shares and 1 Series A Dwiwarna share, and were wholly-owned by the Government. On November 14, 1995, 933,333,000 new Series B shares and 233,334,000 Series B shares owned by the Government were offered to the public through an IPO and listed on the Indonesia Stock Exchange ("IDX") and 700,000,000 Series B shares owned by the Government were offered to the public and listed on the New York Stock Exchange ("NYSE") and the London Stock Exchange ("LSE") in the form of American Depositary Shares ("ADS"). There were 35,000,000 ADS and each ADS represented 20 Series B shares at that time.

In December 1996, the Government had a block sale of its 388,000,000 Series B shares, and in 1997, distributed 2,670,300 Series B shares as incentive to the Company's stockholders who did not sell their shares within one year from the date of the IPO. In May 1999, the Government further sold 898,000,000 Series B shares.

To comply with Law No. 1/1995 on Limited Liability Companies, at the AGM of Stockholders of the Company on April 16, 1999, the Company's stockholders resolved to increase the Company's issued share capital by the distribution of 746,666,640 bonus shares through the capitalization of certain additional paid-in capital, which was made to the Company's stockholders in August 1999. On August 16, 2007, Law No. 1/1995 on Limited Liability Companies was amended by the issuance of Law No. 40/2007 on Limited Liability Companies which became effective on the same date. Law No. 40/2007 has no effect on the public offering of shares of the Company. The Company has complied with Law No. 40/2007.

In December 2001, the Government had another block sale of 1,200,000,000 shares or 11.9% of the total outstanding Series B shares. In July 2002, the Government further sold a block of 312,000,000 shares or 3.1% of the total outstanding Series B shares.

At the AGM of Stockholders of the Company held on July 30, 2004, the minutes of which were covered by Notarial Deed No. 26 of A. Partomuan Pohan, S.H., LL.M., the Company's stockholders approved the Company's 2-for-1 stock split for Series A Dwiwarna and Series B share. The Series A Dwiwarna share with par value of Rp500 per share was split into 1 Series A Dwiwarna share with par value of Rp250 per share and 1 Series B share with par value of Rp250 per share. The stock split resulted in an increase of the Company's authorized capital stock from 1 Series A Dwiwarna share and 39,999,999,999 Series B shares to 1 Series A Dwiwarna share and 79,999,999,999 Series B shares, and the issued capital stock from 1 Series A Dwiwarna share and 10,079,999,639 Series B shares to 1 Series A Dwiwarna share and 20,159,999,279 Series B shares. After the stock split, each ADS represented 40 Series B shares.

During the Extraordinary General Meeting ("EGM") held on December 21, 2005 and the AGMs held on June 29, 2007, June 20, 2008, and May 19, 2011, the Company's stockholders approved phase I, II, III, and IV plan, respectively, of the Company's program to repurchase its issued Series B shares.

1. GENERAL (continued)

c. Public offering of securities of the Company (continued)

During the period of December 21, 2005 to June 20, 2007, the Company had bought back 211,290,500 shares from the public (stock repurchase program phase I). On July 30, 2013, the Company had sold all such shares.

At the AGM held on April 19, 2013 as covered by Notarial Deed No. 38 dated April 19, 2013 of Ashoya Ratam, S.H., M.Kn., the stockholders approved the changes to the Company's plan on the treasury stock acquired under phase III. At the AGM held on April 19, 2013, the minutes of which were covered by Notarial Deed No. 38 of Ashoya Ratam, S.H., M.Kn., the stockholders approved the Company's 5-for-1 stock split for Series A Dwiwarna and Series B shares. Series A Dwiwarna share with par value of Rp250 per share was split into 1 Series A Dwiwarna share with par value of Rp50 per share and 4 Series B shares with par value of Rp50 per share. The stock split resulted in an increase of the Company's authorized capital stock from 1 Series A Dwiwarna and 79,999,999,999 Series B shares to 1 Series A Dwiwarna and 399,999,999,999 Series B shares. The issued capital stock increased from 1 Series A Dwiwarna and 20,159,999,279 Series B shares to 1 Series A Dwiwarna and 100,799,996,399 Series B shares. After the stock split, each ADS represented 200 Series B shares. Effective from October 26, 2016, the Company change the ratio of Depositary Receipt from 1 ADS representing 200 series B shares to become 1 ADS representing 100 series B shares. Profit per ADS information have been retrospectively adjusted to reflect the changes in the ratio of ADS.

On May 16 and June 5, 2014, the Company deregistered from Tokyo Stock Exchange ("TSE") and delisted from the LSE, respectively.

On December 21, 2015, the Company sold the remaining shares of treasury shares phase III.

On June 29, 2016, the Company sold the treasury shares phase IV.

At the AGM held on April 27, 2018, as covered by Notarial Deed No. 35 dated May 15, 2018, of Ashoya Ratam, S.H., M.Kn., the stockholders approved the changes of the Company's plan on the transfer of shares from the repurchase through the withdrawal of 1,737,779,800 shares of treasury stock, by reducing the issued and paid-up capital from the initial amount of Rp5,040 billion into amount of Rp4,953 billion. Thus, in order to comply with the provisions of Article 33 UU No. 40 of 2007 concerning Limited Liability Companies, the AGM approved the reduction of the Company's authorized capital from the original Rp20,000 billion to Rp19,500 billion, so the Company's total authorized share capital became 1 Series A Dwiwarna and 389,999,999 Series B shares.

As of December 31, 2023, all of the Company's Series B shares are listed on the IDX and 39,734,520 ADS or equivalent to 3,973,451,980 Series B shares are listed on the NYSE (Note 21).

On June 16, 2015, the Company issued Continuous Bonds I Telkom Phase I 2015, with a nominal amount of Rp2,200 billion for Series A with a seven-year period, Rp2,100 billion for Series B with a ten-year period, Rp1,200 billion for Series C with a fifteen-year period, and Rp1,500 billion for Series D with a thirty-year period, which respectively are listed on the IDX (Note 19b).

b. Principles of consolidation

The consolidated financial statements consist of the financial statements of the Company and the subsidiaries over which it has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has the power over the investee, exposure or rights, to variable returns from its involvement with the investee, and the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- i. The contractual arrangement with the other vote holders of the investee,
- ii. Rights arising from other contractual arrangements, and
- iii. The Group's voting rights and potential voting rights.

The Group re-assesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control over the subsidiary. Assets, liabilities, income, and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statements of profit or loss and other comprehensive income from the date the Group gains financial control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

All intra-Group assets and liabilities, equity, revenue and expenses and cash flow relating to transactions within Group are fully eliminated on consolidation.

In case of loss of control over a subsidiary, the Group:

- i. derecognizes the assets (including goodwill) and liabilities of the subsidiary at the carrying amounts on the date when it loses control;
- ii. derecognizes the carrying amounts of any non-controlling interests of its former subsidiary on the date when it loses control;
- iii. recognizes the fair value of the consideration received (if any) from the transaction, events, or condition that caused the loss of control;
- iv. recognizes the fair value of any investment retained in the subsidiary at fair value on the date of loss of control; and
- v. recognizes any surplus or deficit in profit or loss that is attributable to the Group.

c. Transactions with related parties

The Group has transactions with related parties. The definition of related parties used is in accordance with the Bapepam-LK's Regulation No. VIII.G.7 regarding the Presentations and Disclosures of Financial Statements of Issuers or Public Companies, enclosed in the decision letter No. KEP-347/BL/2012. The party which is considered as a related party is a person or entity that is related to the entity that is preparing its financial statements.

Under the Regulation of Bapepam-LK No. VIII.G.7, a government-related entity is an entity that is controlled, jointly controlled or significantly influenced by the government. Government in this context is the Minister of Finance or the Local Government, as the shareholder of the entity.

Key management personnel are identified as the persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of the Group. The related party status extends to the key management of the subsidiaries to the extent they direct the operations of subsidiaries with minimal involvement from the Company's management.

d. Business combinations and goodwill

Business combination is accounted for using the acquisition method. The consideration transferred is measured at fair value, which is the aggregate of the fair value of the assets transferred, liabilities incurred or assumed, and the equity instruments issued in exchange for control of the acquiree. For each business combination, non-controlling interest is measured at fair value or at the proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Acquisition-related costs are expensed as incurred. The acquiree's identifiable assets and liabilities are recognized at their fair values at the acquisition date.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed, and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in profit or loss.

When the determination of consideration from a business combination includes contingent consideration, it is measured at its fair value on acquisition date. Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognized in profit or loss when adjustments are recorded outside the measurement period. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments made against goodwill. Measurement-period adjustments are adjustments that arise from additional information obtained during the measurement period, which cannot exceed one year from the acquisition date, about facts and circumstances that existed at the acquisition date.

d. Business combinations and goodwill (continued)

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group shall report in its consolidated financial statements provisional amounts for the items for which the accounting is incomplete. During the measurement period, the Group shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and, if known, would have affected the measurement of the amounts recognized as of that date. The measurement period ends immediately after the Company receives the information about the facts and circumstances that existed at the acquisition date or learns that additional information cannot be obtained. However, the measurement period must not exceed one year from the date of acquisition.

In a business combination achieved in stages, the acquirer remeasures its previously held equity interest in the acquiree at its acquisition-date fair value and recognizes the resulting gain or loss, if any, in profit or loss.

Based on PSAK 38 (Revised 2012), "Common Control Business Combination", the transfer of assets, liabilities, shares or other ownership instruments among the companies under common control would not result in a gain or loss for the Company or individual entity in the same group. Since the restructuring transaction between entities under common control does not result in a change of the economic substance of the ownership of assets, liabilities, shares, or other instruments of ownership, which are exchanged, assets or liabilities transferred are recorded at book value using the pooling-of-interests method.

In applying the pooling-of-interests method, the components of the financial statements for the period during the restructuring occurred must be presented in such a manner as if the restructuring has occurred since the beginning of the earliest period presented. The excess of consideration paid or received over the carrying value of interest acquired, net of income tax, is directly recognized to equity and presented as "Additional Paid-in Capital" under the equity section of the consolidated statement of financial position.

At the initial application of PSAK 38 (Revised 2012), all balances of the Difference In Value of Restructuring Transactions of Entities under Common Control was reclassified to "Additional Paid-in Capital" in the consolidated statement of financial position.

e. Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash in banks and on hand and short-term highly liquid deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

Time deposits with maturities of more than three months but not more than one year are presented as part of "Other current financial assets" in the consolidated statements of financial position (Note 2q).

f. Inventories

Inventories consist of components, which represent telephone terminals, cables, and other spare parts. Inventories also include Subscriber Identification Module ("SIM") cards, handsets, wireless broadband modems, and prepaid vouchers which are expensed upon sale.

Inventories are valued at the lower of cost and net realizable value. Net realizable value is determined by either estimating the selling price in the ordinary course of business, less estimated cost to sell or determining the prevailing replacement costs.

The costs of inventories consist of the purchase price, import duties, other taxes, transport, handling, and other costs directly attributable to their acquisition.

Cost is determined using the weighted average method.

The amounts of any write-down of inventories below cost to net realizable value and all losses of inventories are recognized as an expense in the period in which the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realizable value, is recognized as a reduction in the amount of general and administrative expenses in the year in which the reversal occurs.

Provision for obsolescence is primarily based on the estimated forecast of future usage of these inventory items.

g. Prepaid expenses

Prepaid expenses are amortized over their future beneficial periods using the straight-line method. Prepaid expenses are presented in the consolidated statement of financial position as part of Other current assets and Other non-current assets.

h. Intangible assets

Intangible assets are recognized if it is highly probable that the expected future economic benefits that are attributable to each asset will flow to the Group, and the cost of the asset can be reliably measured.

Intangible assets are stated at cost less accumulated amortization and impairment losses (if any). Intangible assets are amortized over their estimated useful lives. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. The Group estimates the recoverable value of its intangible assets. When the carrying amount of an intangible asset exceeds its estimated recoverable amount, the asset is written down to its estimated recoverable amount.

Intangible assets except goodwill, are amortized using the straight-line method, based on the estimated useful lives of the intangible assets as follows:

	<u>Years</u>
Software	3-6
License	3-20
Other intangible assets	3-30

Intangible assets are derecognized on disposal, or when no further economic benefits are expected, either from further use or from disposal. The difference between the carrying amount and the net proceeds received from disposal is recognized in the consolidated statements of profit or loss and other comprehensive income.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

i. Property and equipment

Property and equipment are stated at cost less accumulated depreciation, and impairment losses, (if any).

The cost of an item of property and equipment includes: (a) purchase price; (b) any costs directly attributable to bringing the asset to its location and condition; and (c) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located. Each part of an item of property and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

Property and equipment, except land rights, are depreciated using the straight-line method based on the estimated useful lives of the assets as follows:

	<u>Years</u>
Buildings	15-50
Leasehold improvements	2-10
Switching equipment	3-15
Telegraph, telex, and data communication equipment	5-15
Transmission installation and equipment	3-40
Satellite, earth station, and equipment	3-20
Cable network	5-25
Power supply	3-20
Data processing equipment	3-20
Vehicles	4-8
Other telecommunication peripherals	5
Office equipment	2-5
Other equipment	2-5

Significant expenditures related to leasehold improvements are capitalized and depreciated over the lease term.

The depreciation method, useful life, and residual value of an asset are reviewed at least at each financial year-end and adjusted, if appropriate. The residual value of an asset is the estimated amount that the Group would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset is already of the age and in the condition expected at the end of its useful life.

Property and equipment acquired in exchange for a non-monetary asset or for a combination of monetary and non-monetary assets are measured at fair value unless, (i) the exchange transaction lacks commercial substance; or (ii) the fair value of neither the asset received, nor the asset given up is measured reliably.

Major spare parts and standby equipment that are expected to be used for more than 12 months are recorded as part of property and equipment.

When assets are retired or otherwise disposed of, their cost and the related accumulated depreciation are derecognized from the consolidated statement of financial position and the resulting gains or losses on the disposal or sale of the property and equipment are recognized in the consolidated statements of profit or loss and other comprehensive income.

Certain computer hardware can not be used without the availability of certain computer software. In such circumstance, the computer software is recorded as part of the computer hardware. If the computer software is independent from its computer hardware, it is recorded as part of intangible assets.

i. Property and equipment (continued)

The cost of maintenance and repairs are charged to the consolidated statements of profit or loss and other comprehensive income as incurred. Significant renewals and betterments are capitalized to the related property and equipment account.

Property under construction is stated at cost less impairment (if any), until the construction is completed, at which time it is reclassified to the property and equipment account to which it relates. During the construction period until the property is ready for its intended use or sale, borrowing costs, which include interest expense and foreign currency exchange differences incurred on loans obtained to finance the construction of the asset, as long as it meets the definition of a qualifying asset are, capitalized in proportion to the average amount of accumulated expenditures during the period. Capitalization of borrowing cost ceases when the construction is completed, and the asset is ready for its intended use or sale.

j. Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The lease term corresponds to the non-cancellable period of each contract, except in cases where the Group is reasonably certain of exercising renewal options contractually foreseen.

The Group has made use of the package of practical expedients available under PSAK 73, which among other things:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- the accounting for operating leases with a remaining lease term of less than 12 months as short-term leases;
- the exclusion of initial direct costs for the measurement of the right-of-use assets ("ROU") as short-term leases;
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease;
- not to separate non-lease components from lease components, and instead, account for both as a single lease component; and
- not to recognize a lease liability and a ROU asset for leases where the underlying assets are low-value assets (i.e. underlying assets with a maximum value of US\$5,000 or Rp50 million when it is new).

The Group applies the definition of a lease and related guidance set out in PSAK 73 to all lease contracts.

i. The Group as lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and ROU assets representing the right to use the underlying assets.

The Group recognizes ROU assets at the commencement date of the lease. ROU assets are measured at cost, less any accumulated amortization and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of ROU assets includes the amount of lease liabilities recognized, initial direct costs incurred, restoration costs and lease payments made at or before the commencement date less any lease incentives received.

i. The Group as lessee (continued)

ROU assets are amortized on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

	<u>Years</u>
Land rights	1-33
Buildings	1-30
Transmission installation and equipment	1-25
Vehicles	1-6
Others	1-6

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The ROU assets are subject to impairment in accordance with PSAK 48: Impairment of Assets.

Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments, or a change in the assessment of an option to purchase the underlying asset.

Short-term leases with a duration of less than 12 months and low-value assets leases, as well as those lease elements, partially or totally not complying with the principles of recognition defined by PSAK 73 will be treated similarly to operating leases. The Group will recognize those lease payments on a straight-line basis over the lease term in the consolidated statements of profit or loss and other comprehensive income.

j. Leases (continued)

ii. The Group as lessor

Under PSAK 73, a lessor continues to classify leases as either finance leases or operating leases and account for those two types of leases differently. Leases in which the Group transfers substantially all the risks and rewards incidental to ownership of an asset are classified as finance leases, otherwise it will be classified as operating leases. Lease classification is made at the inception date and is reassessed only if there is a lease modification.

At the commencement date, the Group recognizes assets held under a finance lease at an amount equal to the net investment in the lease and present it as finance lease receivable. The net investment in the lease includes fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and residual value guarantees provided to the lessor by the lessee. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the lessee and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate.

As required by PSAK 71, an allowance for expected credit loss has been recognized on the finance lease receivables and presented under "Other receivables".

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in revenue in the consolidated statement of profit or loss and other comprehensive income due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the underlying assets and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

If an arrangement contains lease and non-lease components, the Group applies PSAK 72 Revenue from Contracts with Customers to allocate the consideration in the contract. Revenue arising from operating lease is recorded as Revenue from lessor transactions (Note 2n).

k. Deferred charges - land rights

Costs incurred to process the initial legal land rights are recognized as part of the property and equipment and are not amortized. Costs incurred to process the extension or renewal of legal land rights are deferred and amortized using the straight-line method over the shorter of the legal term of the land rights or the economic life of the land.

I. Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the consolidated statements of profit or loss and other comprehensive income over the period of the borrowings using the effective interest method.

Fees paid on obtaining loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facilities will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facilities will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facilities to which it relates.

m. Foreign currency translations

Transactions in foreign currencies are translated into Indonesian Rupiah at the Reuters' mid rates of exchange prevailing at transaction date. At the consolidated statements of financial position dates, monetary assets and liabilities denominated in foreign currencies are translated into Indonesian Rupiah based on the buy and sell rates quoted by Reuters prevailing at the consolidated statements of financial position dates, as follows (in full amount):

	2023		2022	
	Buy	Sell	Buy	Sell
United States Dollar ("US\$") 1	15,396	15,401	15,567	15,571
Australian Dollar ("AU\$") 1	10,499	10,505	10,583	10,589

The result of foreign exchange gains or losses, realized and unrealized, are credited or charged to the consolidated statements of profit or loss and other comprehensive income of the current year, except for foreign exchange differences incurred on borrowings during the construction of qualifying assets which are capitalized to the extent that the borrowings can be attributed to the construction of those qualifying assets (Note 2i).

n. Revenue and expense recognition

Revenue from contract with customers

PSAK 72 establishes a comprehensive framework to determine how, when, and how much revenue is to be recognized. The standard provides a single principles-based five-step model for the determination and recognition of revenue to be applied to all contracts with customers. The standard also provides specific guidance requiring certain types of costs to obtain and/or fulfil a contract to be capitalized and amortized on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the capitalized cost relates.

Below is the summary of the Group's revenue recognition accounting policy for each revenue stream:

i. Mobile

Revenue from mobile primarily comprises of revenue from cellular service which among others: telephone service, interconnection service, internet and data service and Short Messaging Services ("SMS") service. Those services are offered on postpaid or prepaid basis.

For prepaid services, initial package sales (also known as SIM cards and initial charging vouchers) and top-up vouchers are initially recognized as contract liabilities. The Group recognizes contract assets for the services from postpaid customers that have not been billed.

All mobile services revenues are recognized based on output method, either per actual usage or allowance unit used (if services sold in plan basis), because the customer simultaneously receives and consumes the benefits provided by the Group.

For services sold in bundled plan, total consideration is allocated to performance obligations based on stand-alone selling price for each of product and/or service. The Group estimates the stand-alone selling price using the price enacted if the services are sold on a stand-alone basis. Most bundled plans sold by the Group only include services which are generally satisfied over the same period of time. Therefore, the revenue recognition pattern is generally not impacted by the allocation.

The consideration that is received is allocated between the telecommunication services sold and the points issued, with the consideration allocated to points that are equal to its fair value. The fair value of points issued is deferred and recognized as revenue when the points are redeemed, expired, or when the program is terminated.

ii. Consumer

Revenue from consumer primarily comprises of revenue from fixed telephone and IndiHome services. Revenues from fixed telephone service are derived from customer who subscribes to fixed telephone service only, while revenues from IndiHome service are derived from customer who subscribes to internet services or to bundled package with combination of consumer service (i.e. telephone, internet and data, and paid TV). Those services are offered on a postpaid basis and billed in the following month. The Group applies terms and conditions that requires the customer to pay substantive early termination penalty if the customer's contract is ended at the customer's request and/or fault within the first 12 months after the service is activated. After the initial 12-month period, customer can decide to stop subscribing in accordance with the applicable terms and conditions without incurring any penalties. In accordance with PSAK 72, the contract period is 12 months, which is then followed by a monthly contract.

All consumer services are recognized using the output method based on the customer's actual usage or time elapsed basis as the customer simultaneously receives and consumes the benefits provided by the Group.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

n. Revenue and expense recognition (continued)

Revenue from contract with customers (continued)

ii. Consumer (continued)

Customers required to pay an upfront fee at the commencement of the contract. The upfront fee is considered to be a material right because the customer is not required to pay an upfront fee when the customer renews the service beyond the original contract period. The Group values the renewal option in the amount of the consideration received from the upfront fee for the installation service. The Group defers the amount of renewal option as contract liabilities and recognizes it as revenue on a straight-line basis over the expected customer life. The Group estimates the expected customer life based on the historical information and customer trends and updates the evaluation on an annual basis.

iii. Enterprise

Revenue from enterprise customers primarily comprises of revenue from providing telephone service, internet and data, information technologies, and other services (e.g. manage service, call center service, e-health, e-payment, and others). Some of the contracts with enterprise customers are bespoke in nature.

Revenues from enterprise customers are recognized overtime using output method based on actual usage or time elapsed if the provision of service does not depend on usage (i.e. minute of voice, kilobyte of data, etc.), except for sales of goods which are recognized at a point in time, because the customer simultaneously receives and consumes the benefits provided by the Group. Revenues for performance obligations that are satisfied at a point in time is recognized when control of goods is transferred to the customer, typically when the customer has physical possession of the goods.

Some of the arrangements in enterprise customers are offered as bundled arrangements. For bundled arrangements, the product and/or service in the contract is accounted for as a single performance obligation when it is separately identifiable from other promises in the contract and the customer can benefit from the product/service on its own. The total consideration is allocated to each distinct performance obligation that has been included in the contract, based on its stand-alone selling price. The stand-alone selling price is determined according to the observable prices at which individual product and/or service are sold separately, adjusted for market conditions and normal discounts as appropriate. Alternatively, when the observable prices are not available, the expected cost-plus margin approach is used to determine the stand-alone selling prices.

Certain contracts with enterprise customers may give rise to variable consideration as the contract price depends on a future event (e.g. usage based contract or revenue-share based contract). In estimating the variable consideration, the Group is required to use either the expected value method or the most likely amount method based on the method that better predicts the amount of consideration to which it will be entitled. The Group determines that the most expected value method is the appropriate method to use in estimating the variable consideration for a single contract with a large number of possible outcomes.

Before including any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determines that the estimates of variable consideration are not constrained based on its historical experience, business forecast, and the current economic conditions and only includes variable consideration to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

n. Revenue and expense recognition (continued)

Revenue from contract with customers (continued)

iii. Enterprise (continued)

When another party is involved in providing products and/or services to a customer, the Group is the principal if it controls the specified products and/or services before those products and/or services are transferred to the customer. Revenues are recorded on the net amount that has been retained (the amount paid by the customer less the amount paid to the suppliers), when, in substance, the Group has acted as agent and earned commission from the suppliers of the products and/or services sold.

iv. Wholesale and International Business (“WIB”)

Revenue from WIB is mainly comprises of interconnections service for interconnection of other telecommunications carriers’ subscriber calls to the Group’s subscribers (incoming call) and calls between other telecommunications carriers subscribers through the Group’s network (transit) and network service with other telecommunications carriers. All of these services are recognized based on the output method using the basis of the actual recorded traffic for the month.

Contract assets

A contract asset is initially recognized for revenue earned from delivery of goods or services because the receipt of consideration is conditional on certain milestones or upon completion of the project. Upon completion of the milestones or the project, the amount recognized as contract assets is reclassified to trade receivables.

Contract assets are subject to impairment assessment.

Contract liabilities

A contract liability is recognized if a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognized as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Incremental cost of obtaining/fulfilling contract with customers

The incremental costs of obtaining/fulfilling contracts with customers, which principally are comprised of sales commissions and contract fulfilment costs, are initially recognized on the consolidated statements of financial position as contract costs. These costs are subsequently amortized on a systematic basis that is consistent with the period and pattern of transfer to the customer of the related products or services. Costs that do not qualify as costs of obtaining/fulfilling contract with customers are expensed as incurred or in accordance with other relevant standards.

At the end of each reporting year, the Group evaluates whether there is an indication that capitalized contract costs may be impaired. An impairment exists when the carrying amount of the contract costs exceeds the amount expected to be received in exchange for goods and services. When impairment exists, an impairment loss is recognized in profit or loss.

n. Revenue and expense recognition (continued)

Revenue from lessor transactions

Revenue from lessor transactions comprises of revenue from telecommunication tower operating leases and other rental. Rental income is recognized on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss due to its operating nature.

Expenses

Expenses are recognized as they are incurred.

o. Employee benefits

i. Short-term employee benefits

All short-term employee benefits which consist of salaries and related benefits, vacation pay, incentives and other short-term benefits are recognized as expense on undiscounted basis when employees have rendered service to the Group.

ii. Post-employment benefit plans and other long-term employee benefits

Post-employment benefit plans consist of funded and unfunded defined benefit pension plans, defined contribution pension plan, other post-employment benefits, post-employment health care benefit plan, defined contribution health care benefit plan and obligations under the Labor Law.

Other long-term employee benefits consist of Long Service Awards ("LSA"), Long Service Leave ("LSL"), and pre-retirement benefits.

The cost of providing benefits under post-employment benefit plans and other long-term employee benefits calculation is performed by an independent actuary using the projected unit credit method.

The net obligations in respect of the defined pension benefit plans and post-retirement health care benefit plans are calculated at the present value of estimated future benefits that the employees have earned in return for their service in the current and prior periods less the fair value of plan assets. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of Government bonds that are denominated in the currencies in which the benefits will be paid and that have terms to maturity approximating the terms of the related retirement benefit obligation. Government bonds are used as there are no deep markets for high quality corporate bonds.

Plan assets are assets owned by defined benefit pension plan and post-retirement health care benefits plan as well as qualifying insurance policy. The assets are measured at fair value as of reporting dates. The fair value of qualifying insurance policy is deemed to be the present value of the related obligations (subject to any reduction required if the amounts receivable under the insurance policies are not recoverable in full).

Remeasurement, comprising of actuarial gain and losses, the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability (asset)) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability (asset)) are recognized immediately in the consolidated statements of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized immediately in profit or loss on the earlier of:

- (a) the date of plan amendment or curtailment ; and
- (b) the date that the Group recognized restructuring-related costs.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

o. Employee benefits (continued)

ii. Post-employment benefit plans and other long-term employee benefits (continued)

Net interest is calculated by applying the discount rate to the net defined benefit liabilities or assets.

Gains or losses on curtailment are recognized when there is a commitment to make a material reduction in the number of employees covered by a plan or when there is an amendment of defined benefit plan terms such as that a material element of future services to be provided by current employees will no longer qualify for benefits, or will qualify only for reduced benefits.

Gains or losses on settlement are recognized when there is a transaction that eliminates all further legal or constructive obligation for part or all of the benefits provided under a defined benefit plan (other than the payment of benefit in accordance with the program and included in the actuarial assumptions).

For defined contribution plans, the regular contributions constitute net periodic costs for the period in which they are due and, as such, are included in "personnel expenses" as they become payable.

In April 2022, the Institute of Indonesia Chartered Accountants' Accounting Standard Board issued a press release regarding attribution of benefits to periods of service in accordance with PSAK 24: Imbalan Kerja which was adopted from IAS 19 Employee Benefits. The press release conveyed the information that the fact pattern of the pension program based on the Labor Law currently enacted in Indonesia is similar to those responded and concluded in the IFRS Interpretation Committee ("IFRIC") Agenda Decision Attributing Benefit to Periods of Service IAS 19. The Group has adopted the said press release and accordingly changed its accounting policy regarding attribution of benefits to periods of service previously applied.

In prior years, the Group attributed benefits under the defined benefit plan's benefit formula to periods of service from the date when employees provide their services until their retirement age. The Group changed the policy for attributing benefits under the plan to the date when employee service first leads to benefits under the plan until the date when further employee service will lead to no material amount of further benefits under the plan.

p. Taxes

Income tax

Current and deferred income taxes are recognized as income or an expense and included in the consolidated statements of profit or loss and other comprehensive income, except to the extent that the income tax arises from a transaction or event which is recognized directly in equity, in which case, the income tax is recognized directly in equity.

Current income tax assets and liabilities are measured at the amounts expected to be recovered or paid by using the tax rates and tax laws that have been enacted or substantively enacted at each reporting date. Management periodically evaluates positions taken in Annual Tax Returns ("*Surat Pemberitahuan Tahunan*" / "*SPT Tahunan*") with respect to situations in which applicable tax regulation is subject to interpretation. Where appropriate, management establishes provisions based on the amounts expected to be paid to the Tax Authorities.

Tax assessment

Amendment to taxation obligation is recorded when an assessment letter ("*Surat Ketetapan Pajak*" or "SKP") is received or, if appealed against, when the results of the appeal have been determined. The additional taxes and penalty imposed through an SKP are recognized as revenue or expense in the current year profit or loss, unless objection/appeal is taken. The additional taxes and penalty imposed through the SKP are deferred as long as they meet the asset recognition criteria.

Deferred tax

The Group recognizes deferred tax assets and liabilities for temporary differences between the financial and tax bases of assets and liabilities at each reporting date. The Group also recognizes deferred tax assets resulting from the recognition of future tax benefits, such as the benefit of tax losses carried forward to the extent their future realization is probable. Deferred tax assets and liabilities are measured using enacted or substantively enacted tax rates and tax laws at each reporting date which are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced if it is no longer probable that sufficient taxable profit will be available to compensate part or all of the benefits of deferred tax assets. Unrecognized deferred tax assets are re-assessed at each reporting date and recognized if it is probable that future taxable profits will be available for recovery. Tax deductions arising from the reversal of deferred tax assets are excluded from estimates of future taxable income.

Deferred tax transactions which are recognized outside profit or loss. Therefore, deferred taxes on these transactions are recognized either in other comprehensive income or recognized directly in equity.

Deferred tax assets and liabilities are offset in the consolidated statements of financial position, if and only if it has a legally enforceable right to set off current tax assets and liabilities and the deferred tax assets and liabilities relate to income taxes levied by the same Tax Authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

p. Taxes (continued)

Value Added Tax ("VAT")

Revenues, expenses and assets are recognized net of the VAT amount except:

- i. VAT arising from the purchase of assets or services that cannot be credited by the Tax Office, which VAT is recognized as part of the acquisition cost of the asset or as part of the applied expenses; and
- ii. Receivables and payables are presented including the amount of VAT.

Uncertainty over income tax

ISAK 34: Uncertainty Over Income Tax Treatments stated that the recognition and measurement of tax assets and liabilities that contain uncertainty over income tax are determined by considering whether to be treated separately or together, the assumptions used in the examination of tax treatments by the Tax Authorities, consideration the probability that the Tax Authorities will accept uncertain tax treatment and re-consideration or estimation if there is a change in facts and circumstances.

If the acceptance of the tax treatment by the Tax Authorities is probable, the measurement is in line with income tax fillings. If the acceptance of the tax treatment by the Tax Authorities is not probable, the Group measures its tax balances using the method that provides the better predict of resolution (i.e. most likely amount or expected value).

Final tax

Indonesian tax regulations impose final tax on several types of transactions based on the gross value of the transaction. Therefore, final tax which is charged based on such transaction remains subject to tax even though the tax payer incurred a loss on the transaction.

Final tax on construction services and lease are presented as part of "Other income - net".

q. Financial instruments

The Group classifies financial instruments into financial assets and financial liabilities. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortized cost, fair value through OCI ("FVTOCI"), and fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component of for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transactions costs. Trade receivables that do not contain a significant financing component or which the Group has applied the practical expedient are measured at the transaction price in determined under PSAK 72.

q. Financial instruments (continued)

i. Financial assets (continued)

In order for a financial asset to be classified and measured at amortized cost or FVTOCI, it needs to give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding. This assessment is referred to as the solely payments of principal and interest (“SPPI”) test and is performed at instrument level.

The Group’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to buy or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

(a) Financial assets at amortized cost (debt instruments)

The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (“EIR”) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired. The Group’s financial assets at amortized cost consist of cash and cash equivalents, other current financial assets, trade and other receivables, and other non-current assets.

(b) Financial assets at FVTOCI with recycling of cumulative gains and losses (debt instruments)

The Group measures debt instruments at FVTOCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For debt instruments at FVTOCI, interest income, foreign exchange revaluation, and impairment losses or reversals are recognized in the statement of profit or loss and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

The Group has no debt instruments classified at FVTOCI with recycling of cumulative gains and losses as of December 31, 2023 and 2022.

q. Financial instruments (continued)

i. Financial assets (continued)

Subsequent measurement (continued)

- (c) Financial assets designated at FVTOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVTOCI when they meet the definition of equity under PSAK 71 and are not held for trading. The classification is determined on an instrument-by-instrument basis. Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVTOCI are not subject to impairment assessment. The Group's financial assets at this category consists of long-term investment in financial instruments.

- (d) Financial assets at FVTPL

Financial assets at FVTPL include financial assets held for trading, financial assets designated upon initial recognition at FVTPL, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest ("SPPI") are classified and measured at FVTPL, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at FVTOCI, as described above, debt instruments may be designated at FVTPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognized in the statement of profit or loss. The Group's financial assets at FVTPL consists of other long-term investment in financial instruments and other current financial assets.

Expected credit losses ("ECL")

The Group recognizes an allowance for ECL for all debt instruments not held at FVTPL. ECL are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

q. Financial instruments (continued)

i. Financial assets (continued)

Expected credit losses (“ECL”) (continued)

ECL are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECL are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECL. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECL at each reporting date. The Group has established a provision model that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. Trade receivables are written-off when there is low possibility of recovering the contractual cash flow, after all collection efforts have been done and have been fully provided for allowance.

ii. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loan and borrowings and payables, net of directly attributable transaction costs.

The Group classifies its financial liabilities as: (i) financial liabilities at FVTPL or (ii) financial liabilities measured at amortized cost.

The Group’s financial liabilities include trade and other payables, accrued expenses, customer deposits, interest-bearing loans, and lease liabilities. Interest-bearing loans consist of short-term bank loans, two-step loans, bonds and medium-term note, long-term bank loans, and other borrowings.

q. Financial instruments (continued)

ii. Financial liabilities (continued)

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

(a) Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the statement of profit or loss.

Financial liabilities designated upon initial recognition at FVTPL are designated at the initial date of recognition, and only if the criteria in PSAK 71 are satisfied. The Group has not designated any financial liability as at FVTPL.

(b) Financial liabilities measured at amortized cost

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and other borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss. This category generally applies to interest-bearing loans and other borrowings. For more information, refer to Note 19.

iii. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated statements of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle them on a net basis, or realize the assets and settle the liabilities simultaneously. The right of offset must not be contingent on a future event and must be legally enforceable in all of the following circumstances:

- (a) the normal course of business;
- (b) the event of default; and
- (c) the event of insolvency or bankruptcy of the Group and all of the counterparties.

iv. Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when the Group transfers substantially all the risks and rewards of ownership of the financial asset.

The Group derecognizes a financial liability when the obligation specified in the contract is discharged or cancelled or has expired.

r. Treasury stock

Reacquired Company's shares of stock are accounted for at their reacquisition cost and classified as "Treasury Stock" and presented as a deduction in equity. The cost of treasury stock sold/transferred is accounted for using the weighted average method. The portion of treasury stock transferred for employee stock ownership program is accounted for at its fair value at grant date. Any difference between the carrying amount and consideration from future re-sale of treasury stocks, is recognized as part of additional paid-in capital in the equity.

s. Dividends

Dividend for distribution to the stockholders is recognized as a liability in the consolidated financial statements in the year in which the dividend is approved by the stockholders. The interim dividend is recognized as a liability based on the Board of Directors' decision supported by the approval from the Board of Commissioners.

t. Basic earnings per share and earnings per ADS

Basic earnings per share is computed by dividing profit for the year attributable to owners of the parent company by the weighted average number of shares outstanding during the year. Income per ADS is computed by multiplying the basic earnings per share by 100, the number of shares represented by each ADS.

The Company does not have potentially dilutive financial instruments.

u. Segment information

The Group's segment information is presented based upon identified operating segments. An operating segment is a component of an entity:

- i. that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- ii. whose operating results are regularly reviewed by the Group's Chief Operating Decision Maker ("CODM") i.e., the Directors, to make decisions about resources to be allocated to the segment and assess its performance; and
- iii. for which discrete financial information is available.

v. Provisions

Provisions are recognized when the Group has present obligations (legal or constructive) arising from past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and the amount can be measured reliably.

Provisions for onerous contracts are recognized when the contract becomes onerous for the lower of the cost of fulfilling the contract and any compensation or penalties arising from failure to fulfill the contract.

w. Impairment of non-financial assets

At the end of each reporting period, the Group assesses whether there is an indication that an non-financial assets may be impaired. These assets include property and equipment, current assets, and other non-current assets, including intangible assets. If such indication exists, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the Group determines the recoverable amount of the Cash-Generating Unit ("CGU") to which the asset belongs ("the asset's CGU").

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

w. Impairment of non-financial assets (continued)

The recoverable amount of an asset (either individual asset or CGU) is the higher of the asset's fair value less costs to sell and its value in use ("VIU"). Where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing the value in use, the estimated net future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs to sell, recent market transaction prices are taken into account, if available. If no such transactions can be identified, the Group uses an appropriate valuation model to determine the fair value of the asset. These calculations are corroborated by multiple valuations or other available fair value indicators.

Impairment losses of continuing operations are recognized in the consolidated statements of profit or loss and other comprehensive income.

At the end of each reporting period, the Group assesses whether there is any indication that previously recognized impairment losses for an asset, other than goodwill, may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss for an asset, other than goodwill, is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited such that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment been recognized for the asset in prior periods. Reversal of an impairment loss is recognized in the consolidated statement of profit or loss and other comprehensive income.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized. Impairment loss relating to goodwill can not be reversed in future periods.

x. Current and non-current classifications

The Group presents assets and liabilities in the statement of financial position based on current and non-current classification. An asset is presented as current when it is:

- i. expected to be realized or intended to be sold, or consumed in the normal operating cycle;
- ii. held primarily for the purpose of trading; or
- iii. expected to be realized within twelve months after the reporting period; or
- iv. cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Assets which do not meet above criteria are classified as non-current assets.

A liability is presented as current when:

- i. it is expected to be settled in the normal operating cycle;
- ii. it is held primarily for the purpose of trading;
- iii. it is due to be settled within twelve months after reporting period;
- iv. there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of liability that could, at the option of counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Liabilities which do not meet above criteria are classified as long-term liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

y. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates, and assumptions that affect the reporting amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and disclosures of contingent liabilities, at the end of the reporting period.

Uncertainty about these assumptions and estimates can produce results that require a material adjustment to the carrying amounts of assets and liabilities affected in the coming periods.

i. Judgements

The following judgements were made by management in applying the Group's accounting policies that have the most significant influence on the amounts recognized in the consolidated financial statements:

Income taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income could necessitate future adjustments to tax income and expense already recorded. Judgement is also involved in determining the provision for corporate income tax. There are certain transactions and computation for which the ultimate tax determination is uncertain during the ordinary course of business.

The Group recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the year in which such determination is made.

ii. Estimates and assumptions

Estimates and assumption are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Retirement benefits

The present value of the retirement benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) for pensions include the discount rate and return on investment ("ROI"). Any changes in these assumptions will impact the carrying amount of the retirement benefit obligations.

The Group determines the appropriate discount rate at the end of each reporting period. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the obligations. In determining the appropriate discount rate, the Group considers the interest rates of Government bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related retirement benefit obligations.

If there is an improvement in the ratings of such Government bonds or a decrease in interest rates as a result of improving economic conditions, there could be a material impact on the discount rate used in determining the post-employment benefit obligations.

Other key assumptions for retirement benefit obligations are based in part on current market conditions. Additional information is disclosed in Notes 30 and 31.

ii. Estimates and assumptions (continued)

(b) Useful lives of property and equipment

The Group estimates the useful lives of its property and equipment based on expected asset utilization, considering strategic business plans, expected future technological developments and market behavior. The estimates of useful lives of property and equipment are based on the Group's collective assessment of industry practice, internal technical evaluation, and experience with similar assets.

The Group reviews its estimates of useful lives at least each financial year-end and such estimates are updated if expectations differ from previous estimates due to changes in expectation of physical wear and tear, technical or commercial obsolescence, and legal or other limitations on the continuing use of the assets. The amounts of recorded expenses for any year will be affected by changes in these factors and circumstances. A change in the estimated useful lives of the property and equipment is a change in accounting estimates and is applied prospectively in profit or loss in the period of the change and future periods.

In 2021, the Company accelerated the useful lives of Multi-Service Access Node ("MSAN") assets until 2022. In 2022, the Group changed the estimated useful lives of towers in Indonesia (Note 11). In 2023, there is no change of estimated useful lives.

(c) Determining the lease term of contracts with renewal and termination options - Group as lessee

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

(d) Allowance for expected credit losses for financial assets

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established an allowance for expected credit losses methodology that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors, and the economic environment.

For term deposits and debt instruments at FVTOCI, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the deposits or debt instrument are considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the internal credit rating of the debt instrument. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

(d) Allowance for expected credit losses for financial assets (continued)

The Group assesses whether there is objective evidence that other receivables or other financial assets have been impaired at the end of each reporting period. Allowance for expected credit losses of receivables is calculated based on a review of the current status of existing receivables and historical collection experience. Such allowances are adjusted periodically to reflect the actual and anticipated experience. Details of the nature and carrying amounts of allowance for expected credit losses of receivables are disclosed in Note 5.

The Group has reassessed the model used to calculate ECLs based on the latest reasonable and supportable data to better reflect the current change in circumstances. Methods and approaches will continue to be monitored and updated if additional reasonable and supportable data and information are available, including forward-looking information and other input in the future.

(e) Revenue

(i) Critical judgements in determining the performance obligation, timing of revenue recognition and revenue classification

The Group provides information technology services that are bespoke in nature. Bespoke products consist of various goods and/or services bundled together in order to provide integrated solution services to customers. In addition to the bespoke service, the Group also provides multiple standard products as bundling product in contract with customer. Significant judgement is required in determining the number and nature of performance obligations promised to customers in those contracts. The number and nature of performance obligations will determine the timing of revenue recognition for such contract.

The Group reviews the determination of performance obligations on a contract-by-contract basis. When a contract consisting of several goods and/or service is assessed to have one performance obligation, the Group applies a single method of measuring progress for the performance obligation based on the measurement method that best depicts the economics of the contract, which in most cases is over time.

The Group also presents the revenue classification using consistent approach. When a contract consisting of several goods and/or service is assessed to have one performance obligation, the Group presents that performance obligations in one financial statement line items which best represent the main service of the Group, which in most cases is the internet, data and information technology services.

(ii) Critical judgements in determining the stand-alone selling price

The Group provides wide array of products related to telecommunication and technology. To determine the stand-alone selling price for goods and/or services that do not have any readily available observable price, the Group uses the expected cost-plus margin approach. The Group determines the appropriate margin based on historical achievement.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

y. Significant accounting judgements, estimates and assumptions (continued)

ii. Estimates and assumptions (continued)

(f) Test for impairment of non-current assets and goodwill

The application of the acquisition method in a business combination requires the use of accounting estimates in allocating the purchase price to the fair market value of the assets and liabilities acquired, including intangible assets. Certain business acquisitions by the Group resulted goodwill, which is not amortized but is tested for impairment annually and every indication of impairment exists.

The calculation of future cash flows in determining the fair value of property and equipment and other non-current assets of the acquired entity at the acquisition date involves significant estimation. Although management believes that the assumptions used are appropriate, significant changes to those assumptions can materially affect the evaluation of recoverable amounts and may result in impairment according to PSAK 48: Impairment of Assets.

(g) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow ("DCF") model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments

(h) Acquisition

The Group evaluates each acquisition transaction to determine whether it will be treated as an asset acquisition or business combination. For transactions that are treated as an asset acquisition, the purchase price is allocated to the assets obtained, without the recognition of goodwill. For acquisitions that meet the business combination definition, the Group applies the accounting for business acquisition method for assets acquired and liabilities assumed which are recorded at fair value at the acquisition date, and the results of operations are included with the Group's results from the date of each acquisition.

Any excess from the purchase price paid for the amount recognized for assets acquired and liabilities incurred is recorded as goodwill. The Group continues to evaluate acquisitions that are counted as a business combination for a period not exceeding one year after the applicable acquisition date of each transaction to determine whether additional adjustments are needed to allocate the purchase price paid for the assets acquired and liabilities assumed. The fair value of assets acquired and liabilities incurred are usually determined using either an estimated replacement cost or a discounted cash flow valuation method. When determining the fair value of tangible assets acquired, the Group estimates the cost of replacing assets with new assets by considering factors such as the age, condition, and economic useful lives of the assets. When determining the fair value of the intangible assets obtained, the Group estimates the applicable discount rate and the time and amount of future cash flows, including the rates and terms for the extension and reduction.

Total	18,173	7,506		16,202	7,568	

The Group has made allowance for expected credit losses based on the collective assessment of historical impairment rates and individual assessment of its customers' credit history, adjusted for forward-looking factors specific from the customers and the economic environment. The Group does not apply a distinction between related party and third party receivables in assessing amounts past due. As of December 31, 2023 and 2022, the carrying amounts of trade receivables of the Group considered past due but not impaired amounted to Rp4,033 billion and Rp2,069 billion, respectively. Management believes that receivables past due but not impaired, along with trade receivables that are neither past due nor impaired, are due from customers with good credit history and are expected to be recoverable.

c. By currency

Allowance for expected credit losses	513	567
Receivables written-off	(575)	(801)
Ending balance	<u>7,506</u>	<u>7,568</u>

The receivables written-off relate to both related party and third party trade receivables. Management believes that the allowance for expected credit losses of trade receivables is adequate to cover losses on uncollectible trade receivables.

As of December 31, 2023 and 2022, certain trade receivables of the subsidiaries amounting to Rp1,248 billion and Rp1,129 billion, respectively, have been pledged as collateral under lending agreements (Notes 18a and 19c).

Management believes the provision is adequate to cover losses from the decline in inventory value due to obsolescence.

The inventories recognized as expenses included in operations, maintenance and telecommunication service expenses in 2023 and 2022 amounted to Rp797 billion and Rp747 billion, respectively (Note 25).

There were no inventories pledged as collateral under lending agreements as of December 31, 2023 and 2022.

7. INVENTORIES (continued)

As of December 31, 2023 and 2022, modules (part of property and equipment) and components held by the Group with book value amounting to Rp96 billion and Rp94 billion, respectively, have been insured against fire, theft, and other specific risks. The total sum insured as of December 31, 2023 and 2022 amounted to Rp94 billion and Rp111 billion, respectively.

Management believes the insurance coverage is adequate to cover potential losses of inventories arising from the insured risks.

8. OTHER CURRENT ASSETS

The breakdown of other current assets are as follows:

Investments in equity at fair value through profit or loss are long-term investments in the form of shares in various start-up companies engaged in information and technology. The Group does not have significant influence in these start-up companies.

Investments in equity at fair value through profit or loss include:

- (i) Telkomsel's investment in PT GoTo Gojek Tokopedia Tbk. ("GOTO"). As of December 31, 2023, Telkomsel assessed the fair value of the investment in GOTO was Rp86 per share. The total unrealized loss from changes in fair value of Telkomsel's investment in GOTO as of December 31, 2023, amounted to Rp119 billion and was presented as unrealized loss arising from change of valuation of investments in the consolidated statements of profit or loss.
- (ii) Investments by MDI in several start-up entities engaged in the information and technology sector. The additional investments during the year by MDI amounted to Rp338 billion. The total unrealized loss from changes in fair value of MDI's investment amounted to Rp514 billion as of December 31, 2023 and was presented as unrealized loss arising from change of valuation of investments in the consolidated statements of profit or loss.

Investments in convertible bonds at fair value through profit or loss represent long-term investments owned by Telkomsel and MDI in the form of convertible bonds in various start-up companies engaged in information and technology, which will be immediately converted into shares when they mature.

The unrecognized share in losses in other investments cumulatively as of December 31, 2023 and 2022 was amounting to Rp328 billion and Rp346 billion, respectively

(ii) Telkomsel

Income tax and VAT fiscal year 2014

In May 2019, Telkomsel received tax underpayment assessment letters for the 2014 CIT, VAT and WHT in total amount of Rp151 billion (including penalty of Rp55 billion). Telkomsel partially accepted the portion of Rp16 billion and charged it as expense in 2019 consolidated statement of profit or loss. Telkomsel also paid a portion of Rp99 billion out of the remaining underpayment and recorded it as claim for tax refund. In August 2019, Telkomsel filed an objection to the Tax Authorities for full amount of Rp134 billion.

In July 2020, Telkomsel received an objection decision letter which accepted Telkomsel's objection of Rp27 billion and rejected the remaining Rp107 billion. Telkomsel received the tax refund of Rp27 billion in August 2020.

In September 2020, Telkomsel filed an appeal to the Tax Court for the 2014 CIT, WHT and VAT assessments amounting to Rp107 billion.

In April 2022, Telkomsel received the Tax Court's Verdict for the 2014 underpayment of WHT and VAT, which partially accepted Telkomsel's appeal amounting to Rp66 billion. Telkomsel received the refund in April, May and June 2022, and charged the rejected portion of Rp4 billion in the 2022 consolidated statement of profit or loss.

In August 2022, Telkomsel received notifications that the Tax Authorities had filed a judicial review to the Supreme Court ("SC") for the 2014 VAT amounting to Rp8 billion. Telkomsel had since submitted its contra memorandums for the Judicial Review in September 2022.

In February and March 2023, the SC fully rejected the judicial review claimed by the Tax Authorities on tax periods of 2014 VAT amounting to Rp8 billion. Thus, these cases have been legally enforced (*in-kracht*) and no additional tax payables for fiscal year 2014.

As at the authorization date of these consolidated financial statements, the result of appeal for CIT have not yet been received.

Income tax and VAT fiscal year 2015

In August 2019, Telkomsel received the tax underpayment assessment letters for the 2015 CIT, VAT and WHT in total amount of Rp385 billion (including penalty of Rp129 billion). Telkomsel accepted the portion of Rp35 billion, which was paid and charged as expense in the 2019 consolidated statement of profit or loss. Telkomsel also paid the remaining amount of underpayment and recorded it as claim for tax refund. In September 2019, Telkomsel filed an objection to the Tax Authorities for Rp350 billion.

(ii) Telkomsel (continued)

Income tax and VAT fiscal year 2015 (continued)

In July 2020, Telkomsel received an objection decision letter from Tax Authorities that rejected all Company's objection.

In September 2020, Telkomsel filed an appeal to the Tax Court for the 2015 CIT, WHT and VAT assessments amounting to Rp350 billion.

In April and May 2022, Telkomsel received the Tax Court's Verdict for the 2015 underpayment of WHT and VAT which partially accepted the Telkomsel's appeal amounting to Rp53 billion. Telkomsel received the refund in April and May 2022, and charged the rejected portion of Rp3 billion in the 2022 consolidated statement of profit or loss.

In August 2022, Telkomsel received notifications that the Tax Authorities had filed a judicial review to the SC for the 2015 VAT amounting to Rp24 billion. Telkomsel had since submitted its contra memorandums for the Judicial Review in August 2022.

During February to May 2023, Telkomsel received decision letters from SC, which fully rejected the Judicial Review claimed by the Tax Authorities for the tax periods of 2015 fiscal year VAT amounting to Rp24 billion. Telkomsel has received all final decisions, which are legally enforced (*in-kracht*) and thus, there are no additional tax payables for 2015 fiscal year VAT.

As at the authorization date of these consolidated financial statements, the results of appeal for CIT has not yet been received.

Income tax and VAT fiscal year 2018

In September 2022, Telkomsel received tax underpayment assessment letters for the 2018 CIT, VAT and WHT amounting to Rp160 billion (including penalty of Rp49 billion) in total. At the same time, Telkomsel also received tax assessment letters for 2018 VAT confirming tax overpayments in the amount of Rp40 billion.

On October 14, 2022, Telkomsel paid and accepted a portion of the CIT tax assessment of Rp0.16 billion, and charged it as expense in the 2022 consolidated statement of profit or loss. Telkomsel also paid the remaining amount of tax assessment for CIT and VAT amounting to Rp57 billion, after netting-off with overpayment of Rp40 billion. Telkomsel recorded it as claim for tax refund in the consolidated statement of financial position.

On December 13, 2022, Telkomsel filed an objection to the Tax Authorities amounting to Rp120 billion for CIT, VAT and WHT.

In October 2023, Telkomsel received objection decision letters from Tax Authorities, which partially accepted Telkomsel's objection for WHT and VAT as well as rejected the entire Telkomsel's objection for CIT.

Telkomsel has fully received tax refunds amounting to Rp22 billion for WHT and VAT in October 2023 and charged the rejected portion of WHT and VAT amounting to Rp0.2 billion in total as expense in 2023 consolidated statement of profit or loss. Telkomsel has submitted an appeal for entire portion of CIT in January 2024.

As of December 31, 2023 and 2022 the aggregate amounts of temporary differences associated with investments in subsidiaries and associated companies, for which deferred tax liabilities are not recognized were Rp79,794 billion and Rp23,915 billion, respectively.

Realization of the deferred tax assets is dependent upon the Group's capability in generating future profitable operations. Although realization is not assured, the Group believes that it is probable that these deferred tax assets will be realized through reduction of future taxable income when temporary differences reverse. The amount of deferred tax assets is considered realizable, however it can be reduced if actual future taxable income is lower than estimate.

g. Administration

In October 2021, the Government also issued Law No.7/2021 on the Harmonization of Tax Regulations, which, among other things, regulates the rates of income tax and VAT. Starting January 1, 2022, the Group applies the income tax rate on employee taxable income in accordance with paragraph (1) letter a of Article 17 Chapter III, and starting April 1, 2022 the VAT rate changes to 11%. The Company ensures the readiness of the surrounding billing system, administrative and legal aspects of transactions, and builds intensive coordination between units, concerned to prepare for the implementation of these rules.

In February 2022, the Government issued Government Regulation No. 9/2022 concerning the Second Amendment to Government Regulation No. 51/2008 concerning Income Tax on Income from Construction Services Business. The Company ensures administrative and legal aspects of transactions and builds solid coordination between related units to prepare for the application of the income tax rate rule for construction service businesses as stipulated in article 3 paragraph (1) of the regulation.

a. Pension benefit costs

i. The Company

(a) Funded pension plan

(i) Defined pension benefit obligation

The Company sponsors a defined benefit pension plan for employees with permanent status prior to July 1, 2002. The plan is governed by the pension laws in Indonesia and managed by Telkom Pension Fund ("Dana Pensiun Telkom" or "Dapen"). Pension Fund Management in accordance with the Pension Fund and Investment Directives Regulations determined by the Founder is carried out by the Board of Management. The Board of Management is monitored by the Oversight Board consisting of representatives of the Company and participants.

The pension benefits are paid based on the participating employees' latest basic salary at retirement and the number of years of their service. The participating employees contribute 18% (before March 2003: 8.4%) of their basic salaries to the pension fund. The Company made contributions to the pension fund amounted to Rp1,635 billion and Rp719 billion, for the years ended December 31, 2023 and 2022, respectively.

Risks exposed to defined benefit programs are risks such as asset volatility and changes in bond yields. The project liabilities are calculated using a discount rate that refers to the level of government bond yields, if the return on program assets is lower, it will result in a program deficit. A decrease in the yield of government bonds will increase the program liabilities, although this will be offset in part by an increase in the value of the program bonds held. The Company ensures that the investment position is set within the framework of asset-liability matching ("ALM") that has been formed to achieve long-term results that are in line with the liabilities in the defined benefit pension plan. Within the ALM framework, the Company's objective is to adjust its pension assets and liabilities by investing in a well diversified portfolio to produce an optimal rate of return, taking into account the level of risk. Investment in the program has been well diversified, so that one investment's poor performance will not have a material impact on all asset groups.

Additional pension benefit obligation has been set aside since 2018 according to the approval by the Oversight Board. As of December 31, 2023, there is no additional obligations set aside because the requirements for recognizing additional benefits as mentioned above have not been fulfilled.

(b) Unfunded pension plan

The Company sponsors unfunded defined benefit pension plans and a defined contribution pension plan for its employees. The defined contribution pension plan is provided to employees with permanent status hired on or after July 1, 2002. The plan is managed by Financial Institutions Pension Fund (*Dana Pensiun Lembaga Keuangan* or "DPLK"). The Company's contribution to DPLK is determined based on a certain percentage of the participants' salaries and amounted to Rp50 billion and Rp48 billion, for the years ended December 31, 2023 and 2022, respectively.

Since 2007, the Company has provided pension benefit based on uniformization for both participants prior to and from April 20, 1992 effective for employees retiring beginning February 1, 2009. In 2010, the Company replaced the uniformization with *Manfaat Pensiun Sekaligus* ("MPS"). MPS is given to those employees reaching retirement age, upon death or upon becoming disabled starting from February 1, 2009.

The Company also provides benefits to employees during a pre-retirement period in which they are inactive for 6 months prior to their normal retirement age of 56 years, known as pre-retirement benefits (*Masa Persiapan Pensiun* or "MPP"). During the pre-retirement period, the employees still receive benefits provided to active employees, which include, but are not limited to, regular salary, health care, annual leave, bonus, and other benefits. Since April 1, 2012, the employee is required to file a request for MPP and if the employee does not file the request, such employee is required to work until the retirement date.

The actuarial valuation for the unfunded defined benefit pension plan was performed, based on the measurement date as of December 31, 2023 and 2022, with reports dated March 1, 2024 and March 8, 2023, respectively, by KKA I Gde Eka Sarmaja, FSAI. The principal actuarial assumptions used by the independent actuary for December 31, 2023 and 2022 are as follows:

ii. Telkomsel

Telkomsel provides a defined benefit pension plan to its employees. Under this plan, employees are entitled to pension benefits determined based on their latest basic salary or take-home pay (exclusive of functional allowances) and number of service years. The plan is managed by PT Asuransi Jiwasraya (Persero) ("Jiwasraya"), a state-owned life insurance company, through an annuity insurance contract. Until 2004, employees contributed 5% of their monthly salaries to the plan, while Telkomsel contributed the remaining part required under the plan. Beginning in 2005, Telkomsel has been taking responsibility for the full amount of the contributions.

ii. Telkomsel (continued)

On April 23, 2021, Telkomsel and Jiwasraya agreed to terminate the insurance program contract (as mentioned above) and entered into restructuring agreement. The agreement replaced the benefit plan from annuities to lumpsum benefit. Based on this agreement, both parties agreed to determine the Cash Value ("CV") at the termination date which divided into CV for active participant and passive participant amounting to Rp857 billion and Rp73 billion, respectively. There was a 5% cut from CV for active participant, hence the 95% of Rp857 billion (or equal to Rp814 billion) plus Rp73 billion will be the amount that subsequently taken over by PT Asuransi Jiwa IFG ("IFG Life") when the agreement with IFG Life become effective and accordingly, the restructuring agreement will be terminated. As of November 30, 2023, the cash fund had been completely taken over by IFG Life with no changes was applied to the terms of the plan and cash value being transferred at the transfer date, and accordingly, the restructuring agreement was terminated.

On June 27, 2023, the Company and Telkomsel signed an agreement regarding Dapen to appoint Telkomsel as a Partner of the Company as the sole Founder, which resulted in rights and obligations to Telkomsel as governed in the Pension Fund Agreement effective from the business transfer of IndiHome consumer business segment to Telkomsel.

Effective from the business transfer of IndiHome consumer business segment to Telkomsel, Telkomsel sponsors a defined benefit pension plan for transferring employees hired prior to July 1, 2002. The plan is governed by the pension laws in Indonesia and managed by Dapen. Dapen is managed in accordance with the Pension Fund and Investment Directives Regulations, which is determined by the Company as the Founder and is carried out by the Board of Management. The Board of Management is monitored by the Oversight Board, appointed by the Founder.

The pension benefits are paid based on the participating employee's latest basic salary at retirement and the number of years of their service. The participating employees contribute 18% of their basic salaries to the pension fund. Telkomsel's contribution to the pension fund for the year ended December 31, 2023 was amounting to Rp20.50 billion.

The actuarial valuation for the defined benefit pension plan was performed based on the measurement date as of December 31, 2023 and 2022 with reports dated March 5, 2024 and February 28, 2023, respectively, by KKA Halim and Partner, an independent actuary in association with Milliman. The principal actuarial assumptions used by the independent actuary as of December 31, 2023 and 2022, are as follows:

	<u>2023</u>	<u>2022</u>

g. Sensitivity Analysis (continued)

The sensitivity analysis was determined based on a method that extrapolates the impact on DBO as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The sensitivity results above determine the individual impact on the Plan's DBO at the end of the year. In reality, the Plan is subject to multiple external experience items which may move the DBO in similar or opposite directions, and the Plan's sensitivity to such changes can vary over time.

There are no changes in the methods and assumptions used in preparing the sensitivity analysis from the previous period.

31. LONG SERVICE AWARDS ("LSA") PROVISIONS

Telkomsel and Telkomsat provide certain cash awards or certain number of days leave benefits to their employees based on the employees' length of service requirements, including LSA and Long Service Leaves ("LSL"). LSA are either paid at the time the employees reach certain years of employment, or at the time of termination. LSL are either certain number of days leave benefit or cash, subject to approval by management, provided to employees who meet the requisite number of years of service and reach a certain minimum age.

The obligation with respect to these awards which was determined based on an actuarial valuation using the Projected Unit Credit method amounted to Rp1,153 billion and Rp1,031 billion as of December 31, 2023 and 2022, respectively. The related benefit costs charged to expense amounted Rp289 billion and Rp92 billion for the years ended December 31, 2023 and 2022, respectively (Note 24).

d. Significant agreements with related parties

i. The Government

The Company obtained two-step loans from the Government (Note 19a).

ii. Indosat

The Company has an agreement with Indosat to provide international telecommunications services to the public.

The Company has also entered into an interconnection agreement between the Company's fixed line network (Public Switched Telephone Network or "PSTN") and Indosat's Global System for Mobile ("GSM") cellular telecommunications network in connection with the implementation of Indosat Multimedia Mobile services and the settlement of related interconnection rights and obligations.

The Company also has an agreement with Indosat for the interconnection of Indosat's GSM mobile cellular telecommunications network with the Company's PSTN, which enable each party's customers to make domestic calls between Indosat's GSM mobile network and the Company's fixed line network, as well as allowing Indosat's mobile customers to access the Company's IDD service by dialing "007".

ii. Indosat (continued)

The Company has been handling customer billings and collections for Indosat. Indosat is gradually taking over the activities and performing its own direct billing and collection. The Company has received compensation from Indosat computed at 1% of the collections made by the Company starting from January 1, 1995, as well as the billing process expenses which are fixed at a certain amount per record. On December 11, 2008, the Company and Indosat agreed to implement IDD service charge tariff which already took into account the compensation for billing and collection. The agreement is valid and effective in the current year and can be applied until a new agreement becomes available.

On December 18, 2017, the Company and Indosat signed amendments to the interconnection agreements for the fixed line networks (local, long distance direct connection and international) and mobile network for the implementation of the cost-based tariff obligations under the MoCI Regulation No.8/Year 2006. These amendments took effect starting on January 1, 2018.

Telkomsel also entered into an agreement with Indosat for the provision of international telecommunications services to its GSM mobile cellular customers.

The Company provides leased lines to Indosat and its subsidiaries, namely PT Indosat Mega Media and PT Aplikanusa Lintasarta ("Lintasarta"). The leased lines can be used by these companies for telephone, telegraph, data, telex, facsimile, or other telecommunication services.

iii. Others

The Company entered into an agreement with Lintasarta for the use of satellite transponders or the Company's subscribed circuit telecommunication satellite frequency channels.

e. Remuneration of key management and supervisory personnel

Key management personnel consists of the Directors of the Company and supervisory personnel consists of Board of Commissioners.

The Company provides remuneration in the form of salaries/honorarium and facilities to support the governance and oversight duties of the Board of Commissioners and the leadership and management duties of the Directors. The total of such remuneration is as follow:

33. OPERATING SEGMENTS

The Group has four primary reportable segments, namely mobile, consumer, enterprise, and WIB. The mobile segment provides mobile voice, SMS, value added services, and mobile broadband. The consumer segment provides IndiHome services (bundled service of fixed wireline, pay TV, and internet) and other telecommunication services to residential customers. The enterprise segment provides end-to-end solution to corporate and institutional customers. The WIB segment provides interconnection services, broadband access, information technology services, data, and internet services to other licensed telecommunication operator and international customers. Other segment provides digital content products (music and game), big data, Business to Business (“B2B”) Commerce, and financial services to individual and corporate customers. There are no operating segments that have been aggregated to form the reportable segments.

Management monitors the operating results of the business units separately for the purpose of decision-making about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. However, the financing activities and income taxes are managed on a group basis and are not separately monitored and allocated to operating segments.

Segment revenues dan expenses include transactions between operating segments and are accounted at prices that management believes represent market prices.

34. TELECOMMUNICATIONS SERVICE TARIFFS

Under Law No. 36 Year 1999 and Government Regulation No. 52 Year 2000, tariffs for operating telecommunications network and/or services are determined by providers based on the tariff type, structure, and with respect to the price cap formula set by the Government.

a. Fixed line telephone tariffs

The Government has issued a new adjustment tariff formula which is stipulated in MoCI Regulation No. 5/2021 dated March 31, 2021 concerning "Telecommunication Operation". This Decree replaced the previous Decree No. 15/PER/M.KOMINFO/4/2008 dated April 30, 2008.

Under the Decree, tariff structure for basic telephony services connected through fixed line network consists of the following:

- i. Activation fee
- ii. Monthly subscription charges
- iii. Usage charges, and
- iv. Additional facilities fee.

b. Mobile cellular telephone tariffs

On March 31, 2021, MoCI issued MoCI Regulation No. 5/2021, which provides guidelines to determine cellular tariffs with a formula consisting of network element cost and retail services activity cost.

Under MoCI Regulation No. 5/2021, cellular tariffs for the operation of telecommunication services connected through mobile cellular network consist of the following:

- (i) Basic telephony services tariff
- (ii) Roaming tariff, and/or
- (iii) Multimedia services tariff

with the following traffic structure:

- (i) Activation fee
- (ii) Monthly subscription charges, and/or
- (iii) Usage charges

c. Interconnection tariffs

The Indonesian Telecommunication Regulatory Body ("ITRB"), in its letter No. 262/BRTI/XII/2011 dated December 12, 2011, decided to change the basis for SMS interconnection tariff to cost basis with a maximum tariff of Rp23 per SMS effective from June 1, 2012, for all telecommunication provider operators.

Based on letter No.118/KOMINFO/DJPPI/PI.02.04/01/2014 dated January 30, 2014 of the Director General of Post and Informatics, the Director General of Post and Informatics decided to implement new interconnection tariff effective from February 1, 2014 until December 31, 2016, subject to evaluation on an annual basis. Pursuant to the Director General of Post and Informatics letter, the Company and Telkomsel are required to submit the Reference Interconnection Offer ("RIO") proposal to ITRB to be evaluated.

Subsequently, ITRB in its letters No. 60/BRTI/III/2014 dated March 10, 2014 and No. 125/BRTI/IV/2014 dated April 24, 2014 approved Telkomsel and the Company's revision of RIO regarding the interconnection tariff. Based on the letter, ITRB also approved the changes to the SMS interconnection tariff to Rp24 per SMS.

On January 18, 2017, ITRB in its letters No. 20/BRTI/DPII/2017 and No. 21/BRTI/DPII/2017, decided to use the interconnection tariff based on the Company and Telkomsel's RIO in 2014 until the new interconnection tariff is set.

34. TELECOMMUNICATIONS SERVICE TARIFFS (continued)

d. Network lease tariffs

In 2008, the Director General of Post and Telecommunication issued Decree No. 115 of 2008 which stated its agreement on Agreement on Network Lease Service Type Document, Network Lease Service Tariff, Available Capacity of Network Lease Service, Quality of Network Lease Service, and Provision Procedure of Network Lease Service Owned by Dominant Network Lease Service Provider in conformity with the Company's proposal. Through MoCI Regulation No. 5/2021, the Government regulated the form, type, tariff structure, and tariff formula for services of network lease.

e. Tariff for other services

The tariffs for satellite lease, telephony services, and other multimedia are determined by the service provider by taking into account the expenditures and market price. The Government only determines the tariff formula for basic telephony services. There is no stipulation for the tariff of other services.

35. SIGNIFICANT COMMITMENTS AND AGREEMENTS

c. Others

- (i) Radio frequency usage

With reference to Law No. 36 of 1999, the use of radio frequency spectrum and the cost of using radio frequency are determined by the government. With reference to the Decision Letter No. 025/TEL.01.02/2022 Year 2022 dated January 28, 2022 of the MoCI, the MoCI granted Telkomsel the rights to provide mobile telecommunication services with radio frequency bandwidth in the 800 MHz, 900 MHz, 1,800 MHz, 2.1 GHz and 2.3 GHz; and basic telecommunication services.

With reference to Decision Letters No.509 Year 2016, No. 1896 year 2017, No. 806 Year 2019, No.620 Year 2020, No. 178 Year 2021, No. 479 Year 2022, No. 90 Year 2023, and No. 188 Year 2023 of the MoCI, Telkomsel is required, among other things, to:

1. Issue a surety bond each year amounting Rp1.03 trillion for spectrum 2.3 GHz.
2. Issue a surety bond each year amounting Rp360 billion for both spectrum 2.3 GHz Block A and C.
3. Issue a surety bond amounting Rp617.15 billion for spectrum 2.1 GHz.
4. Pay an annual right of usage ("BHP") as set forth in the decision letters. The BHP is payable upon receipt of *Surat Pemberitahuan Pembayaran* (notification letter) from the DGPI. The BHP fee is payable annually up to the expiry period of the license.

The following are radio frequency band licenses owned by Telkomsel along with the BHP fees paid during current year:

1. Radio frequency for band 800 MHz, 900 MHz, and 1,800 MHz

Based on Decree No. 620 Year 2020 of the MoCI, concerning the extension of the determination of radio frequency bands 800 MHz, 900 MHz and 1,800 MHz, Telkomsel should pay annual frequency usage fees from 2020 to 2030.

(iii) Supplier of Google product cooperation agreement

On November 10, 2022, Sigma and PT Google Cloud Indonesia (“Google”) signed a cooperation agreement authorizing Sigma as a supplier of Google products. This Agreement requires Sigma to meet the minimum commitment to purchase Google products and is obligated to pay the difference between the realized value of the purchase of Google products and the minimum commitment. The minimum commitment values from November 2023 up to November 2024 and November 2024 up to November 2025 are US\$4,500 million and US\$9,000 million, respectively.

(iv) USO

On December 27, 2011, Telkomsel (on behalf of Konsorsium Telkomsel, a consortium which was established with Mitratel on December 9, 2011) was selected by *Balai Penyedia dan Pengelola Pembiayaan Telekomunikasi dan Informatika* (“BPPPTI”), now has been renamed as *Badan Aksesibilitas Telekomunikasi dan Informasi* (“BAKTI”) as a provider of the USO Program in the border areas with a total price of Rp261 billion.

In 2015, the Program was ceased. In January 2016, Telkomsel filed an arbitration claim to BANI for the settlement of the outstanding receivables of USO Programs.

On June 22, 2017, Telkomsel received a decision letter from BANI No. 792/1/ARB-BANI/2016 requesting BAKTI to pay compensation to Telkomsel amounting to Rp218 billion, and as of the date of the issuance of these consolidated financial statements Telkomsel has received the payment from BAKTI amounting to Rp91 billion (before tax) and no additional payment.

The MoCI issued Regulation No. 5 Year 2021 dated March 31, 2021 which replaced previous regulations regarding policies underlying the USO program. The regulation requires telecommunications operators in Indonesia to contribute 1.25% of gross revenues (with due consideration for bad debts and/or interconnection charges and/or connection charges and/or the exclusion of certain revenues that are not considered as part of gross revenues as a basis to calculate the USO charged) for USO development.

Based on Decree No. 827/KOMINFO/BAKTI.31/KS.1/10/2021 dated October 4, 2021 of BAKTI granted Telkomsel as operating cooperation partners (“KSO”) for eight packages KSO, which cover Nusa Tenggara, Kalimantan, Sulawesi, Maluku, West Papua, West Central Papua, North Central Papua and South East Papua for period from 2021 until 2031.

As of December 31, 2022, there was a transfer of the fair value hierarchy of financial assets from level 2 and level 3 to level 1 with the consideration that there was a quoted price in an active market condition for identical assets that could be accessed on the measurement date. Therefore, these financial assets can be categorized as level 1. These financial assets are long-term investments in shares in GOTO of Rp2,159 billion and in PT Global Sukses Solusi Tbk. of Rp13 billion.

Loss on fair value measurement recognized in consolidated statements of profit or loss and other comprehensive income for the years ended December 31, 2023 amounting to Rp687 billion.

Reconciliations of the beginning and ending balances for items measured at fair value using significant unobservable inputs (level 3) for the years ended December 31, 2023 and 2022 are as follows:

iii. Fair value measurement

Fair value is the amount for which an asset could be exchanged, or a liability settled, between parties in an arm's length transaction.

The fair values of short-term financial assets and financial liabilities with maturities of one year or less (cash and cash equivalents, trade and other receivables, other current financial assets, trade and other payables, accrued expenses, and short-term bank loans) and other non-current assets are considered to approximate their carrying amounts as the impact of discounting is not significant.

The fair values of long-term financial assets (other non-current assets (long-term trade receivables and restricted cash) approximate their carrying amounts as the impact of discounting is not significant.

37. FINANCIAL INSTRUMENTS (continued)

a. Fair value of financial assets and financial liabilities (continued)

iii. Fair value measurement (continued)

The Group determined the fair value measurement for disclosure purposes of each class of financial assets and financial liabilities based on the following methods and assumptions:

- (a) Fair value through profit or loss, primarily consist of stocks, mutual funds, corporate and government bonds, and convertible bonds. Stocks and mutual funds actively traded in an established market are stated at fair value using quoted market price or, if unquoted, determined using a valuation technique. The fair value of convertible bonds are determined using valuation technique. Corporate and government bonds are stated at fair value by reference to prices of similar at the reporting date.
- (b) The fair values of long-term financial liabilities are estimated by discounting the future contractual cash flows of each liability at rates offered to the Group for similar liabilities of comparable maturities by the bankers of the Group, except for bonds which are based on market price.

The fair value estimates are inherently judgemental and involve various limitations, including:

- (a) Fair values presented do not take into consideration the effect of future currency fluctuations.
- (b) Estimated fair values are not necessarily indicative of the amounts that the Group would record upon disposal/termination of the financial assets and liabilities.

b. Financial risk management objectives and policies

The Group's activities expose it to a variety of financial risks such as market risks (including foreign exchange risk, market price risk, and interest rate risk), credit risk, and liquidity risk. Overall, the Group's financial risk management program is intended to minimize losses on the financial assets and financial liabilities arising from fluctuation of foreign currency exchange rates and the fluctuation of interest rates. Management has a written policy on foreign currency risk management mainly on time deposit placements and hedging to cover foreign currency risk exposures for periods ranging from 3 up to 12 months.

Financial risk management is carried out by the Corporate Finance unit under policies approved by the Board of Directors. The Corporate Finance unit identifies, evaluates and hedges financial risks.

i. Foreign exchange risk

The Group is exposed to foreign exchange risk on sales, purchases and borrowings that are denominated in foreign currencies. The foreign currency denominated transactions are primarily in U.S. Dollars and Japanese Yen. The Group's exposures to other foreign exchange rates are not material.

i. Foreign exchange risk (continued)

Increasing risks of foreign currency exchange rates on the obligations of the Group are expected to be partly offset by the effects of the exchange rates on time deposits and receivables in foreign currencies that are equal to at least 25% of the outstanding current foreign currency liabilities.

The following table presents the Group's financial assets and financial liabilities exposure to foreign currency risk:

	2023		2022	
	U.S. Dollar (in billions)	Japanese Yen (in billions)	U.S. Dollar (in billions)	Japanese Yen (in billions)
Financial assets	0.83	0.01	0.78	0.01
Financial liabilities	(0.24)	(0.80)	(0.19)	(1.57)
Net exposure	0.59	(0.79)	0.59	(1.56)

Sensitivity analysis

A strengthening of the U.S. Dollar and Japanese Yen, as indicated below, against the Rupiah at December 31, 2023 would have decreased equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the reporting date. The analysis assumes that all other variables, in particular interest rates, remain constant.

	Equity/profit (loss)
December 31, 2023	
U.S. Dollar (1% strengthening)	91
Japanese Yen (5% strengthening)	(4)

A weakening of the U.S. Dollar and Japanese Yen against the Rupiah at December 31, 2023, would have had an equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

ii. Market price risk

The Group is exposed to changes in debt and equity market prices related to financial assets measured at FVTPL carried at fair value. Gains and losses arising from changes in the fair value of financial assets measured at FVTPL are recognized in the consolidated statements of profit or loss and other comprehensive income.

The performance of the Group's financial assets measured at FVTPL is monitored periodically, together with a regular assessment of their relevance to the Group's long-term strategic plans.

As of December 31, 2023, management considered the price risk for the Group's financial assets measured at FVTPL to be immaterial in terms of the possible impact on profit or loss and total equity from a reasonably possible change in fair value.

37. FINANCIAL INSTRUMENTS (continued)

b. Financial risk management objectives and policies (continued)

iii. Interest rate risk

Interest rate fluctuation is monitored to minimize any negative impact to financial performance. Borrowings at variable interest rates expose the Group to interest rate risk (Notes 18 and 19). To measure market risk pertaining to fluctuations in interest rates, the Group primarily uses interest margin and maturity profile of the financial assets and liabilities based on changing schedule of the interest rate.

At reporting date, the interest rate profile of the Group's interest-bearing borrowings was as follows:

	2023	2022
Fixed rate borrowings	38,386	27,767
Variable rate borrowings	29,738	35,274

Sensitivity analysis for variable rate borrowings

As of December 31, 2023, a decrease (increase) by 25 basis points in interest rates of variable rate borrowings would have increased (decreased) equity and profit or loss by Rp74 billion, respectively. The analysis assumes that all other variables, in particular foreign currency rates, remain constant.

iv. Credit risk

The following table presents the maximum exposure to credit risk of the Group's financial assets:

	2023	2022
Cash and cash equivalents	29,007	31,947
Other current financial assets	1,661	1,349
Trade receivable	10,667	8,634
Other receivable	266	245
Other non-current assets	155	186
Total	41,756	42,361

The Group is exposed to credit risk primarily from cash and cash equivalents and trade and other receivables. The credit risk is controlled by continuous monitoring of outstanding balance and collection. Credit risk from balances with banks and financial institutions is managed by the Group's Corporate Finance Unit in accordance with the Group's written policy.

The Group placed the majority of its cash and cash equivalents in state-owned banks because they have the most extensive branch networks in Indonesia and are considered to be financially sound banks. Therefore, it is intended to minimize financial loss through banks and financial institutions' potential failure to make payments.

The customer credit risk is managed by continuous monitoring of outstanding balances and collection. Trade and other receivables do not have any major concentration of risk whereas no customer receivable balance exceeds 3.53% of trade receivables as of December 31, 2023. (December 31, 2022: 4.33%)

Management is confident in its ability to continue to control and sustain minimal exposure to the customer credit risk given that the Group has recognized sufficient provision for impairment of receivables to cover incurred loss arising from uncollectible receivables based on existing historical data on credit losses.

v. Liquidity risk

Liquidity risk arises in situations where the Group has difficulties in fulfilling financial liabilities when they become due.

Prudent liquidity risk management implies maintaining sufficient cash in order to meet the Group's financial obligations. The Group continuously performs an analysis to monitor financial position ratios, such as liquidity ratios and debt-to-equity ratios, against debt covenant requirements.

The following is the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

38. CAPITAL MANAGEMENT

The capital structure of the Group is as follows:

	2023		2022	
	Amount	Portion	Amount	Portion
Short-term debts	9,650	4.73%	8,191	4.26%
Long-term debts	58,474	28.68%	54,850	28.52%
Total debts	68,124	33.41%	63,041	32.78%
Equity attributable to owners of the parent company	135,744	66.59%	129,258	67.22%
Total	203,868	100.00%	192,299	100.00%

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for stockholders and benefits to other stakeholders and to maintain an optimum capital structure to minimize the cost of capital.

Periodically, the Group conducts debt valuation to assess possibilities of refinancing existing debts with new ones with have more efficient cost that will lead to more optimized cost-of-debt. In case of idle cash with limited investment opportunities, the Group will consider buying back its shares of stock or paying dividend to its stockholders.

In addition to complying with loan covenants, the Group also maintains its capital structure at the level it believes will not risk its credit rating and which is comparable with its competitors.

Debt-to-equity ratio (comparing net interest-bearing debt to total equity) is a ratio which is monitored by management to evaluate the Group's capital structure and review the effectiveness of the Group's debts. The Group monitors its debt levels to ensure the debt-to-equity ratio complies with or is below the ratio set out in its contractual borrowings arrangements and that such ratio is comparable or better than that of regional area entities in the telecommunications industry.

The Group's debt-to-equity ratio as of December 31, 2023 and 2022, respectively were as follows:

	2023	2022
Total interest-bearing debts	68,124	63,041
Less: cash and cash equivalents	(29,007)	(31,947)
Net debts	39,117	31,094
Total equity attributable to owners of the parent company	135,744	129,258
Net debt-to-equity ratio	28.82%	24.06%

As stated in Note 19, the Group is required to maintain a certain debt-to-equity ratio and debt service coverage ratio by the lenders. For the year ended December 31, 2023 and 2022, the Group has complied with externally imposed capital requirements.

41. SUMMARY OF SIGNIFICANT DIFFERENCES BETWEEN PSAK AND INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRS”) (continued)

a. Land rights

Under PSAK, land rights are recorded as part of property and equipment and are not amortized, unless there is indication that the extension or renewal of land rights is not expected to be or will not be received. Costs incurred to process the extension or renewal of land legal rights are recognized as intangible assets and amortized over the shorter of the term of the land rights or the economic life of the land.

Under IFRS, land rights are accounted and presented as part of right-of-use assets. Land rights amortized over the lease period.

b. Related party transactions

Under Bapepam-LK Regulation No. VIII.G.7 regarding the Presentation and Disclosures of Financial Statements of Issuers or Public Companies, a government-related entity is an entity that is controlled, jointly controlled, or significantly influenced by a government. Government in this context is the Ministry of Finance or the Local Government, as the shareholder of the entity.

Under IFRS, a government-related entity is an entity that is controlled, jointly controlled, or significantly influenced by a government. Government in this context refers to the Government of Indonesia, Government agencies, and similar bodies whether local, national, or international.

c. Differences in entities under common control restructuring transactions

According to PSAK, the difference between restructuring transactions between entities under common control is included in the grouping of additional paid-in capital in equity. Meanwhile, according to IFRS, the difference in restructuring transactions between entities under common control is included in the grouping of retained earnings.

d. Timing difference in applying accounting standards

The Group applied PSAK 73 Leases starting from January 1, 2020. It is equivalent with accounting standards in IFRS 16 Leases which was implemented in the beginning January 1, 2019. Timing difference in applying accounting standard results in differences in some of accounts in the consolidated financial statements.

Opini

Kami telah mengaudit laporan keuangan
Program Pendanaan Usaha Mikro dan Usaha
Kecil (*Community Development Center*)
Perusahaan Perseroan (Persero)
PT Telekomunikasi Indonesia Tbk ("CDC")
terlampir, yang terdiri dari laporan posisi
keuangan tanggal 31 Desember 2023, serta
laporan penghasilan komprehensif,
laporan perubahan aset neto dan laporan arus kas
untuk tahun yang berakhir pada tanggal tersebut,
dan catatan atas laporan keuangan, termasuk
ikhtisar kebijakan akuntansi material.

Menurut opini kami, laporan keuangan terlampir
menyajikan secara wajar, dalam semua hal yang
material, posisi keuangan CDC tanggal
31 Desember 2023, serta kinerja keuangan dan
arus kas untuk tahun yang berakhir pada tanggal
tersebut, sesuai dengan Standar Akuntansi
Keuangan Entitas Tanpa Akuntabilitas Publik di
Indonesia.

Basis opini

Kami melaksanakan audit kami berdasarkan
Standar Audit yang ditetapkan oleh Institut
Akuntan Publik Indonesia ("IAPI"). Tanggung
jawab kami menurut standar tersebut diuraikan
lebih lanjut dalam paragraf Tanggung Jawab
Auditor terhadap Audit atas Laporan Keuangan
pada laporan kami. Kami independen terhadap
CDC berdasarkan ketentuan etika yang relevan
dalam audit kami atas laporan keuangan di
Indonesia, dan kami telah memenuhi tanggung
jawab etika lainnya berdasarkan ketentuan
tersebut. Kami yakin bahwa bukti audit yang telah
kami peroleh adalah cukup dan tepat untuk
menyediakan suatu basis bagi opini audit kami.

comprise of statement financial position as of
December 31, 2023, and the statements of
comprehensive income, changes in net assets and
cashflows for the year then ended, and notes to the
financial statements, including a summary of
material accounting policies.*

*In our opinion, the accompanying financial
statements present fairly, in all material respects,
the financial position of the CDC as of
December 31, 2023, and its financial performance
and cash flows for the year then ended, in
accordance with Indonesian Non-Publicly
Accountable Entities Financial Accounting
Standards.*

Basis for opinion

*We conducted our audit in accordance with
Standards on Auditing established by the
Indonesian Institute of Certified Public Accountants
("IICPA"). Our responsibilities under those
standards are further described in the Auditor's
Responsibilities for the Audit of the Financial
Statements paragraph of our report. We are
independent of the CDC in accordance with the
ethical requirements relevant to our audit of the
financial statements in Indonesia, and we have
fulfilled our other ethical responsibilities in
accordance with such requirements. We believe
that the audit evidence we have obtained is
sufficient and appropriate to provide a basis for our
audit opinion.*

Informasi lain

Pengelola CDC bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam Laporan Tahunan Tahun 2023 ("Laporan Tahunan"). Laporan Tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor independen ini.

Opini audit kami atas laporan keuangan terlampir tidak mencakup Laporan Tahunan, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas Laporan Tahunan tersebut.

Sehubungan dengan audit kami atas laporan keuangan terlampir, tanggung jawab kami adalah untuk membaca Laporan Tahunan dan, dalam pelaksanaannya, mempertimbangkan apakah Laporan Tahunan mengandung ketidakkonsistensian material dengan laporan keuangan terlampir atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca Laporan Tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan melakukan tindakan yang tepat berdasarkan peraturan perundang-undangan yang berlaku.

Tanggung jawab pengelola CDC dan pihak yang bertanggung jawab atas tata kelola terhadap laporan keuangan

Pengelola CDC bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan Entitas Tanpa Akuntabilitas Publik di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh pengelola CDC untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Other information

CDC's Management is responsible for the other information. Other information comprises the information included in the annual report year 2023 (the "Annual Report"). The Annual Report is expected to be made available to us after the date of this independent auditor's report.

Our audit opinion on the accompanying financial statements does not cover the Annual Report, and accordingly, we do not express any form of assurance on the Annual Report.

In connection with our audit of the accompanying financial statements, our responsibility is to read the Annual Report when it becomes available and, in doing so, consider whether the Annual Report is materially inconsistent with the accompanying financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions based on the applicable laws and regulations.

Responsibilities of CDC's management and those charged with governance for the financial statements

CDC's management is responsible for the preparation and fair presentation of such financial statements in accordance with Indonesian Non-Publicly Accountable Entities Financial Accounting Standards, and for such internal control as CDC's management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Tanggung jawab pengelola CDC dan pihak yang bertanggung jawab atas tata kelola terhadap laporan keuangan (lanjutan)

Dalam penyusunan laporan keuangan, pengelola CDC bertanggung jawab untuk menilai kemampuan CDC dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali pengelola CDC memiliki intensi untuk melikuidasi CDC atau menghentikan operasinya atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan CDC.

Tanggung jawab auditor terhadap audit atas laporan keuangan

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor independen yang mencakup opini audit kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit yang ditetapkan oleh IAPI akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang dibuat oleh pengguna berdasarkan laporan keuangan tersebut.

Responsibilities of CDC's management and those charged with governance for the financial statements (continued)

In preparing the financial statements, CDC's management is responsible for assessing the CDC's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting, unless CDC's management either intends to liquidate the CDC or to cease its operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the CDC's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements taken as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our audit opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing established by the IICPA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of such financial statements.

Tanggung jawab auditor terhadap audit atas laporan keuangan (lanjutan)

Sebagai bagian dari suatu audit berdasarkan Standar Audit yang ditetapkan oleh IAPI, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini audit kami. Risiko tidak terdeteksinya suatu kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi daripada yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian atas pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan suatu opini audit atas keefektifitasan pengendalian internal CDC.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh pengelola CDC.

Auditor's responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with Standards on Auditing established by the IICPA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to such risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of the CDC's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by CDC's management.*

Sebagai bagian dari suatu audit berdasarkan Standar Audit yang ditetapkan oleh IAPI, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga: (lanjutan)

- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh pengelola CDC dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan CDC untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor independen kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, memodifikasi opini audit kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor independen kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan CDC tidak dapat mempertahankan kelangsungan usahanya.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.

- *Conclude on the appropriateness of CDC's management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the CDC's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our independent auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our audit opinion. Our conclusion is based on the audit evidence obtained up to the date of our independent auditor's report. However, future events or conditions may cause the CDC to cease to continue as a going concern.*

1. INFORMASI MENGENAI UNIT COMMUNITY DEVELOPMENT CENTER

a. Pendirian dan Informasi Umum

Pusat Pengelolaan Program Tanggung Jawab Sosial dan Lingkungan (*Community Development Center*) ("CDC") didirikan oleh Perusahaan Perseroan (Persero) PT Telekomunikasi Indonesia Tbk (BUMN Pembina) melalui Peraturan Perusahaan Nomor: KD. 61/ PS150/ CTG-10/ 2003 tentang Pembentukan Organisasi Pusat Pengelola Program Kemitraan dan Program Bina Lingkungan (*Community Development Center*). Peraturan Perusahaan ini telah beberapa kali diubah terakhir dengan Peraturan Direktur *Human Capital Management* Nomor: PR.202.60/r.02/ HK200/ COP-A2000000/ 2021, tanggal 25 November 2021, tentang Organisasi *Community Development Center*.

CDC didirikan sebagai implementasi dari Keputusan Menteri Badan Usaha Milik Negara ("BUMN") No. KEP-236/ MBU/ 2003 tanggal 17 Juni 2003 tentang Program Kemitraan BUMN dan Usaha Kecil dan Program Bina Lingkungan. Keputusan Menteri BUMN tersebut didasarkan pada Undang-Undang Republik Indonesia No. 19 Tahun 2003 tentang penyisihan laba untuk pembinaan usaha kecil/koperasi serta pembinaan masyarakat.

Pada tanggal 27 April 2007, Kementerian BUMN memberlakukan PER-05/MBU/2007 tentang Program Kemitraan BUMN dan Usaha Kecil dan Program Bina Lingkungan menggantikan Keputusan Menteri BUMN No. KEP-236/MBU/2003.

1. INFORMATION OF COMMUNITY DEVELOPMENT CENTER UNIT

a. Establishment and General Information

Pusat Pengelolaan Program Tanggung Jawab Sosial dan Lingkungan (Community Development Center) ("CDC") was established by Perusahaan Perseroan (Persero) PT Telekomunikasi Indonesia Tbk ("Foster SOE") based on Decree of the Directors Number: 61/ PS150/ CTG-10/ 2003 regarding Organization of Pusat Pengelola Program Kemitraan dan Program Bina Lingkungan (Community Development Center) Establishment. This company regulation has been amended several times, most recently with Decree of the Director of Human Capital Management Number. PR. 202.60/r.02/HK200/COPA2000000/2021 dated November 25, 2021 regarding Organization of Community Development Center.

CDC was established as an implementation from the Decree of Minister of State-Owned Enterprises ("SOE") No. KEP-236/MBU/2003 dated June 17, 2003 regarding SOE's Partnership Program and Small Enterprises and Community Development Program. The Decree of Minister SOE was based on The Law of Republic of Indonesia No. 19 Tahun 2003 regarding allowance from profit to develop small/cooperative business and community development.

On April 27, 2007, Ministry of SOE issued PER-05/MBU/2007 regarding SOE's Partnership Program and Small Enterprises and Community Development Program replaced the Decree of Minister of SOE No. KEP-236/MBU/2003.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI
YANG MATERIAL (lanjutan)**

**a. Dasar Penyusunan Laporan Keuangan
(lanjutan)**

Penerapan SAK ETAP atas penyusunan laporan keuangan didasarkan pada Surat Edaran Menteri Negara BUMN No: SE-02/MBU/Wk/2012 tanggal 23 Februari 2012 tentang Penetapan Pedoman Akuntansi Program Kemitraan dan Bina Lingkungan yang berlaku mulai tahun 2012.

Laporan keuangan disusun dengan dasar akrual, kecuali untuk beberapa akun tertentu yang disusun berdasarkan pengukuran lain sebagaimana diuraikan dalam kebijakan akuntansi terkait.

Laporan arus kas disajikan dengan menggunakan metode tidak langsung, menyajikan penerimaan dan pengeluaran kas dan setara kas yang diklasifikasikan ke dalam aktivitas operasi, investasi dan pendanaan.

Tahun buku CDC adalah 1 Januari - 31 Desember.

Mata uang yang digunakan pada laporan keuangan adalah Rupiah yang juga merupakan mata uang fungsionalnya.

b. Kas dan Setara Kas

Kas dan setara kas terdiri atas saldo bank.

c. Pinjaman kepada Mitra Binaan

Pinjaman pada awalnya diakui sebesar nilai wajar dan selanjutnya diukur pada biaya perolehan diamortisasi, setelah dikurangi penyisihan penurunan nilai. Penyisihan penurunan nilai dibentuk berdasarkan evaluasi Pengelola CDC terhadap tingkat ketertagihan saldo pinjaman.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES INFORMATION (continued)**

**a. Basis of Preparation of Financial Statements
(continued)**

The implementation of SAK ETAP in the preparation of the financial statement is based on Minister of SOE Circular Letter No: SE-02/MBU/Wk/2012 dated February 23, 2012 regarding Determination Guidance of Accounting Standard for Partnership Program and Community Development that starting from 2012.

The financial statements are prepared based on the accrual basis, except for certain accounts that are prepared based on other measurement as explained in related accounting policy.

The statements of cash flows are presented using the indirect method, presenting cash receipt and payment and cash equivalents that are classified into operating, investing and financing activities.

The financial reporting period of CDC is January 1 - December 31.

Amounts in the financial statements are presented in Rupiah which also represents its functional currency.

b. Cash and Cash Equivalents

Cash and cash equivalents consist of balance of cash in banks.

c. Loan to Foster Partners

Loan is initially measured based on fair values and subsequently measured at amortized cost, after deducted by allowance for impairment losses. The allowance for impairment is based on CDC's Management evaluation on the collectibility of these loans.

d. Penyisihan Penurunan Nilai Pinjaman

Penyisihan pinjaman merupakan penyisihan atas pinjaman yang mungkin tidak tertagih. Penyisihan penurunan nilai pinjaman dibentuk berdasarkan taksiran Pengelola CDC terhadap tingkat ketertagihan saldo pinjaman.

CDC pertama kali menentukan apakah terdapat bukti objektif mengenai penurunan nilai secara individual atas pinjaman yang signifikan secara individual atau secara kolektif untuk penerimaan yang jumlahnya tidak signifikan secara individual. Jika CDC menentukan tidak terdapat bukti objektif mengenai penurunan nilai atas aset keuangan yang dinilai secara individual, terlepas aset keuangan tersebut signifikan atau tidak, maka CDC memasukkan piutang tersebut ke dalam kelompok pinjaman yang memiliki karakteristik risiko kredit yang sejenis dan menilai penurunan nilai kelompok tersebut secara kolektif.

Penyisihan pinjaman dihitung berdasarkan estimasi kerugian yang tidak dapat ditagih yaitu secara kolektif berdasarkan prosentase tertentu tingkat ketertagihan (*collection*) data historis yang ada (minimal 2 tahun). Pinjaman yang penurunan nilainya dinilai secara individual dan untuk itu kerugian penurunan nilai diakui, tidak termasuk dalam penilaian penurunan nilai secara kolektif.

c. Loan to Foster Partners (continued)

The classification of loan based on its collectibility are as follows: (continued)

iii. Doubtful when late payment of principal and/or administration service income payment are between 180 (one hundred and eighty) days and 270 (two hundred and seventy) days from the payment due date of installment as agreed in the agreement.

iv. Loss when late payment of principal and/or administration service income payment over 270 (two hundred and seventy) days from the payment due date of installment as agreed in the agreement.

d. Allowance for Impairment of Loan

Allowance for impairment of loan represents allowance for doubtful loan. This allowance is calculated based on the Management's CDC estimation of their collectibility.

CDC firstly determines whether there is objective evidence that there is impairment, individually for significant loan or collectively for loan which are insignificant. If CDC decides that there is no objective evidence of individual impairment, regardless those loans are significant or insignificant, CDC classifies these loan as having similar credit risk characteristics and determining the impairment collectively.

Allowance for impairment of loan is calculated based on estimated uncollectible loss, which collectively based on specific percentage of available historical collectibility rate (2 years of historical data at minimum). Loan which are impaired individually and of that loss are recognised, are not included in the collective impairment evaluation.

**3. PENGGUNAAN PERTIMBANGAN, ESTIMASI
DAN ASUMSI**

a. Pertimbangan

Penentuan mata uang fungsional

Mata uang fungsional CDC adalah mata uang dari lingkungan ekonomi primer di mana CDC beroperasi. Mata uang tersebut adalah mata uang yang mempengaruhi pendapatan dan beban dari jasa yang diberikan. CDC menentukan bahwa mata uang fungsionalnya adalah Rupiah.

Penyisihan penurunan nilai pinjaman

Apabila terdapat bukti objektif bahwa rugi penurunan nilai telah terjadi atas pinjaman, CDC mengestimasi penyisihan kerugian penurunan nilai pinjaman yang secara khusus diidentifikasi terdapat kemungkinan tidak tertagih. Tingkat penyisihan ditelaah oleh Pengelola berdasarkan faktor-faktor yang mempengaruhi tingkat tertagihnya pinjaman tersebut.

CDC menggunakan pertimbangan berdasarkan fakta dan situasi yang tersedia, termasuk tetapi tidak terbatas pada, jangka waktu hubungan CDC dengan mitra binaan dan status kualitas pinjaman pelanggan (Catatan 5 dan 7).

b. Estimasi dan Asumsi

Penyisihan penurunan nilai pinjaman

CDC menggunakan pertimbangan berdasarkan fakta-fakta terbaik yang tersedia untuk mengakui penyisihan secara individu atas mitra binaan dan lembaga penyalur terhadap jumlah yang jatuh tempo untuk menurunkan pinjaman individu jumlah yang diharapkan dapat ditagih. Pencadangan secara individu ini ditelaah jika terdapat informasi tambahan yang diterima yang mempengaruhi jumlah yang diestimasikan.

CDC juga melakukan penilaian penyisihan penurunan nilai secara kolektif terhadap risiko pinjaman MB, yang dikelompokkan berdasarkan karakteristik pinjaman yang sama, yang meskipun tidak diidentifikasi secara spesifik memerlukan cadangan tertentu, memiliki risiko tidak tertagih yang lebih besar dibandingkan dengan pinjaman yang diberikan kepada MB lainnya. Penyisihan penurunan nilai pinjaman dihitung berdasarkan kajian nilai terkini dan historis tingkat ketertagihan dari pinjaman.

**3. ACCOUNTING JUDGEMENTS, ESTIMATION,
AND ASSUMPTION**

a. Judgements

The determination of functional currency

CDC's functional currency is currencies from premier economic environment where CDC operates. The related currency is currency that gives influence on revenues and expenses from services given. CDC determines that their functional currency is Rupiah.

Allowance for impairment of loan

If there is objective evidence that losses because of impairment have incurred on loan, CDC estimates an allowance for impairment loss of those loan specifically identified as uncollectible. The allowance examined by Management based several factors influencing of loan collectibility.

CDC uses judgements based on available facts and situations, including but not limited to, CDC's period of relationship with foster partners and foster partner's loan quality status (Notes 5 and 7).

b. Estimations and Assumptions

Allowance for impairment of loan

CDC uses judgement based on best facts available to recognize individual allowance for foster partners and distributing partners to adjust the individual loan to its realizable amount. This individual allowance will be assessed if there is additional information received which affect the estimated amount.

CDC also assesses the allowance for impairment loss collectively, grouped by the same loan risks, regardless requires individually identified of allowance, have higher uncollectible risk compares to loan provided to other foster partners. Allowance for impairment of loan is measured based on the evaluation of current value and historical rate of loan collectability.

13. PERISTIWA SETELAH PERIODE LAPORAN POSISI KEUANGAN

Berdasarkan Peraturan Direktur *Human Capital Management* Nomor: PR.202.60/r.03/HK250/COP-A0200000/2024 tanggal 29 Februari 2024 tentang Organisasi *Social Responsibility Center* bahwa:

- Untuk memastikan efektivitas pelaksanaan Program Tanggung Jawab Sosial dan Lingkungan (TJSL) Perusahaan yang berfokus pada pilar *environment* dan *social initiative*, perlu dilakukan penyesuaian fungsi dan peran *Community Development Center* menjadi *Social Responsibility Center*;
- Terjadi penyesuaian dan perubahan atas Peraturan Perusahaan Nomor: PR.202.60/2.02/HK-200/COP/A2000000/2021 tanggal 25 November 2021 tentang organisasi *Community Development Center* menjadi organisasi *Social Responsibility Center*.

Manajemen meyakini bahwa Peraturan Direktur *Human Capital Management* Nomor: PR.202.60/r.03/HK250/COP-A0200000/2024 tanggal 29 Februari 2024 tidak berdampak signifikan terhadap operasional CDC.

13. EVENT AFTER THE REPORTING PERIOD

Based on Decree of the Director *Human Capital Management* Number: PR.202.60/r.03/HK250/COP-A0200000/2024, dated February 29, 2024 regarding Organization of *Social Responsibility Center* that:

- To ensure the effectiveness of the implementation of the Company's *Social and Environmental Responsibility Program (TJSL)* which focuses on *environmental pillars* and *social initiatives*, it is necessary to adjust the function and role of the *Community Development Center* to *Social Responsibility Center*;
- There have been adjustments and changes to Company Regulation Number: PR.202.60/2.02/HK-200/COP/A2000000/2021 dated 25 November 2021 regarding the *Community Development Center* organization becoming *Social Responsibility Center* organization.

Management believes that Decree of the Director *Human Capital Management* Number: PR.202.60/r.03/HK250/COP-A0200000/2024, dated February 29, 2024 does not have a significant impact on CDC operations.
